OFFERING CIRCULAR

Telstra Corporation Limited

(ABN 33 051 775 556)

(incorporated with limited liability in the Commonwealth of Australia)

€15,000,000,000 Debt Issuance Program

Telstra Corporation Limited (“**Issuer**” or “**Telstra**”) may offer from time to time bonds, notes and other debt instruments (together the “**Notes**”) under the Debt Issuance Program (“**Program**”) described in this Offering Circular. This Offering Circular supersedes the Offering Circular dated 29 May 2018 and any previous prospectuses, offering circulars or supplements to it. Any Notes issued on or after the date of this Offering Circular are subject to the provisions set out in it. This Offering Circular does not affect any Notes already issued. The aggregate principal amount of Notes which may be outstanding will not at any time exceed €15,000,000,000 (or the equivalent in other currencies at the date of issue of any Notes), as such limit may be increased pursuant to the Dealer Agreement (as defined in this Offering Circular).

In relation to any Tranche (as defined under “Overview of the Program”), the final terms of that Tranche, including the aggregate nominal amount of the Notes of such Tranche, the interest (if any) payable on the Notes of the Tranche, the issue price and any other terms and conditions applicable to such Tranche which are not contained in the standard terms and conditions set out in this Offering Circular will be set out in a pricing supplement (“**Pricing Supplement**”) substantially in the form set out on pages 116 to 126 inclusive of this Offering Circular.

Notification pursuant to Section 309B of the Securities and Futures Act, Chapter 289 of Singapore – Unless otherwise stated in the Pricing Supplement in respect of any Notes, all Notes issued under the Program shall be prescribed capital markets products (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

Application has been made for the listing and quotation of any Notes on the Singapore Exchange Securities Trading Limited (the “**SGX-ST**”) which are agreed at the time of issue thereof to be so listed on the official list of the SGX-ST (“**Official List**”). Such approval will be granted when a particular Series (as defined below) of Notes have been admitted to the Official List. There is no assurance that any application to the SGX-ST for such approval will be granted. The SGX-ST assumes no responsibility for the correctness of any of the statements made, opinions expressed or reports contained in this Offering Circular. The approval in-principle, admission to the Official List and quotation of any Notes on the SGX-ST are not to be taken as an indication of the merits of the Issuer, the Program or the Notes. Notes may also be listed and/or admitted to trading or quotation on or by a stock exchange, listing authority or quotation system other than the SGX-ST. Unlisted Notes may also be issued. The relevant Pricing Supplement in respect of the issue of any Notes will specify whether or not such Notes will be listed or not. The Pricing Supplement for any Notes to be admitted to the Official List of the SGX-ST will be delivered to the SGX-ST on or before the date of issue of such Notes. The Notes must be traded in a minimum board lot size of S\$200,000 (or its equivalent in another currency) for so long as the Notes are listed on the SGX-ST.

Application may also be made for Notes issued under the Program to be listed on the Australian Securities Exchange operated by ASX Limited (ABN 98 008 624 691) (“**ASX**”) and any other stock exchange (including the debt market operated by NZX Limited) on which Notes may be listed from time to time as specified in the relevant Pricing Supplement. Unlisted Notes may also be issued under the Program. The relevant Pricing Supplement in respect of the issue of any Notes will specify whether or not those Notes will be listed on a stock exchange and on which stock exchange, if any, the Notes are to be listed. It is expected that, if listed, a particular Tranche of Notes will only be listed on one stock exchange as specified in the relevant Pricing Supplement.

The Notes have not been, and will not be, registered under the United States Securities Act of 1933, as amended (“**Securities Act**”) or the securities laws of any State of the United States or any other jurisdiction. The Notes may be subject to U.S. tax law requirements. Any initial offering of Notes will be made solely to non-U.S. persons in offshore transactions pursuant to Regulation S under the Securities Act (“**Regulation S**”). Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (see “Sale and subscription” on pages 106 to 115 of this Offering Circular).

IMPORTANT – EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded, “**IMD**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded, the “**Prospectus Directive**”). Consequently no key information document required by Regulation (EU) No 1286/2014 (the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

MIFID II PRODUCT GOVERNANCE/TARGET MARKET – The Pricing Supplement in respect of any Notes may include a legend entitled “**MiFID II Product Governance**” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “**distributor**”) should take into

consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the “**MiFID Product Governance Rules**”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

BENCHMARKS REGULATION – Amounts payable on certain Floating Rate Notes issued under the Program may be calculated by reference to LIBOR, EURIBOR, HIBOR, CDOR, CNH HIBOR, BBSW or BKBM as specified in the applicable Pricing Supplement. As at the date of this Offering Circular, each of the ICE Benchmark Administration Limited (as administrator of LIBOR) and Thomson Reuters Benchmark Services Limited (as administrator of CDOR) appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (“**ESMA**”) pursuant to Article 36 of the Regulation (EU) No. 2016/1011 (the “**Benchmarks Regulation**”). As at the date of this Offering Circular, the administrators of EURIBOR, CNH HIBOR, HIBOR, BBSW and BKBM do not appear on ESMA’s register of administrators and benchmarks under Article 36 of the Benchmarks Regulation. As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmarks Regulation apply, such that each of the European Money Markets Institute (as administrator of EURIBOR), Treasury Markets Association (as administrator of CNH HIBOR), ASX Limited (as administrator of BBSW) and the New Zealand Financial Markets Association (“**NZFMA**”) (as administrator of BKBM) is not currently required to obtain authorisation/registration (or, if located outside the European Union (EU), recognition, endorsement or equivalence).

Prospective investors should consider the risks outlined in this Offering Circular under “Risk factors” before making any investment decision in relation to the Notes.

No independent verification

The Arranger and the Dealers have not independently verified all of the information contained in this Offering Circular. Neither this Offering Circular, nor any other information provided in connection with the Program or the Notes, nor any other financial statement is intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation or a statement of opinion (or a report of either of those things) by the Issuer, the Arranger or the Dealers that any recipient of this Offering Circular or any other financial statements should purchase any Notes or any rights in respect of any Notes nor does it constitute an offer or an invitation to subscribe for Notes. Each potential purchaser of Notes should determine (and will be deemed to have done so) for itself the relevance of the information contained in this Offering Circular and make its own independent investigation of the financial condition and affairs of and its own appraisals of the creditworthiness of Telstra and its purchase of Notes should be based upon such investigation as it considers necessary. Each potential investor should also have regard to the factors described under the section headed “Risk factors” on pages 17 to 30 inclusive of this Offering Circular. The Arranger and the Dealers do not undertake to review the financial condition or affairs of the Issuer during the life of the Program nor to advise any investor or potential investor in the Notes of any information coming to the attention of the Arranger or the Dealers relating to the Issuer. No advice is given in respect of taxation treatment of investors in connection with investment in any Notes and each investor is advised to consult its own professional adviser on the tax implications of an investment in any Notes in their particular circumstances.

Credit ratings

There are references in this Offering Circular to “credit ratings”. A credit rating is not a recommendation to buy, sell or hold the Notes and may be subject to revision, suspension or withdrawal at any time by the relevant credit rating agency. Each rating should be evaluated independently of any other rating.

Credit ratings may be made available only to a person (a) who is not a “retail client” within the meaning of section 761G of the Corporations Act 2001 of Australia (“**Corporations Act**”) and is also a sophisticated investor,

professional investor or other investor in respect of whom disclosure is not required under Part 6D.2 or 7.9 of the Corporations Act, and (b) who is otherwise permitted to receive credit ratings in accordance with applicable law in any jurisdiction in which the person may be located. Accordingly, anyone who is not such a person is not entitled to receive this Offering Circular and anyone who receives this Offering Circular must not distribute it to any person who is not entitled to receive it.

The credit ratings assigned to the Issuer and any Notes referred to in this Offering Circular have been or (in the case of Notes to be issued under the Program) may be issued by Standard & Poor's (Australia) Pty Ltd and Moody's Investors Service Pty Limited.

Currency of information

Neither the delivery of this Offering Circular nor any sale of Notes made in connection with this Offering Circular at any time implies or should be relied upon as a representation or warranty that the information contained in this Offering Circular concerning the Issuer and its subsidiaries is correct at any time subsequent to the date of the Offering Circular or that any other information supplied in connection with the Program is correct as of any time subsequent to the date indicated. In particular, the Issuer is under no obligation to update this Offering Circular at any time after an issue of Notes.

No authorisation

No person has been authorised to give any information or make any representations not contained in this Offering Circular in connection with the Issuer, its subsidiaries, the Program or the issue or sale of the Notes and, if given or made, that information or representation must not be relied upon as having been authorised by the Issuer or its subsidiaries or the Arranger or the Dealers.

Distribution

THIS OFFERING CIRCULAR IS NOT FOR DISTRIBUTION OR RELEASE IN THE UNITED STATES, TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED BELOW) OR TO ANY PERSON OR ADDRESS IN THE UNITED STATES.

The distribution of this Offering Circular and any Pricing Supplement and the offer or sale of Notes may be restricted in certain jurisdictions. The Issuer, its subsidiaries, the Arranger and the Dealers do not represent that this document may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any jurisdiction where action for that purpose is required, or pursuant to an exemption available in that jurisdiction, nor do they assume any responsibility for facilitating any such distribution or offering. In particular, no action has been taken by the Issuer, its subsidiaries, the Arranger and the Dealers (except as provided in the next sentence) which would permit a public offering of any Notes or distribution of this Offering Circular in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and, as more particularly set out under the section headed "Sale and subscription - Summary of Dealer Agreement" on pages 106 to 107 inclusive of this Offering Circular, the Dealers have represented to the Issuer that all offers and sales by them will be made on the same terms. Persons into whose possession this Offering Circular or any Notes come must inform themselves about, and observe, all applicable restrictions. For a description of certain restrictions on offers and sales of Notes and on distribution of this Offering Circular see "Sale and subscription" on pages 106 to 115 inclusive of this Offering Circular.

In particular:

- no prospectus or other disclosure document (as defined in the Corporations Act) in relation to the offer of the Notes has been, or will be, lodged with the Australian Securities and Investments Commission ("ASIC"). Notes may not be offered for sale or purchase, nor may applications for the sale or purchase of any Note be invited, in Australia (including an offer or invitation which is received by a person in Australia), and neither this Offering Circular nor any advertisement or other offering material relating to the Notes may be distributed or received in Australia, unless (i) the aggregate consideration payable by each offeree or invitee for the Notes is a minimum of A\$500,000 (or its equivalent in an alternative currency and, in either case, disregarding moneys lent by the offeror or its associates) or the Notes are otherwise issued in a manner which does not require disclosure in accordance with Part 6D.2 or Chapter 7 of the Corporations Act, (ii) the offer or invitation does not constitute an offer to a "retail client" within the meaning of section 761G of the Corporations Act, (iii) such action complies with all applicable Australian laws, regulations and directives in Australia (including, without limitation, the licensing requirements of Chapter 7 of the Corporations Act), and (iv) such action does not require any document to be lodged with ASIC or any other regulatory authority in Australia;

- the Notes have not been and will not be registered under the Securities Act and include Notes in bearer form that are subject to U.S. tax law requirements. The Notes may not be offered, sold, delivered or transferred within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S), except pursuant to an effective registration statement or in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act, including, without limitation, in accordance with Regulation S. Regulation S provides a non-exclusive safe harbour from the application of the registration requirements of the Securities Act. For more information see "Sale and subscription - Selling Restrictions - United States of America" on pages 113 to 114 inclusive of this Offering Circular;
- this Offering Circular has been prepared on the basis that any offer of Notes in any Member State of the EEA (each a "**Relevant Member State**") which has implemented the Prospectus Directive will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly, any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering contemplated in this Offering Circular and the relevant Pricing Supplement in relation to those Notes may only do so in circumstances in which no obligation arises for the Issuer, the Arranger, the Dealers or the Agents to publish a prospectus pursuant to Article 3 of the Prospectus Directive;
- no action has been taken by the Issuer, the Arranger, a Dealer or an Agent which is intended to permit a public offering of any Notes or distribution of this Offering Circular or any Issuer information in any jurisdiction where action for that purpose is required; and
- no Notes may be offered or sold, directly or indirectly, and neither this Offering Circular nor any Issuer information, advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations.

