

22 March 2023

Dear valued supplier

At Telstra, we are committed to upholding the highest standards of business conduct and ethics, and we recognise that our suppliers play a vital role in helping us achieve this goal. Telstra's Supplier Code of Conduct outlines our expectations for all suppliers who do business with us.

Our code covers a range of topics, including labour practices, human rights, environmental sustainability, health and safety, cyber security, and anti-corruption measures. We require all our suppliers to sign and comply with this code, and we will work closely with you to ensure its successful implementation.

We believe that by working together to promote ethical and sustainable practices, we can create a better future for everyone involved in our supply chain. We appreciate your ongoing support and commitment to working with us to create a more responsible and sustainable supply chain.

Thank you and kind regards

Vicki Brady