No offer

Neither this Offering Circular, nor any other information provided in connection with the Program or the Notes, is intended to (nor does it), constitute an offer or invitation by or on behalf of the Issuer, its subsidiaries, the Arranger or the Dealers to any person to subscribe for, purchase or otherwise deal in any Notes nor does it constitute or is it intended to be used for the purpose of or in connection with offers or invitations to subscribe for, purchase or otherwise deal in any Notes by anyone in any jurisdiction in which such offer or invitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation, and no action is being taken to permit an offering of the Notes or the distribution of this Offering Circular or any applicable Pricing Supplement in any jurisdiction where such action is required.

Forward-looking statements about Telstra

This Offering Circular contains and incorporates by reference statements that constitute forward-looking statements. All statements other than statements of historical facts included in this Offering Circular, including, without limitation, those regarding Telstra's financial position, business strategy, plans and objectives of management for future operations, are forward-looking statements. Examples of these forward-looking statements include, but are not limited to (i) statements regarding future results of operations and financial condition, (ii) statements of plans, objectives or goals, including those related to products or services, and (iii) statements of assumptions underlying those statements. Words such as "may," "will," "expect," "intend," "plan," "estimate," "anticipate," "believe," "continue", "probability," "risk," and other similar words are intended to identify forward-looking statements, but are not the exclusive means of identifying those statements. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Telstra, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such forward-looking statements are based on numerous assumptions regarding the present and future business strategies of Telstra and the environment in which it will operate in the future. These forward-looking statements speak only as of the date of this Offering Circular. Telstra expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statement contained in this Offering Circular, or incorporated herein by reference, to reflect any change in the expectations of Telstra with regard to such forward-looking statements or any change in events, conditions or circumstances on which any such forward-looking statement is based.

Stabilisation

In connection with the issue of any Tranche (as defined in "Overview of the Program" on pages 11 to 16 inclusive of this Offering Circular), the Dealer or Dealers (if any) named as the Stabilising Manager(s) (or persons acting on behalf of the Stabilising Manager(s)) in the applicable Pricing Supplement may, outside Australia and New Zealand and on a market operated outside Australia and New Zealand, over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail for a limited period after the relevant issue date. However, there is no obligation on such Stabilising Manager(s)

to do this. Such stabilisation action, if commenced, may be discontinued at any time, and must be brought to an end after a limited period. Such stabilisation action shall be undertaken in compliance with all applicable laws, regulations and rules. Should there be stabilisation action carried out in Singapore, Stabilising Managers can rely on r 4 (*Exemption in bond dealings*) of the *Securities and Futures (Market Conduct) (Exemptions) Regulations 2006*, which exempts dealings in bonds between an issuer with accredited investors and people whose business involves the acquisition and disposal or holding of securities from false trading and market manipulation prohibition provisions.

Legal considerations relating to an investment in Notes

Legal considerations may restrict certain investments. The investment activities of certain investors are or may be subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult their legal advisers to determine whether and to what extent:

- Notes are legal investments for it;
- Notes can be used as collateral for various types of borrowing; and
- other restrictions apply to its purchase or pledge of any Notes.

Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of the Notes under any applicable risk-based capital or similar rules.

NOTES MAY NOT BE A SUITABLE INVESTMENT FOR ALL INVESTORS

Investors should have (either alone or with the help of a financial adviser) sufficient knowledge and experience in financial and business matters to meaningfully evaluate the merits and risks of investing in the Notes and the information contained, or incorporated by reference, in this Offering Circular and any applicable supplement or Pricing Supplement as well as access to, and knowledge of, appropriate analytical tools to evaluate such merits and risks in the context of their particular circumstances.

Each investor (either alone or with the help of a financial adviser) should also:

- understand thoroughly the terms and conditions of the relevant Notes and be familiar with the behaviour of financial markets;
- be able to evaluate possible scenarios for economic, interest rate and other factors that may affect an investment in the relevant Notes and its ability to bear the applicable risks; and
- have the expertise to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact on the investor's overall investment portfolio.

In addition, each investor should have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes.

In addition, particular issues of Notes may not be an appropriate investment for investors who are inexperienced with respect to:

- the applicable currencies, redemption or other rights or options; or
- investments where a currency of payment and the investor's currency are different.

Unless otherwise permitted by then current laws and regulations, Notes (including Notes denominated in Sterling) with a maturity of less than one year and in respect of which the issue proceeds are to be accepted by the Issuer in the United Kingdom or whose issue otherwise constitutes a

Zero Coupon Notes: Zero Coupon Notes may be issued at their principal amount or at a discount to it and will not bear interest.

Dual Currency Notes: Payments (whether in respect of principal or interest and whether at maturity or otherwise) in respect of Dual Currency Notes will be made in the currencies, and based on the rates of exchange, specified in the relevant Pricing Supplement.

Index Linked Notes: Payments of principal in respect of Index Linked Redemption Amount Notes or of interest in respect of Index Linked Interest Notes will be calculated by reference to the index and/or formula specified in the relevant Pricing Supplement.

Interest Periods and Interest Rates: The length of the interest periods for the Notes and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate, or both. Interest accrual periods permit the Notes to bear interest at different rates in the same interest period. All such information will be set out in the relevant Pricing Supplement.

Redemption: The relevant Pricing Supplement will specify the basis for calculating redemption amounts. Unless permitted by then current laws and regulations, Notes (including Notes denominated in Sterling) with a maturity of less than one year and in respect of which the issue proceeds are to be accepted by the Issuer in the United Kingdom or whose issue otherwise constitutes a contravention of section 19 of the FSMA must have a minimum redemption amount of £100,000 (or its equivalent in other Specified Currencies).

Redemption by instalments: The Pricing Supplement issued in respect of each issue of Notes that are redeemable in two or more instalments will set out the dates on which, and the amounts in which, such Notes may be redeemed.

Optional redemption: The Pricing Supplement issued in respect of each issue of Notes will state whether such Notes may be redeemed prior to their stated maturity at the

option of the Issuer (either in whole or in part) and/or the holders, and if so the terms applicable to such redemption.

Tax redemption:

Except as provided in "Optional redemption" above, Notes will be redeemable at the option of the Issuer prior to maturity only for tax reasons. See Condition 18.2 ("Early redemption for taxation reasons").

Withholding tax:

All payments in respect of the Notes will be made free and clear of withholding taxes imposed in Australia, unless required by law. In that event, the Issuer will (subject to certain exceptions) pay such additional amounts as will result in the Noteholders receiving such amount as they would have otherwise received had no withholding or deduction been required. See Condition 25 ("Taxation").

All payments in respect of New Zealand Domestic Notes will be made in full free and clear of withholding taxes imposed in New Zealand unless required by law.

- (b) in the case of Registered Euro/CMU Notes denominated in Renminbi and not held in CMU, the fifth day before the due date for payment;

- (e) in the case of New Zealand Domestic Notes, the tenth calendar day before the due date for payment; and
- (f) in the case of Canadian Domestic Notes, the fifteenth calendar day before the due date for payment.

So long as the Notes are represented by a Global Note, the "Record Date" shall be the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment where "Clearing System Business Day" means a day on which the relevant clearing system is open for business except 25 December and 1 January.

Listing and admission to trading:

Application has been made for the listing and quotation of any Notes on the SGX-ST which are agreed at or prior to the time of issue to be listed on the Official List of the SGX-ST. If the application to the SGX-ST to list a particular Series of Notes is approved, such Notes listed on the SGX-ST must be traded on the SGX-ST in a board lot size of at least S\$200,000 (or its equivalent in other currencies). There is no assurance that any application to the SGX-ST for such approval will be granted.

SGX-ST is not a regulated market for the purposes of MiFID II. The Issuer may also make an application for Notes issued under the Program to be admitted to listing, trading and/or quotation on or by a stock exchange, listing authority or quotation system other than the SGX-ST, including the ASX and the debt market operated by NZX Limited.

Unlisted Notes may also be issued.

Risk factors

This section contains a description of what the Issuer considers to be principal risk factors that are material to an investment in the Notes. They are not the only risks which the Issuer faces, but are risks the Issuer considers may affect its ability to fulfil its obligations under the Notes. It is possible that the Issuer is not aware of something that may present a risk or that a risk that it does not consider material is or becomes material and, in either case, prevents the Issuer from fulfilling those obligations. The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Program, but the Issuer may be unable to fulfil its obligations under the Notes for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Notes are exhaustive.

These risk factors may not occur and the Issuer is not in a position to express any view on the likelihood of any one of these risks materialising. However, if any of these risks (or any other event not described below) were to occur, it is possible it could result in an investor losing the value of its entire investment in the Notes or part of it.

In this section, we, us, our, Telstra, Company and Telstra Group all mean Telstra Corporation Limited, an Australian corporation, and its controlled entities taken as a whole.

RISKS ASSOCIATED WITH OUR BUSINESS

Introduction

Risks associated with our business are relevant to investors because they may adversely affect the value of the Notes and our ability to fulfill our obligations under the Notes. In addition, if any of these risks materialise, Telstra could be subject to legal action or other adverse consequences.

The Issuer is currently the ultimate holding company for all other companies and entities within the Telstra Group. The Issuer is not a subsidiary of, nor controlled by, any other company. Our business activities are dependent on the level of products and services required by our customers which can be affected by market conditions.

Our financial performance could be adversely affected by a worsening of general economic conditions in the markets in which we operate, which could lead to a decline in customer spending and the use of our mobile, data and other products and services, as well as by Australian and offshore trading market conditions.

Our business is operating in a period of significant change and we are today in one of the most dynamic and challenging periods the company has faced. This includes the migration to the nbn™ network, competitive challenges, the ever-accelerating pace of technological change and preparation for the transition to 5G.

In this context there are other risks that could adversely affect our financial performance including risks relating to regulation; competition; strategy; health, safety, wellbeing and environment; supply chains; cyber security; privacy; intellectual property; people and culture; network; infrastructure; financial markets; insurance and tax.

Regulation and regulatory change

We operate in a highly-regulated environment which may have a major impact on our strategy and business model and drive cost, complexity and compliance burdens into our business, affecting its profitability. In particular, regulation imposes limits on our ability to pursue certain business opportunities and activities affecting the returns we can generate on our assets.

We believe that regulation is a significant ongoing risk to the company. In addition, changes in government may add to the risk of policy and regulatory change. There can be no assurances as to future policies, ministerial decisions or regulatory outcomes. These may significantly constrain our business.

We face substantial regulatory risks that we believe have, and will continue to have, substantial adverse effects on our operations, competitiveness and financial performance. These include:

1. **mandated access to Telstra networks:** part of our strategy involves deploying next-generation networks and services, including our Telstra mobile network. Regulatory change may require us to allow competitor access to our next-generation networks and services which could materially adversely affect our investment returns, earnings and financial performance;
2. **access pricing:** we are required to provide certain services to our competitors using our networks at a price determined by the Australian Competition and Consumer Commission (“ACCC”). In many cases we believe the ACCC proposes prices that are below our efficient cost

of supply. The ACCC's setting of regulated prices could have a material impact on Telstra. There is no right to a merits review of ACCC decisions to require access or set prices and the ACCC may hold a public inquiry at any time into whether to mandate and regulate competitor access to our networks. We are also dependent on the access prices that nbn Co charges us for access to its network. We believe the regulatory regime allows nbn Co to increase access prices materially above current levels. Without government or ACCC regulatory intervention, the profitability of Telstra's nbn business could be materially adversely affected;

3. **conduct regulation:** the ACCC is empowered to regulate conduct in, among others, the telecommunications sector and may in the future regard our conduct to be a breach of applicable law. For example, a refusal by us to supply services to our competitors may, in the ACCC's view, be a breach of law, and the ACCC may rely upon the potential for very large fines in an endeavour to have us modify what we believe to be legitimate commercial behaviour;
4. **wide government and regulatory discretion:** Commonwealth government ministers and regulatory agencies have broad and, in some instances, discretionary powers to impose and vary licence conditions and other obligations on us. Changes in regulation may cause us to incur additional compliance costs, seek additional governmental approvals and may adversely affect our business and results of operations. Criticisms of the regulatory framework applying to the banking industry, as set out by the Hayne Royal Commission, may result in telecommunications regulators taking a different approach to investigating, applying and enforcing regulations applying to Telstra;
5. **regulation constraining investment decisions:** our ability to invest in business including new technologies may be constrained by regulatory risk. As part of the pack of legislation introduced by the Commonwealth Government to establish the national broadband network (see below), the Telecommunications Act 1997 (Cth) was amended to prohibit the operation of networks which are built, altered or extended after 1 January 2011 so that they become capable of supplying superfast carriage services to residential or small business customers without those networks being operated on a 'wholesale only' basis (i.e. structurally separated) and supplying a mandatory layer 2 Ethernet bitstream service to access seekers. On 14 December 2014, the Minister for Communications issued a new carrier licence condition applying to all carriers, including Telstra, which imposed additional requirements on the operation of such networks. On 10 May 2018, the Australian House of Representatives passed a Bill that, if passed by the Australian Senate and given royal assent, will further tighten the legislative constraints on building, altering or extending networks supplying superfast services to residential customers. These provisions and carrier licence condition could have an adverse effect on our ability to invest in such networks in the future;
6. **information disclosure:** regulation or regulators may require the disclosure of information in a manner which does not protect confidentiality and which will be damaging to our commercial interests and the security of our networks;
7. **spectrum:** our ability to operate a competitive mobile business is highly dependent on having ongoing access to sufficient spectrum. The availability of spectrum is subject to Ministerial discretion in consultation with the Australian Communications and Media Authority (ACMA) and spectrum auctions are often competitive. If we are not successful over time in securing sufficient spectrum at auction for the medium to longer term at an acceptable price and at the required time, then mobile network products and services (including the introduction of 5G) are likely to be more difficult to provide economically and efficiently which may result in competitive disadvantage, poorer performance levels and associated customer dissatisfaction. It may also limit introduction of the products and services that are necessary to drive increased revenue growth and profitability;
8. **SSU compliance:** we have entered into a Structural Separation Undertaking ("SSU") which obliges us to commit to increased equivalence and transparency measures between our retail and wholesale businesses, until 1 January 2020. We have implemented a comprehensive compliance framework across our business for the SSU. Failure to comply with the SSU may lead to significant enforcement action by the ACCC, including financial penalties. Further, an extension of the period during which we are subject to the SSU, which is at the discretion of the Minister, will require us to retain the compliance framework for longer than anticipated; and
9. **Telecommunications Sector Security Reform:** the Telecommunications Sector Security Reform ("TSSR") was implemented in September 2018 with the aim of strengthening the framework for managing national security risks to Australia's telecommunications networks. Under the reform, the Home Affairs Minister could direct us to cease using or supplying a carriage service, or cease doing something in connection with operating our networks/facilities or supplying a carriage service, within very short timeframes if the Home Affairs Minister considers the use or supply would be prejudicial to security. We could also be directed to provide information or produce

documents if the Home Affairs Minister believes that the information or document is relevant to assessing compliance with our TSSR security obligations. Telstra may also be liable for civil penalties if it is deemed to be non-compliant. Telstra could also incur significant costs if the Attorney General issued a direction regarding a change to a network where Telstra was already advanced in that process.

Because of these regulatory factors, there is a risk that we are, and could be, exposed to significant limitations, uncommercial imposts, penalties and compensation payments in relation to our current and future activities and assets. This may make it prudent on some occasions for us to cease, or choose not to engage in, business activities in which we might otherwise engage; or avoid, defer or abandon certain capital projects. These regulatory risks could therefore have an adverse effect on our ability to pursue certain business opportunities and activities and the returns we can generate on our assets, and could benefit our competitors. This may in turn adversely affect our operations, competitiveness and financial performance.

Further, changes in governmental policy and regulation may also have an impact on us. In addition to changes in laws and regulations, the policies and practices of the government and regulators may change and political developments may have an unexpected or adverse impact on market conditions generally or specifically affect our activities, business or practices. As we consider investment opportunities in offshore markets we also face exposure to regulation and regulatory bodies in those jurisdictions.

National Broadband Network

For an overview of the nbn™ network as it relates to Telstra, see the “Corporate Profile – National Broadband Network and its impact on Telstra” section on pages 34 to 36 inclusive of this Offering Circular.

There are risks related to successfully transitioning to be an access seeker and reseller on the nbn network and serving our fixed-line customers in a lower-margin environment. Transitioning to the nbn network exposes us to a potential loss in fixed-line market share and income, increased costs and poor customer experiences. A successful transition is necessary to maintain our share in the fixed market and build future products that will drive growth from our core business. There are also risks related to the delivery of planning, design, construction and construction management services to **nbn Co**, including that we will be able to do so at an appropriate margin.

Our experience to date is that the nbn network is having a very material impact on the economics of the whole telecommunications industry in Australia and has triggered a step change in the competitive environment. The rollout of the nbn network is also impacting customer satisfaction overall, including impacts caused by the connection experience, connection speeds and affordability. Wholesale broadband prices through nbn Co are also impacting margins for resellers, making the economics for nbn resellers such as Telstra challenging, in some cases to the point where providing an nbn™ service is uneconomic. The nbn network will also have one-off and recurring impacts on our earnings (including, without limitation, as a result of increased connectivity virtual circuit (“**CVC**”) and access virtual circuit (“**AVC**”) payments to nbn Co and reductions in fixed, voice and Data & internet protocol (“**IP**”) revenues including wholesale). The Definitive Agreements partially compensate us for the effect of the nbn network. Further detail on payments under the Definitive Agreements are set out in ‘National Broadband Network and its impact on Telstra’ on pages 34 to 36 of this Offering Circular.

However, the impact of the nbn network goes beyond those agreements, including through transitioning costs and ongoing operational costs (including access payments, cost to connect charges and commercial works costs). The rollout of the nbn network will also to a lesser extent impact useful lives of other assets (including transmission and switching technologies), which will not be transferred to nbn Co. The full impact on the useful lives of those assets is not yet known and will depend on nbn Co's selection of access technologies in each rollout region and the sequence in which the rollout of the nbn network progresses.

We have estimated the net negative recurring impact from the rollout of the nbn network on our EBITDA is likely to be around A\$3 billion per annum by FY22.

In addition, while the Definitive Agreements (which originally became unconditional on 7 March 2012, and were revised with effect from 26 June 2015) are expected to provide benefits and opportunities for Telstra, they also involve a number of material risks and operational challenges.

These risks include the possibility that:

- the underlying assumptions made by Telstra in assessing the Definitive Agreements prove incorrect, including in relation to the advantages and disadvantages and the alternative options considered, and the speed and density of the rollout of the nbn™ fibre network;

- Telstra may not meet its obligations under the Definitive Agreements, such as meeting the agreed fitness standards for the infrastructure to be made available to nbn Co in the required timeframes;
- Telstra's transition from a vertically integrated provider of services on its own copper network and HFC cable network to becoming a reseller and user of services on the nbn network is more costly or challenging than anticipated and may adversely impact our margin as a reseller; and
- nbn Co may not be able to provide the services for which Telstra will rely on nbn Co.

The revised Definitive Agreements which came into effect in 2015 relate to facilitating a change in the technology which nbn Co is deploying to a multi-technology mix ("**MTM**") model including Fibre to the Node ("**FTTN**"), Fibre to the Basement ("**FTTB**"), Fibre to the Curb ("**FTTC**") and HFC in addition to Fibre to the Premises ("**FTTP**") deployment. The revised Definitive Agreements contemplate the progressive transfer of ownership of certain copper and HFC assets to nbn Co to facilitate the MTM model. While we have retained existing shareholder protections and also negotiated new protections for shareholders in lieu of the protection that our continued ownership of those assets provided under the original agreements, the new protections may not turn out to deliver the same level of protection that continued ownership afforded under the original agreements. Detailed information on the revised Definitive Agreements can be found at <http://www.telstra.com.au/aboutus/media/media-releases/telstra-signs-revised-nbn-definitive-agreements-1>.

Competition

The telecommunications industry in Australia and internationally is competitive and subject to significant change (including in respect of the accelerating pace of technological change and the preparation for the transition to 5G). We are today in one of the most dynamic and challenging periods the company has faced. For example, the industry is facing competitive dynamics that have led to increasing pressure on both fixed and mobile margins.

We face significant competition from local and international competitors, including carriers, carriage service providers and Over the Top ("**OTT**") service providers, which compete vigorously for customers in the various markets and sectors in which we operate. This competition comes from existing competitors (which may include mergers of existing operators) as well as new and emerging competitors with lower cost bases, and agile, innovative business models.

The effect of increasingly competitive market conditions, including any decline in the pricing, purchase and use of our products and services, may adversely impact on our earnings and assets.

In our mobile business, there is also an increasing number of mobile virtual network operators ("**MVNOs**"). We are also seeing continued pressure on mobile pricing, increasing data allowances, additional OTT service providers and the anticipated introduction of new 5G mobile offerings.

In the market for fixed broadband services, there are over 180 resellers of nbnTM services in Australia, and this is leading to significant downward pressure on pricing.

We are also experiencing strong competition in our other businesses such as Network Applications and Services ("**NAS**"), Data & IP, and our international businesses.

Other competition risks include:

- innovation and disruptive technologies can cause market discontinuity, which adversely impacts on business models where there is failure to transition and adapt quickly;
- given the ongoing decline in revenues from our traditional high-margin fixed line public switched telephone network ("**PSTN**") products and services, if we are not successful in increasing the revenues and profitability of our other products and services, this will negatively impact our overall financial performance;
- competition in the Australian telecommunications market and advertising market could cause us to lose market share and reduce our prices and profits from current products and services. We may also lose market share and revenue if we don't adapt to changes in the industry and competitive landscape;
- the nbn network, in the longer term, could further accelerate the existing price and network based competition and the introduction of the nbn network and migration of customers to the nbn network is expected to accelerate fixed line competition and the decline in our fixed line voice revenues; and

- network and system failures could damage our reputation and earnings.

Effective innovation is fundamental in securing revenue streams and withstanding challenges from a changing competitor and industry landscape. Our capacity and ability to respond to the innovation challenge are related to the agility of our internal process and the capability and flexibility of our people. In order to compete effectively, we may be required to make significant expenditures. There is no assurance that such expenditures will help us maintain or grow market share or that such investment is adequate to address these issues.

Risks related to our T22 strategy and strategic investment program

Rapid changes in telecommunications technology and IT are lowering barriers to entry and challenging the ability of companies to compete in the telecommunications industry. Recent industry change is driven by accelerated decline in PSTN revenues, new mobile carrier entrants, the potential merger of existing operators, fixed to mobile migration for both voice and data, higher expectations of customers as they use more complex products and services, higher demand for speed and data and the difficulty of monetising that demand, product mix shift to lower-margin products, higher cost of goods sold (including mobile handsets, tablets, broadband modems and NAS hardware) and higher service fees (including, for example, for products such as Foxtel, Stay Connected, mobile content and NAS related costs), increasing competition due to wholesale price reductions and increased price-based competition, changing business models flowing from innovation and disruptive technologies leading to market discontinuity and the rollout of the nbn network including CVC and AVC payments. These influences are changing the income mix of our products and the composition of our earnings and is resulting in lower margins and may make it challenging for us to develop new revenue streams.

There are risks that we will not be successful in delivering against our T22 strategy, and there are many influences on our future earnings, with the main influences being the net negative recurring impact of the rollout of the nbn network on our EBITDA (noted on page 19 of this Offering Circular), our ability to deliver productivity benefits via our productivity program (which is targeting annualised cost savings of A\$2.5 billion by FY22), our ability to achieve returns from our program to invest up to an additional A\$3 billion capital expenditure (from FY17-FY19) (noted on page 32 of this Offering Circular), and our ability to achieve growth in underlying earnings.

There are risks that our investments in networks and business initiatives will not be successful in maintaining our strategic advantage in a heavily competitive environment. The execution of our digitisation program also carries a significant level of risk due to the program's large scale, complexity and the significant cross-company efforts required to deliver its objectives of organisational speed and agility in a market that is constantly being disrupted by competitors and new technologies.

There is a risk that we will not be successful in delivering an excellent customer experience and then be able to differentiate from our competitors in the context of increasingly competitive markets.

It is important we have clear, transparent and timely communications with our stakeholders (including customers, shareholders, investors, government and regulators) about our company and corporate strategy, understand the views of our stakeholders and maintain good relationships with them to enable us to execute our strategy as intended. There is a risk that, if we are not successful in doing so, that may adversely affect our ability to execute our strategy.

Health, Safety, Wellbeing and Environment

We inherently carry a high level of health, safety, wellbeing and environmental risk considering the nature of the infrastructure we maintain and the activities we undertake on a daily basis. This includes risks to employees, members of the public and environmental hazards associated with our work, our products and services and facilities in which we operate. Failure to identify and then eliminate or minimise these risks could affect our reputation with stakeholders and customers and expose us to regulatory action or litigation.

Concerns have been expressed by some that the emission of radio frequency electromagnetic energy ("EME") by wireless technology including mobile telephone handsets and transmission equipment (for example, base stations) may pose health risks at exposure levels below existing guideline levels. Actual or perceived health risks could lead to decreased mobile communications usage, future legal claims and calls for increased regulatory restrictions in relation to mobile handsets and transmission equipment. We rely on the expert advice of national and international health authorities such as the World Health Organisation ("WHO") and the Australian Radiation Protection and Nuclear Safety Agency ("ARPANSA") - an agency of the Commonwealth Department of Health - for overall assessments of health and safety impacts. In addition, any widespread perception of EME risks may lead to decreased mobile communication usage, which may decrease our wireless business and may adversely affect our revenues and financial condition.

Supply of equipment and support services

We are dependent on many third-party suppliers globally to source network infrastructure and other equipment, as well as network related and other significant support services. Our dependence on these third-party suppliers for support and delivery of core business functions and customer service means that supply chain incidents, issues and single points of failure can cause significant impacts to our customers. The withdrawal or removal from the market of one or more major third-party suppliers could also adversely affect our operations and could require additional capital or operational expenditures. In addition, commercial counterparties such as our suppliers, contractors and customers, may not comply with the standards we apply, causing adverse reputational, legal and financial impacts.

Cyber threats

We may be exposed to cyber security risks, including cyber attacks, which could result in equipment failures, disruptions in our operations or network, and leakage and unauthorised dissemination of sensitive information about Telstra and our customers. Our inability to provide services to our customers as a result of, and the costs to remedy the damage arising from, such events may result in significant expense, loss of market share, regulatory action, customer claims and loss of reputation.

Privacy

Failure to protect customer information, such as through a breach of security resulting in the unauthorised use or disclosure of our customers' personal information, could materially adversely impact our reputation, lead to customer complaints and claims for compensation. It could also result in breaches of privacy regulations and adverse determinations and directions to comply by privacy regulators and other authorities in Australia and overseas. Changes in technology which affect how personal information is collected and can be used, strengthening of data protection regulatory requirements including those relating to mandatory breach notifications in Australia and overseas, changes in our business model and how we digitise our business and changes in expectations from government and industry groups on issues like the collection and storage of metadata and data sovereignty, could increase these risks over time.

Intellectual property risk

Our intellectual property portfolio includes registered patents and trademarks and other intellectual property rights on which our technology, products, brands and services depend. Despite the steps that we have taken to protect our intellectual property, we cannot be certain that any rights will be granted, or renewed, or will be sufficiently broad to protect our technology, products, brands and services. Changes to intellectual property laws and regulations, or the practices of administrative bodies, may adversely affect our intellectual property. Third parties may use our intellectual property without authorisation or license, and may challenge the validity of our intellectual property.

We may inadvertently use the intellectual property of third parties without authorisation or licence, resulting in allegations being made or formal proceedings being brought against us. The outcome of formal proceedings is difficult to predict, and may be expensive and time consuming.

People and Culture

The skills and experience of our people have an influence on our ability to deliver against our strategy. With the increasing competition for talent across the industry and as technology evolves, we are continuing to manage our ability to attract, retain and train our workforce. Some of the relevant industry skills are in short supply worldwide. A significant and/or prolonged inability to attract and retain skilled and experienced people as well as retain our corporate knowledge may impact our ability to remain competitive, and any increase in expenditures to recruit and retain skilled and experienced employees may adversely affect our profitability and net income.

In the future, our workforce will be smaller, with a structure and way of working that is agile enough to deal with rapid change. This will result in a significant reduction in our workforce and number of roles over the next three years (net reduction of 8,000 full time equivalent employee and contractor roles). This transformation leads to the risk that we may not be able to successfully create a culture that embraces change and simplification, and enables us to make the necessary adjustments to our business model and ways of operating.

Network and business resilience

We have a vast geographical spread which increases the vulnerability of our network infrastructure to damage or interruption from a range of factors including floods, wind, storms, fires, power loss, equipment failures, cable cuts, accidents, intentional wrongdoing, and/or dependency on key suppliers. The networks and systems that make up our infrastructure require regular maintenance and upgrades that may cause disruption. They may also

be dependent on the ongoing support of key suppliers.

A high dependency on technology and increased integration of customer services means disruptions to our networks can significantly impact the continuity of our business operations and delivery of services to our customers. The occurrence of natural disasters or other unanticipated problems at our facilities or any other damage to, or failure of, our networks and/or systems could result in consequential interruptions in service across our integrated infrastructure. Given the breadth and complexity of our underlying infrastructure, we expect our exposure to climate change-related risk will increase over time in line with the frequency and intensity of extreme weather events. Network and/or system failures, hardware or software failures, cyber attacks, growth of network traffic or human errors could also affect the quality of our services and cause temporary service interruptions.

Our IT systems are complex and there is a risk that our ability to support strategic priorities in customer service and growth products may be delayed. Our IT systems can also be subjected to viruses, denial of service and other similar attacks and external threats which may damage our systems and data and those of our customers. Any of these occurrences could result in customer dissatisfaction and damages or compensation claims, as well as reduced earnings.

The occurrence of any or all of these risks may have a material adverse impact on our operations, competitiveness and financial performance.

Subsidiaries, international operations, mergers & acquisitions, joint ventures and other equity investments

Some of our domestic and international activities are conducted through subsidiaries, joint ventures and other equity investments and, under the governing documents for some of these entities, certain matters such as the approval of business plans and decisions as to capital invested and the timing and amount of cash distributions require the agreement of our co-participants. Our co-participants may have different approaches with respect to the investment and the markets in which they operate and on occasions we may be unable to reach agreement with them. Any dispute or disagreement from time to time with our partners may negatively affect our ability to pursue our business strategies.

In some cases, strategic or venture participants may choose not to continue their participation. In addition, our arrangements with our co-participants may expose us to additional investment, capital expenditure or financing requirements. There are also circumstances where we do not participate in the control of, or do not own a controlling interest in an investment, and our co-participants may have the right to make decisions on certain key business matters with which we do not agree.

In addition, we may not be able to achieve targeted benefits from or successfully implement planned transactions, such as acquisitions, divestments, mergers or joint ventures. Such transactions may fail to realise the benefit we originally anticipated. Furthermore, we may not succeed in integrating acquired operations with our existing businesses. As a result, there is a risk that Telstra may end up making significant impairments and write-downs in the value of assets which have been acquired.

Where we have made equity investments or entered into ventures in countries other than Australia we may also be affected by the political, economic, regulatory and legal environments operating in those countries which are different from those in Australia. As a result, our international operations may be subject to numerous unique country risks, including multiple and conflicting regulations, changes in regulatory requirements, foreign investment regulations, regulatory compliance interpretations and enforcement practices and changes in political and economic stability and fluctuations in exchange rates. These factors could materially and adversely affect our future revenues, operating results and financial condition, or negatively affect our ability to pursue our business strategies with respect to the concerned entities or business objectives and the markets in which they operate.

We have exposure to the equity markets through the defined benefit component of our superannuation fund as described in Note 5.3 of the financial statements in our 2018 Annual Report which is incorporated by reference into this Offering Circular (see "Documents incorporated by reference" on page 9 of this Offering Circular).

Financial markets and exchange rate risk

Volatility in financial markets may impact our ability to fund our business in a similar manner, and at a similar cost, to the funding raised in the past. Other risks we may face are over reliance on a particular funding source or a simultaneous increase in funding costs across a broad range of sources. At times in recent years, global credit markets have experienced difficult conditions and volatility. Challenging market conditions generate increased risks from decreased liquidity, reduced availability of borrowings, greater volatility, widening of credit spreads and lack of price transparency in credit markets. Changes in investment markets, including changes in interest rates, exchange rates and returns from equity, property and other investments will affect our financial performance.

Foreign currency exchange risk arises primarily from foreign currency borrowings, transactional exposures relating to receipts and payments settled in foreign currencies or with prices dependent on foreign currencies, and trade and other creditor balances denominated in a foreign currency. It also arises from the translation into Australian dollars of net assets of foreign controlled entities which have a foreign functional currency. A portion of our profits is derived from offshore business activities, which are conducted in a broad range of currencies. As such, changes in currency exchange rates may adversely impact our financial results and operations.

We use derivative financial instruments to assist in managing our exposure to financial risks, including market risks (interest rate risk and foreign currency risk), credit risk and liquidity risk. However, there is no guarantee that any measures taken will be successful in managing such risks.

Insurance risk

Telstra buys insurance as protection against some risk exposures where the potential for loss is at material levels. Some types of losses such as those resulting from wars, acts of terrorism or asbestos related disease, are not generally insurable. This inability to insure, or the economic decision not to obtain insurance, could result in significant financial loss upon the occurrence of a major uninsured event.

Tax risk

Future tax developments or changes to tax laws or their interpretation may also have a material adverse effect on the Telstra Group. We operate in a range of jurisdictions with different tax regimes which are subject to change. Our after tax earnings may be impacted by changes to our tax treatment or the tax treatment of any of our controlled entities.

FACTORS WHICH ARE MATERIAL FOR THE PURPOSE OF ASSESSING RISKS ASSOCIATED WITH NOTES ISSUED UNDER THE PROGRAM

In this section “Risk factors - Factors which are material for the purpose of assessing risks associated with Notes issued under the Program”, we, us, our and Telstra all mean the Issuer.

Risk factors associated with the terms of the Notes

The risks of a particular Note will depend on the terms of the relevant Note, but may include, without limitation, the possibility of significant changes in:

- the values of the applicable currencies or interest rates; or
- the creditworthiness of entities other than Telstra.

Such risks generally depend on factors over which we have no control and which cannot readily be foreseen, such as economic and political events and the supply of and demand for the relevant currencies. Neither the current nor the historical price, value or performance of the relevant currencies or the relevant entities should be taken as an indication of future price, value or performance during the term of any Note.

Market and related risks

The value of an investment in the Notes may fluctuate due to various factors, including investor perceptions, worldwide economic conditions, interest rates, debt market conditions and factors that may affect our financial performance and position. Notes may trade at a market price below their issue price.

In particular, the following risks may affect an investment in the Notes:

- **our financial performance and credit rating:** a change in our financial condition or credit rating may impact on the market value and the transferability of the Notes;
- **default risk:** if an event of default occurs under the Notes, or we (or any of our agents) fail to perform any obligation in relation to the Notes, such event or failure may impact on the value of an investment in the Notes, the transferability of the Notes and the ability of a holder to recover amounts due under the Notes;
- **unsecured investment:** Notes issued under the Program are unsecured and, in making an investment in the Notes, an investor is relying on our general ability to repay principal and pay interest at the time it is due and fulfil our other obligations in connection with the Notes, without recourse to any particular asset or security;

- **insolvency risk:** in the event that we become insolvent, insolvency proceedings will be governed by Australian law or the law of another jurisdiction determined in accordance with Australian law. The insolvency laws of Australia or that other jurisdiction, and the treatment and ranking of Noteholders, other creditors and shareholders under those laws, may be different from the position if we were subject to the insolvency laws of an investor's home jurisdiction;
- **market and liquidity risks:** Notes may have no established trading market when issued (for example, Notes may be allocated to a limited pool of investors), and one may never develop (and, if a market does develop, it may not be liquid). There is no obligation on the Dealers to effect secondary sales of the Notes and investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed trading or secondary market. Illiquidity may have a severely adverse effect on the market value of the Notes;
- **interest rate risks:** an investment in fixed rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of such fixed rate Notes. Increases in relevant interest rates may adversely affect the market value of the Notes.

In addition, the market values of Notes issued at a substantial discount or premium to their nominal amount may fluctuate more in relation to general changes in interest rates than to prices for conventional interest-bearing securities;

- **currency risk:** we will pay principal and interest on the Notes in the currency in which the Notes are denominated which may present risks if an investor's financial activities are denominated principally in another currency, as exchange rates may significantly change over the tenor of the Notes. In addition, government and monetary authorities may impose exchange controls or devalue or change currencies (as some have done in the past) in a manner that could adversely affect the market value of the Notes. In particular, Notes denominated in Renminbi are subject to additional risks. Renminbi is not freely convertible or transferable and there are significant restrictions on remittance of Renminbi into and outside the PRC, which may affect the liquidity of such Notes and the relevant Issuer's ability to source Renminbi outside the PRC to service such Notes. If the relevant Issuer is unable to source Renminbi, it may pay holders of such Notes in U.S. dollars. Please refer to "Risks related to Notes denominated in Renminbi" below;
- **non-payment of instalments:** Notes may be issued where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of its investment;
- **optional redemption risks:** where an optional redemption feature exists it may limit the market value of Notes. During any period if we elect to redeem the Notes, the market value of the Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. We may decide to redeem the Notes when our cost of borrowing is lower than the interest rate on the Notes. At those times, an investor may not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed;
- **stub amounts:** in relation to Notes which have a denomination consisting of the minimum Specified Denomination (as defined in the Terms and Conditions of the Notes) plus a higher integral multiple of another smaller amount, it is possible that the Notes may be traded in amounts in excess of €100,000 (or its equivalent) that are not integral multiples of €100,000 (or its equivalent). In such a case an investor who, as a result of trading such amounts, holds a principal amount of less than the minimum Specified Denomination may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of the Notes such that its holding amounts to a Specified Denomination;
- **stabilisation:** Notes may be subject to price stabilisation activities by the Stabilisation Manager(s). There is no guarantee that price stabilisation activities will occur, or in permitted jurisdictions or markets, that if they do, that they will be successful;
- **clearing system risk:** as one or more Series of Notes may be held by, or on behalf of, Euroclear, Clearstream, Luxembourg, CMU, Austraclear or another clearing system, investors will rely on their procedures for transfer and payment;
- **listing:** application has been made for the listing and quotation on the SGX-ST for any Notes to be issued under the Program and which are agreed at the time of issue thereof to be so listed on the SGX-ST. Such approval will be granted when such Notes (to the extent agreed to be so listed) are admitted to the Official List. Application may also be made for Notes issued under the Program to be listed on any other stock exchange (including the ASX) as specified in the relevant Pricing Supplement. No

assurance can be given that once listed, quoted and/or traded on the SGX-ST and/or any other applicable stock or securities exchange the Notes will at all times remain listed on that stock or securities exchange and it may not be possible to list the Notes on any stock or securities exchange; and

- **majority decisions:** the conditions of the Notes contain provisions for calling meetings of holders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all holders of Notes including holders who did not attend and vote at the relevant meeting and holders who voted in a matter contrary to the majority.

Changes in law and modifications to the terms and conditions of Notes

General

Changes in law, including a change to Telstra's legal status, control or tax residence and changes to the law governing the Notes, may alter the rights of investors from those at the time of the issue and may impact on the ability of an investor to enforce its rights as they existed at the date of issue.

Further, changes in governmental policy and regulation may also have an impact on us. In addition to changes in laws and regulations, the policies and practices of government regulators may change and political and diplomatic developments may have an unexpected or adverse impact on the terms and conditions of the Notes.

The Notes also contain provisions for calling meetings of investors to consider matters affecting their interests generally. These provisions permit defined majorities to bind all investors including such investors who did not attend and vote at the relevant meeting and investors who voted in a manner contrary to the majority.

Interest rate benchmarks

The regulation and reform of "benchmarks" may adversely affect the value of Notes linked to or referencing such "benchmarks"

Interest rates and indices which are deemed to be "benchmarks" (including, amongst others, the London Interbank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**"), the Bank Bill Swap ("**BBSW**") rate and the Bank Bill Midmarket Settlement Rate in the New Zealand financial market ("**BKBM**") are the subject of recent national and international regulatory guidance and proposals for reform. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a "benchmark".

In Australia, examples of reforms that are already effective include the replacement of the Australian Financial Markets Association as BBSW administrator with ASX Limited, changes to the methodology for calculation of BBSW, and amendments to the Corporations Act made by the *Treasury Laws Amendment (2017 Measures No. 5) Act 2018* of Australia which, among other things, enable ASIC to make rules relating to the generation and administration of financial benchmarks. On 6 June 2018, ASIC designated BBSW as a "significant financial benchmark" and made the ASIC Financial Benchmark (Administration) Rules 2018 and the ASIC Financial Benchmarks (Compelled) Rules 2018.

In New Zealand, the current regulatory regime for the bank bill benchmark rate (BKBM) has been judged as not sufficient to meet the EU equivalence standard under the Benchmarks Regulation. Without regulatory reform, the use of BKBM will be restricted in the EU from 1 January 2022. However, regulatory reform is under way in New Zealand, with the Financial Markets (Derivatives Margin and Benchmarking) Reform Amendment Bill being introduced into Parliament on 19 February 2019. Among other things, this Bill will provide an opt-in licensing regime for administrators of financial benchmarks (such as BKBM). Once this Bill is enacted and in force, it should provide a basis for meeting the EU equivalence standard under the Benchmarks Regulation. The expectation is that the NZFMA, which administers BKBM, will opt in to this licensing regime.

In Europe, the Benchmarks Regulation was published in the Official Journal of the European Union on 29 June 2016 and has applied in the EU since 1 January 2018. The Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. It, among other things, (i) requires benchmark administrators to be authorised or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU supervised entities of "benchmarks" of administrators that are not authorised or registered (or, if non-EU based, not deemed equivalent or recognised or endorsed).

These reforms (including the Benchmarks Regulation) could have a material impact on any Notes linked to or referencing a "benchmark", in particular, if the methodology or other terms of the "benchmark" are changed in

order to comply with the requirements imposed thereunder. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the “benchmark”.

More broadly, any of the international or national reforms, or the general increased regulatory scrutiny of benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any such regulations or requirements. For example, the sustainability of LIBOR has been questioned as a result of the absence of relevant active underlying markets and possible disincentives (including possibly as a result of regulatory reforms) for market participants to continue contributing to such benchmarks. On 27 July 2017, the United Kingdom Financial Conduct Authority (the “**FCA**”) announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021 (the “**FCA Announcement**”). In a further speech on 12 July 2018, the FCA emphasised that market participants should not rely on the continued publication of LIBOR after the end of 2021, which indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. In addition, on 29 November 2017, the Bank of England and the FCA announced that, from January 2018, its Working Group on Sterling Risk-Free Rates has been mandated with implementing a broad-based transition to the Sterling Overnight Index Average (“**SONIA**”) over the next four years across sterling bond, loan and derivative markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021.

Separate workstreams are also underway in Europe to reform EURIBOR using a hybrid methodology and to provide a fallback by reference to a euro risk-free rate (based on a euro overnight risk-free rate as adjusted by a methodology to create a term rate).

It is not possible to predict with certainty whether, and to what extent, LIBOR, EURIBOR, BBSW, BKBM or any other benchmark will continue to be supported going forwards. This may cause LIBOR, EURIBOR, BBSW, BKBM or any other such benchmark to perform differently than they have done in the past, and may have other consequences which cannot be predicted. The potential transition from LIBOR to SONIA or the elimination of LIBOR, EURIBOR, BBSW, BKBM or any other benchmark, or changes in the manner of administration of any benchmark, could require an adjustment to the terms and conditions of the Notes, or result in other consequences, in respect of any Notes referencing such benchmark. Such factors may have (without limitation) the following effects on certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Notes linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

Investors should be aware that in the case of certain Notes, the terms and conditions of the Notes provide for certain fallback arrangements in the event that a published benchmark, including an inter-bank offered rate (such as LIBOR or EURIBOR) or another relevant reference rate (such as BBSW or BKBM) ceases to exist or be published or another Reference Rate Disruption Event (as defined in the terms and conditions of the Notes) occurs. These fallback arrangements include the possibility that the Interest Rate could be determined by reference to a Reference Rate Successor Rate and that adjustments and successor inputs may be applied to such Reference Rate Successor Rate to reduce or eliminate any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the relevant benchmark or screen rate (as applicable) originally specified with the Reference Rate Successor Rate as further described in Condition 14.12. Investors should also be aware that although Condition 14.12 requires the Issuer to act in good faith and in a commercially reasonable manner, the Issuer retains discretion in connection with the determination of the Reference Rate Successor Rate and related adjustments and successor inputs.

In certain circumstances, the ultimate fallback for the purposes of calculation of interest for a particular Interest Period may result in the Interest Rate for the last preceding Interest Period being used. This may result in the effective application of a fixed rate for Floating Rate Notes based on the rate which was last observed on the Relevant Screen Page or the initial Interest Rate applicable to such Notes on the Interest Commencement Date. In addition, due to the uncertainty concerning the availability of any Reference Rate Successor Rate, any determinations that may need to be made by the relevant Issuer and the involvement of any independent adviser, the relevant fallback provisions may not operate as intended at the relevant time.

Any of the foregoing could have an adverse effect on the value or liquidity of, and return on, any Notes which reference a benchmark rate.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the Benchmarks Regulation and other benchmark reforms and the potential for benchmarks to be discontinued in making any investment decision with respect to any Notes linked to or referencing a benchmark rate.

Credit Ratings

One or more independent credit rating agencies may assign credit ratings to the Notes to be issued by us under the Program. The rating(s) (if any) of the Notes will be specified in the applicable Pricing Supplement. The rating(s) may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the market value of the Notes. (See also the information on credit ratings in “Overview of the Program” above).

A credit rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, cancellation, reduction or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating. Credit ratings are for distribution only to a person (a) who is not a “retail client” within the meaning of section 761G of the Corporations Act and is also a sophisticated investor, professional investor or other investor in respect of whom disclosure is not required under Part 6D.2 or 7.9 of the Corporations Act, and (b) who is otherwise permitted to receive credit ratings in accordance with applicable law in any jurisdiction in which the person may be located.

An issue may not proceed

The Issuer may decide not to proceed with an issue of Notes under the Program. Where this is the case, the investor will have no rights against the Issuer in relation to any expense incurred or loss suffered.

Risks relating to Notes denominated in Renminbi

A description of risks which may be relevant to an investor in Notes denominated in Renminbi (“**Renminbi Notes**”) are set out below.

There is only limited availability of Renminbi outside of the PRC, which may affect the liquidity of the Renminbi Notes and Telstra’s ability to source Renminbi outside of the PRC to service the Renminbi Notes:

As a result of the restrictions by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside of the PRC is limited. While the People’s Bank of China (the “**PBoC**”) has entered into agreements (the “**Settlement Arrangements**”) on the clearing of Renminbi business with financial institutions (the “**Renminbi Clearing Banks**”) in a number of financial centres and cities, including but not limited to Hong Kong, has established the Cross-Border Inter-Bank Payments System to facilitate cross-border Renminbi settlement and is further in the process of establishing Renminbi clearing and settlement mechanisms in a number of other jurisdictions, the current size of Renminbi-denominated financial assets outside the PRC is limited.

There are restrictions imposed by the PBoC on Renminbi business participating banks in respect of cross-border Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBoC, although the PBoC has gradually allowed participating banks to access the PRC’s onshore inter-bank market for the purchase and sale of Renminbi. The Renminbi Clearing Banks only have limited access to onshore liquidity support from the PBoC for the purpose of squaring open positions of participating banks for limited types of transactions and are not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In cases where the participating banks cannot source sufficient Renminbi through the above channels, they will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There can be no assurance that new PRC regulations will not be promulgated or that the Settlement Arrangements will not be terminated or amended in the future, which will have the effect of restricting the availability of Renminbi outside the PRC. The limited availability of Renminbi outside of the PRC may affect the liquidity of the Renminbi Notes. To the extent that the Issuer is required to source Renminbi in the offshore market to service the Renminbi Notes, there can be no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all. If the Issuer is unable to source Renminbi, it may pay Noteholders in U.S. dollars pursuant to Condition 19.5.

Renminbi is not freely convertible and there are significant restrictions on the remittance of Renminbi into and out of the PRC which may adversely affect the liquidity of the Renminbi Notes:

Renminbi is not freely convertible at present. The government of the PRC (the “**PRC Government**”) continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar. However, there has been significant reduction in control by the PRC Government in recent years, particularly over trade transactions involving the import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

On the other hand, remittance of Renminbi into and out of the PRC for settlement of capital account items, such as capital contributions, debt financing and securities investment, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into and out of the PRC for settlement of capital account items are being developed.

Although Renminbi was added to the Special Drawing Rights basket created by the International Monetary Fund in 2016, and policies further improving accessibility to Renminbi to settle cross-border transactions in foreign currencies were implemented by the People's Bank of China in 2018, there is no assurance that the PRC Government will continue to gradually liberalise control over cross-border remittance of Renminbi in the future, that the schemes for Renminbi cross-border utilisation will not be discontinued or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or out of the PRC. Despite a Renminbi internationalisation pilot programme and efforts in recent years to internationalise the currency, there can be no assurance that the PRC Government will not impose interim or long-term restrictions on the cross-border remittance of Renminbi. In the event that funds cannot be repatriated out of the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuer to source Renminbi to finance its obligations under Notes denominated in Renminbi.

Investment in Renminbi Notes is subject to exchange rate risks:

The value of Renminbi against other foreign currencies fluctuates from time to time, and is affected by changes in the PRC and international political and economic conditions as well as many other factors. Recently, the PBoC implemented changes to the way it calculates Renminbi's daily mid-point against the U.S. dollar to take into account market-maker quotes before announcing such daily mid-point. This change, and other changes that may be implemented, may increase the volatility in the value of the Renminbi against foreign currencies. All payments of interest and principal with respect to the Renminbi Notes will be made in Renminbi, save as provided in Condition 19.5. If an investor measures its investment returns by reference to a currency other than Renminbi, an investment in Renminbi Notes entails foreign exchange related risks, including possible significant changes in the value of Renminbi relative to the currency by reference to which an investor measures its investment returns. If the value of Renminbi depreciates against another foreign currency, the value of the investment made by a holder of the Renminbi Notes in that foreign currency will decline.

Payments in respect of the Renminbi Notes may only be made in the manner specified in the terms and conditions relevant to the Renminbi Notes:

All payments to investors in respect of the Renminbi Notes will be made solely (i) for so long as the Renminbi Notes are represented by global certificates held with the common depositary for Euroclear and Clearstream, Luxembourg or any alternative clearing system, by transfer to a Renminbi bank account maintained in Hong Kong or a financial centre in which a Renminbi Clearing Bank clears and settles Renminbi, if so specified in the relevant Pricing Supplement in accordance with prevailing Euroclear or Clearstream, Luxembourg rules and procedures, (ii) for so long as the Renminbi Notes are represented by global certificates lodged with a sub-custodian for, or registered with, the CMU, by transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing CMU rules and procedures, or (iii) for so long as the Renminbi Notes are in definitive form, by transfer to a Renminbi bank account maintained in Hong Kong or a financial centre in which a Renminbi Clearing Bank clears and settles Renminbi, if so specified in the Pricing Supplement, in accordance with prevailing rules and regulations. The Issuer cannot be required to make payment by any other means (including in any other currency or by transfer to a bank account in the PRC).

Gains on the transfer of the Renminbi Notes may become subject to income taxes under PRC tax laws:

Under the *PRC Enterprise Income Tax Law*, the *PRC Individual Income Tax Law* and the relevant implementing rules, each as amended from time to time, any gain realised on the transfer of Renminbi Notes by non-PRC resident enterprise or individual Holders may be subject to PRC enterprise income tax ("EIT") or PRC individual income tax ("IIT") if such gain is regarded as income derived from sources within the PRC. The *PRC Enterprise Income Tax Law* levies EIT at a rate of 20 per cent of the PRC-sourced gains derived by such non-PRC resident enterprise from the transfer of Renminbi Notes but its implementation rules have reduced the EIT rate to 10 per cent. The *PRC Individual Income Tax Law* levies IIT at a rate of 20 per cent of the PRC-sourced gains derived by such non-PRC resident individual Holders from the transfer of Renminbi Notes.

However, uncertainty remains as to whether the gain realised from the transfer of the Renminbi Notes by non-PRC resident enterprise or individual Holders would be treated as income derived from sources within the PRC and thus become subject to the EIT or IIT. This will depend on how the PRC tax authorities interpret, apply or enforce the *PRC Enterprise Income Tax Law*, the *PRC Individual Income Tax Law* and the relevant implementing rules. According to the arrangement between the PRC and Hong Kong, for the avoidance of double taxation, Holders who are residents of Hong Kong, including enterprise Holders and individual Holders, will not be subject to EIT or IIT on capital gains derived from a sale or exchange of the Renminbi Notes.

Therefore, if non-PRC resident enterprise or individual Holders are required to pay EIT or IIT (as applicable) on gains derived from the transfer of the Renminbi Notes, unless there is an applicable tax treaty between the PRC and the jurisdiction in which such non-PRC resident enterprise or individual Holders of Renminbi Notes reside that reduces or exempts the relevant EIT or IIT, the value of their investment in the Renminbi Notes may be materially and adversely affected.

Strategy

On 20 June 2018, Telstra announced a new strategy to lead the Australian market by simplifying its operations and product set, improving customer experience and reducing its cost base.

The strategy, named T22, has four pillars:

- radically simplify our product offerings, eliminate customer pain points and create all-digital experiences;
- establish a standalone infrastructure business unit to drive performance and set up optionality post the nbn rollout;
- greatly simplify our structure and ways of working to empower our people and serve our customers; and
- industry leading cost reduction programme and portfolio management.

These pillars are enabled by our strategic investment program to invest up to an additional A\$3 billion capital expenditure (from FY17 to FY19) which is focused on delivering new digital platforms within the business and creating the networks for the future. This program was announced in 2016, and we have invested A\$2.6 billion to date, including A\$1.6 billion in networks and A\$1 billion in digitisation.

Subscription television

Foxtel is Australia’s leading provider of subscription television services and streaming. This includes traditional broadcast services and streaming applications (Kayo and Foxtel Now). In April 2018, Telstra and News Corp announced the completion of the transaction to combine Foxtel and FOX SPORTS Australia. Telstra has a 35 per cent shareholding in the combined entity and News Corp has 65 per cent. The combination of Foxtel and FOX SPORTS Australia with their content assets positions the combined entity to strongly compete in the dynamic media market, and it will continue to be an important part of Telstra’s strategy.

International investments

We operate the largest subsea cable network in the Asia-Pacific region, with a unique and diverse set of infrastructure, including the largest integrated data centre footprint in the region. We continue to invest to meet increasing demand for connectivity. This includes investing in two new subsea cables with connections from Hong Kong to the west coast of the US, complementing our investment in the Indigo cable system from South East Asia to Australia; as well as recent investments in new-generation New Cross Pacific (NCP) cable, and a further investment in the Faster cable, strengthening Telstra’s Japan to US route.

In December 2018, Telstra also entered into agreed terms to purchase a 25 per cent stake in Southern Cross Cable Network (SCCN), subject to completion of definitive agreements and regulatory approvals.

We also have licenses in Asia, Europe and the Americas and facilitate access to over 2,000 Points of Presence in 230 countries and territories across the globe.

Our other international investments include our joint ventures in the PRC (Telstra PBS) and Indonesia (telkomtelstra) and our connectivity business, Telstra Enterprise.

National Broadband Network and its impact on Telstra

The Australian Commonwealth Government has created a publicly-owned national broadband network, known as the nbn network, to deliver wholesale broadband services to all premises in Australia. By end of FY18, the nbn network had reached 7 million premises, with construction of the network expected to be completed in 2020 as set out in nbn Co’s Corporate Plan 2019-2022.

In June 2011, Telstra entered into Definitive Agreements with nbn Co and the Commonwealth. Together with regulatory undertakings given to the Australian Competition and Consumer Commission (ACCC) and associated

Government policy commitments, this created the framework for Telstra's participation in the rollout of the nbn network. In December 2014 Telstra, nbn Co and the Commonwealth entered into revised Definitive Agreements to accommodate the use of a wider range of network technologies.

Commitments under revised Definitive Agreements include:

- Telstra progressively disconnecting copper services and HFC broadband services that are provided to premises in the nbn Fixed Line Footprint as the nbn network is rolled out;
- nbn Co committing to product features and prices in supplying Telstra with nbn Co's basic service offering on the nbn network;
- Telstra providing nbn Co with long-term access to large volumes of parts of its infrastructure (including dark fibre links, exchange rack spaces and ducts), as well as initial access to lead-in conduits (which will then be transferred by Telstra to nbn Co as lead-in fibre is installed in the lead-in conduit); and
- the Commonwealth implementing a package of measures including: (i) increased funding for Telstra's provision of services under the Universal Service Obligation (USO); (ii) funding for the retraining of certain Telstra staff and for certain customer migration costs; and (iii) arranging for nbn Co to conduct a public education campaign that informs end users about the nature and timing of the rollout of the nbn network in their area.

At the conclusion of the nbn network rollout in 2020, Telstra will substantially rely on this network to offer fixed-line services inside the nbn Fixed Line Footprint. Telstra continues to retain and operate the Telstra mobile network, Next IP™ core fibre network and backhaul fibre network. Telstra will also retain and operate some copper network and will continue to provide voice and broadband services in areas outside the nbn network. Telstra will also retain ownership of the infrastructure accessed by nbn Co (except for lead-in conduits).

In return for its participation in the rollout of the nbn network, Telstra receives payments from nbn Co under the Definitive Agreements including:

- Infrastructure Ownership Payments ("IOPs") received over the duration of the rollout of the nbn network for the transfer of lead-in conduits, certain copper and Hybrid Fibre-coaxial ("HFC") assets and associated passive infrastructure to nbn Co;
- Infrastructure Access Payments ("IAPs") for long-term access to our ducts and pits received during the rollout of the nbn network and over a remaining average contracted period of 30 years;
- Per Subscriber Address Amount ("PSAA") payments for the permanent disconnection of Telstra copper and HFC services as the rollout of the nbn™ network progresses; and
- other payments for nbn Co's long-term access to other Telstra infrastructure, including dark fibre and exchange rack space.

For any given period, amounts ultimately received from nbn Co may vary. A change in the nbn network rollout progress and/or the final number of these premises could result in a material change to the amounts received by Telstra.

In addition, the Commonwealth made policy commitments to:

- make nbn Co responsible for installing fibre in new developments of 100 or more premises approved after 1 January 2011 as well as in smaller developments in areas that the nbn network will reach within 12 months as it is being rolled out; and
- in 2017, following a Productivity Commission inquiry into the USO, establish a Universal Service Guarantee ("USG") to provide all Australian premises with access to both voice and broadband services, examine whether Telstra's voice USO should be reformed or removed as part of the establishment of the USG, and work with Telstra on any proposed changes to the USO.

Since December 2014, Telstra has entered into a number of agreements with nbn Co under which Telstra will supply planning and design services to support the rollout of the nbn network as well as the provisioning of services and maintenance. In April 2016, Telstra and nbn Co entered into a HFC Delivery Agreement under which Telstra will supply to nbn Co planning, design, construction and construction management services within the existing Telstra HFC footprint.

For further important information, including how the nbn™ network is impacting our business, see the “Risk Factors – National Broadband Network” section on pages 19 to 20 inclusive of this Offering Circular.

Strategic framework for capital and portfolio management

The objectives of our capital management framework are maximising returns for shareholders, maintaining financial strength and retaining financial flexibility. We remain committed to:

- maintain balance sheet settings consistent with an A band credit rating;
- pay a fully-franked ordinary dividend of 70-90 per cent of underlying earnings^{1,2};
- target capex/sales ratio of around 14 per cent excluding spectrum from FY20 with a target ratio of 16 to 18 per cent FY19^{3,4}; and
- maintain flexibility for portfolio management and to make strategic investments.

In addition to the ordinary dividend, we intend to return in the order of 75 per cent of net one-off nbn™ receipts to shareholders over time via fully-franked special dividends^{2,5}.

In order to maintain or adjust the capital structure, we may issue or repay debt, adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

Part 1 Introduction

1 Introduction

1.1 Program

Telstra Corporation Limited (ABN 33 051 775 556) (“**Issuer**”) has established a debt issuance program for the issuance of Notes with an aggregate principal amount not exceeding €15,000,000,000 (or the equivalent in other currencies at the date of issue of any Notes).

1.2 Pricing Supplement

Notes issued under the Program are issued in Series. Each Series may comprise one or more Tranches having one or more issue dates and on terms otherwise identical (other than in respect of the first payment of interest). Each Tranche is the subject of the Pricing Supplement which supplements these Conditions. In the event of any inconsistency between these Conditions and the relevant Pricing Supplement, the relevant Pricing Supplement prevails.

1.3 Issue documentation

Subject to applicable Directives, the Issuer may issue Notes under the Program in any applicable country including Australia, New Zealand, Canada and countries in Europe and Asia (but not the United States). Notes issued in bearer form or registered form into capital markets outside Australia, New Zealand and the United States will be issued under the Euro Fiscal Agency Agreement or a Registry Services Agreement and have the benefit of the relevant Deed of Covenant. Notes issued in registered form into the Australian and New Zealand capital markets will be issued under the Australian Note Deed Poll and the New Zealand Note Deed Poll respectively. Notes issued in Canada and other jurisdictions outside the United States will be made pursuant to such other additional documentation as the Issuer considers appropriate and in agreement with the Program Documents and relevant Directives.

The Noteholders and Couponholders are bound by, and are taken to have notice of, all the provisions of the relevant Agency Agreement applicable to them. A copy of the relevant Agency Agreement is available for inspection by Noteholders during normal business hours at the Specified Offices of each of the Issuer and the relevant Agents.

1.6 Interpretation

Defined terms and interpretation provisions are set out in Condition 37 (“Interpretation”). References to Euroclear and/or Clearstream, Luxembourg shall, wherever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer and the Euro Fiscal Agent or the relevant Registrar, whether specified in the applicable Pricing Supplement or otherwise. In the case of a certificated Registered Euro/CMU Note, a new certificate will be issued to the transferee and in the case of a transfer of a Registered Euro/CMU Note which forms part only of a holding represented by a certificate, a new certificate in respect of the balance not transferred will be issued to the transferor.

The forms of transfer will require the transferee to certify whether or not such person is an Australian resident, or a non-Australian resident that holds the Registered Euro/CMU Notes in carrying on business in Australia at or through a permanent establishment of the transferee in Australia and, if so, the transferee may provide a TFN or ABN or evidence that such person is not required to provide a TFN or ABN.

- (b) in the case of New Zealand Domestic Notes, the offer or invitation giving rise to the transfer does not constitute a “regulated offer” within the meaning of section 41(1) of the Financial Markets Conduct Act 2013 of New Zealand (the **“NZ FMC Act”**), provided that Notes may not be transferred to any person that is a “wholesale investor” under the NZ FMC Act solely because that person is an “eligible investor” (within the meaning of clause 3(3)(a) of Schedule 1 of the NZ FMC Act) or meets the “investment activity criteria” specified in clause 38 of Schedule 1 of the NZ FMC Act; and
- (c) the transfer complies with any other applicable Directives.

11.1 Transfers of interests in Canadian Domestic Notes

A Canadian Domestic Note may, upon the terms and subject to the conditions set forth in the Canadian Registry Services Agreement, be transferred in whole or in part in the Specified Denominations set out in the applicable Pricing Supplement. In order to effect any such transfer:

- (a) the holder or holders must:
 - (i) surrender the Canadian Domestic Note for registration of the transfer of that Canadian Domestic Note (or the relevant part of that Canadian Domestic Note) at the specified office of the Canadian Registrar, with the form of transfer thereon duly completed and executed by the holder or holders thereof or his or their attorney or attorneys duly authorised in writing; and
 - (ii) complete and deposit such other certifications as may be required by the Canadian Registrar; and
- (b) the Canadian Registrar must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request.

Any such transfer will be subject to such reasonable regulations as the Issuer and the Canadian Registrar may from time to time prescribe. Subject as provided above, the Canadian Registrar will, within three Business Days (being for the purpose of this Condition 11 a day on which banks are open for business in the place of the specified office of the Canadian Registrar) of receipt of the form of transfer (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations) authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail to such address as the transferee may request, a new Canadian Domestic Note of a like aggregate nominal amount to the Canadian Domestic Note (or the relevant part of the Canadian Domestic Note) transferred. In the case of the transfer of part only of a Canadian Domestic Note, a new Canadian Domestic Note in respect of the balance of the Canadian Domestic Note not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor.

11.2 Costs of registration

Noteholders will not be required to bear the costs and expenses of effecting any registration of transfer of Canadian Domestic Notes as provided above, except for any costs or expenses of delivery other than by regular uninsured mail and except that the Issuer may require the payment of a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation to the registration.

11.3 Closed Periods

Neither the Issuer nor the Canadian Registrar is required:

- (a) in the event of a partial redemption of Canadian Domestic Notes under Condition 17 ("General provisions applicable to interest"):
 - (i) to register the transfer of Canadian Domestic Notes (or parts of Canadian Domestic Notes) during the period beginning on the 15th day before the date of the partial redemption and ending on the day on which notice is given specifying the serial numbers of Canadian Domestic Notes called (in whole or in part) for redemption (both inclusive); or
 - (ii) to register the transfer of any Canadian Domestic Note, or part of a Canadian Domestic Note, called for redemption; or
- (b) to register the transfer of Canadian Domestic Notes (or parts of Canadian Domestic Notes):
 - (i) during the period of 10 Business Days immediately prior to any Record Date in respect of that Note; or
 - (ii) during the period commencing on the Record Date in respect of the final Interest Payment Date in respect of that Note and ending on such Interest Payment Date.

Part 4 Interest

12 General

Notes may be either interest-bearing or non interest-bearing, as specified in the relevant Pricing Supplement. Interest bearing Notes may bear interest at either a fixed rate or a floating rate. In relation to any Tranche of Notes, the relevant Pricing Supplement may specify actual amounts of interest payable rather than, or in addition to, a rate or rates at which interest accrues.

13 Fixed Rate Notes

13.1 Application

This Condition 13 ("Fixed Rate Notes") applies to the Notes only if the relevant Pricing Supplement states that it applies.

13.2 Interest on Fixed Rate Notes

Each Fixed Rate Note bears interest on its outstanding principal amount (or, if it is a Partly Paid Note, as specified in Condition 16.2 ("Interest Rate")) from (and including) the Interest Commencement Date at the Interest Rate. Interest is payable in arrears on each Interest Payment Date, subject as provided in Condition 19.4 ("Payments on business days").

13.3 Fixed Coupon Amount

If a Fixed Coupon Amount is specified in the applicable Pricing Supplement, the amount of interest payable on each Interest Payment Date in respect of the Interest Period ending on that date will amount to the Fixed Coupon Amount and, if the Notes are in more than one Specified Denomination, will amount to the Fixed Coupon Amount for the relevant Specified Denomination.

13.4 Broken Amount

Payments of interest on any Interest Payment Date will, if so specified in the applicable Pricing Supplement, amount to the Broken Amount so specified.

13.5 No Fixed Coupon Amount or Broken Amount

Except in the case of Notes where a Fixed Coupon Amount or Broken Amount is specified in the applicable Pricing Supplement, interest will be calculated in respect of any period by applying the Interest Rate to:

- (a) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Senior Notes represented by such Global Note;
- (b) in the case of Fixed Rate Notes which are Australian Domestic Notes, the outstanding nominal amount of the Senior Note; and
- (c) otherwise, the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Fixed Rate Note in definitive form comprises more than one Calculation Amount the amount of interest payable in respect of such Fixed Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

14 Floating Rate Note and Variable Interest Notes

14.1 Application

This Condition 14 ("Floating Rate Note and Variable Interest Notes") applies to the Notes only if the relevant Pricing Supplement states that it applies.

14.2 Interest on Floating Rate Notes and Variable Interest Notes

Each Floating Rate Note and Variable Interest Note bears interest on its outstanding principal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date at the Interest Rate. Interest is payable in arrear:

- (a) on each Interest Payment Date; or
- (b) if no Interest Payment Date is specified in the relevant Pricing Supplement, each date which falls the number of months or other period specified as the Specified Period in the applicable Pricing Supplement after the preceding Interest Payment Date, or, in the case of the first Interest Payment Date, after the Interest Commencement Date, subject, in each case, as provided in Condition 19.4 ("Payments on business days").

14.3 Interest Rate

The Interest Rate payable in respect of a Floating Rate Note and Variable Interest Notes must be determined in the manner specified in the applicable Pricing Supplement and the following provisions of these Conditions relating to either ISDA Determination or Screen Rate Determination shall apply accordingly, depending upon which is specified in the relevant Pricing Supplement.

14.4 ISDA Determination

If ISDA Determination is specified in the relevant Pricing Supplement as the manner in which the Interest Rate is to be determined, the Interest Rate applicable to the Notes for each Interest Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as appropriate) the Margin (if any).

For the purposes of this Condition 14.4, "**ISDA Rate**" for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the relevant Pricing Supplement;
- (b) the Designated Maturity is a period specified in the relevant Pricing Supplement; and
- (c) the relevant Reset Date is the first day of that Interest Period unless otherwise specified in the relevant Pricing Supplement.

For the purposes of this Condition 14.4, "**Floating Rate**", "**Calculation Agent**", "**Floating Rate Option**", "**Designated Maturity**", "**Reset Date**" and "**Swap Transaction**" have the meanings given to those terms in the ISDA Definitions.

14.5 Screen Rate Determination

Where Screen Rate Determination is specified in the relevant Pricing Supplement as the manner in which the Interest Rate is to be determined, the Interest Rate applicable to the Notes for each Interest Period will, subject as provided below, be either:

- (a) the Relevant Rate (where the Relevant Rate on the Relevant Screen Page is a composite quotation or is customarily supplied by one entity) which appears on the Relevant Screen Page; or
- (b) the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the Relevant Rates of the persons whose Relevant Rates appear on the Relevant Screen Page,

(expressed as a percentage rate per annum) at or about the Relevant Time in the Relevant Financial Centre on the Interest Determination Date in question plus or minus (as indicated in the applicable Pricing Supplement) the Margin (if any), all as determined by the Calculation Agent.

If Condition 14.5(b) applies and five or more of such Relevant Rates are available on the Relevant Screen Page, the highest (or, if there is more than one such highest Relevant Rate, one only of such Relevant Rates) and the lowest (or, if there is more than one such lowest Relevant Rate, one only of such Relevant Rates) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean.

If the Relevant Screen Page is not available or if, in the case of Condition 14.5(a) above, no such Relevant Rate appears (in the case of a Reference Rate that is specified as “BBSW”, by the time that is 15 minutes after the then prevailing Relevant Time in the Relevant Financial Centre) or, in the case of Condition 14.5(b) above, fewer than three Relevant Rates appear or, in the case of a Reference Rate that is specified as “BBSW”, such rate does appear but the Calculation Agent determines there is an obvious error in that rate, then (unless the Calculation Agent has been notified of any Reference Rate Successor Rate (and any related adjustments and successor inputs) pursuant to Condition 14.12 below, if applicable) the Calculation Agent shall request the relevant Reference Banks to provide the Calculation Agent with the rate or rates that each such Reference Bank is quoting to leading banks in respect of the Relevant Rate at approximately the Relevant Time in the Relevant Financial Centre on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such rate or rates, the Interest Rate for the Interest Period shall be the arithmetic mean (rounded if necessary to the fifth decimal place with 0.000005 being rounded upwards) of such rates plus or minus (as appropriate) the Margin (if any), all as determined by the Calculation Agent.

If on any Interest Determination Date one only or none of the Reference Banks provides the Calculation Agent with such rate or rates as provided in the preceding paragraph, the Interest Rate for the relevant Interest Period shall be the rate per annum which the Calculation Agent determines as being the arithmetic mean (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) of the rates (being the nearest equivalent to the Relevant Rate) that at least two out of five leading banks selected by the Calculation Agent in the Relevant Financial Centre are quoting at or about the Relevant Time on the Interest Determination Date to leading banks carrying on business in the Relevant Financial Centre; except that if fewer than two of such banks are quoting to leading banks in the Relevant Financial Centre, the Interest Rate shall be the Interest Rate determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, Maximum Rate of Interest or Minimum Rate of Interest applicable to the preceding Interest Period and to the relevant Interest Period).

If the relevant Pricing Supplement specifies an alternate method for the determination of the Screen Rate Determination, then that alternate method will apply.

14.6 Index Linked Interest Notes

If the Index Linked Interest Note provisions are specified in the relevant Pricing Supplement as being applicable, the Interest Rate(s) applicable to the Notes for each Interest Period will be determined in the manner specified in the relevant Pricing Supplement.

14.7 Maximum or Minimum Interest Rate

If the applicable Pricing Supplement specifies a Minimum Rate of Interest for any Interest Period, then, in the event that the Interest Rate in respect of such Interest Period determined in accordance with the provisions of Conditions 14.4 and 14.5 above is less than such Minimum Rate of Interest, the Interest Rate for such Interest Period shall be such Minimum Rate of Interest. Unless otherwise stated in the applicable Pricing Supplement, the Minimum Rate of Interest shall be deemed to be zero.

If the applicable Pricing Supplement specifies a Maximum Rate of Interest for any Interest Period, then, in the event that Interest Rate in respect of such Interest Period determined in accordance with the provisions of Conditions 14.4 and 14.5 above is greater than such Maximum Rate of Interest, the Interest Rate for such Interest Period shall be the Maximum Rate of Interest specified in the applicable Pricing Supplement.

14.8 Calculation of Interest Rate and interest payable

The Calculation Agent must, as soon as practicable on or after determining the Interest Rate in relation to each Interest Period, calculate the amount of interest payable for the relevant Interest Period in respect of the outstanding principal amount of each Floating Rate Note and Variable Interest Note.

The Calculation Agent will calculate the amount of interest payable (“**Interest Amount**”) on the Floating Rate Notes and Variable Interest Notes for the relevant Interest Period by applying the Interest Rate to:

- (a) in the case of Floating Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note;
- (b) in the case of Floating Rate Notes which are Australian Domestic Notes, the outstanding nominal amount of the Note; or
- (c) otherwise, the Calculation Amount,

and in each case multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

Where the Specified Denomination of a Floating Rate Note or a Variable Interest Note which is in definitive form comprises more than one Calculation Amount, the Interest Amount payable in respect of such Note shall be the aggregate of the amounts (determined in the manner provided above) for each Calculation Amount comprising the Specified Denomination without any further rounding.

14.9 Calculation of other amounts

If the relevant Pricing Supplement specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent must, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount must be calculated by the Calculation Agent in the manner specified in the relevant Pricing Supplement.

14.10 Notification of Interest Rate, interest payable and other items

The Calculation Agent must notify the Issuer, the relevant Registrar, the relevant Agent and the relevant Noteholders and any stock exchange, quotation system or other relevant authority on which the relevant Floating Rate Notes or Variable Interest Notes are for the time being admitted to listing, trading and/or quotation as soon as possible of:

- (a) each Interest Rate, the Interest Amount and each other amount, item or date calculated or determined by it together with the relevant Interest Payment Date; and
- (b) any amendment to any amount, item or date referred to in paragraph (a) arising from any extension or reduction in any relevant Interest Period or calculation period.

The Calculation Agent must give notice under this Condition 14.10 as soon as practicable after such determination but (in the case of each Interest Rate, the Interest Amount and Interest Payment Date) in any event not later than the fourth day of the relevant Interest Period. Notice must also be given promptly to Noteholders.

The Calculation Agent may amend any amount, item or date (or make appropriate alternative arrangements by way of adjustment) as a result of the extension or reduction of the Interest Period without prior notice but must notify each stock exchange or other relevant authority on which the relevant Floating Rate Notes or Variable Interest Notes are listed and the Noteholders after doing so.

14.11 Determination final

The determination by the Calculation Agent of all amounts, rates and dates falling to be determined by it under these Conditions (including the Interest Rate for any Interest Period and the amount of interest payable for any Interest Period in respect of any Note) is, in the absence of manifest error, final and binding on the Issuer, each Noteholder, the relevant Registrar, the relevant Agent and the Calculation Agent.

14.12 Benchmark discontinuation

Notwithstanding the provisions in Condition 14.5 above, if the Issuer determines that a Reference Rate has been or will be affected by a Reference Rate Disruption Event, then the following provisions shall apply:

- (a) The Issuer:
 - (i) shall determine the Reference Rate Successor Rate;
 - (ii) may, if it determines it to be appropriate, also determine an adjustment factor or an adjustment methodology to make such Reference Rate Successor Rate comparable to the relevant Reference Rate; and
 - (iii) may, if it determines it to be appropriate, also determine successors to one or more of the Business Day Convention, Business Day, Day Count Fraction, Relevant Financial Centre, Relevant Time, Relevant Screen Page, Interest Determination Date or other relevant input for calculating such Reference Rate Successor Rate,

and such successor rate together, if applicable, with such other adjustments and successor inputs shall, from the date determined by the Issuer to be appropriate, be used to determine the relevant Interest Rate(s) (or the relevant component part(s) thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 14.12).

- (b) If, in respect of any Interest Determination Date, the Issuer is unable to determine a Reference Rate Successor Rate in accordance with paragraph (a) above, the relevant Reference Rate in respect of:

15.1 Application

This Condition 15 ("Dual Currency Notes") applies to the Notes only if the relevant Pricing Supplement states that it applies.

- (a) the date on which the relevant payment is made to the relevant Noteholder; or

- (d) all amounts that are due and payable must be rounded to the nearest sub-unit (with halves being rounded up).

Part 5 Redemption and purchase

18 Redemption

18.1 Scheduled redemption

Each Note is redeemable by the Issuer on the Maturity Date at its Final Redemption Amount unless:

- (a) the Note has been previously redeemed; or
- (b) the Note has been purchased and cancelled; or
- (c) the Pricing Supplement states that the Note has no fixed maturity date.

18.2 Early redemption for taxation reasons

The Issuer may redeem the Notes in a Series in whole (but not in part) before their Maturity Date at their Early Redemption Amount (Tax) if the Issuer is required under Condition 25.2 ("Withholding tax") to pay an additional amount in respect of a Note.

However, the Issuer may only do so:

- (a) if the Issuer has given at least 30 days' (and no more than 60 days') notice to the Principal Paying Agent (or, in the case of Notes held through the CMU, the CMU Lodging Agent) or the relevant Registrar, as the case may be, and the Noteholders (which notice is irrevocable); and
- (b) if, before the Issuer gives the notice under paragraph (a), the Principal Paying Agent (or, in the case of Notes held through the CMU, the CMU Lodging Agent) or the relevant Registrar, as the case may be, has received:
 - (i) a certificate signed by two authorised officers of the Issuer; and
 - (ii) an opinion of independent legal advisers of recognised standing in the jurisdiction of incorporation of the Issuer,that the Issuer would be required under Condition 25.2 ("Withholding tax") to pay an additional amount in respect of the next payment due in respect of the Notes of that Series; and
- (c) if the Notes are Fixed Rate Notes, no notice of redemption may be given more than 90 days prior to the earliest date on which the Issuer would be obliged to pay the additional amounts if a payment in respect of the Notes were then due; and
- (d) if the Notes to be redeemed are Floating Rate Notes or Variable Interest Notes:
 - (i) the proposed redemption date is an Interest Payment Date; and
 - (ii) no notice of redemption may be given more than 60 days prior to the Interest Payment Date occurring immediately before the earliest date on which the Issuer would be obliged to pay the additional amounts if a payment in respect of the Notes were then due.

18.3 Early redemption at the option of the Issuer (Issuer call)

If the Pricing Supplement states that the Issuer may redeem all or some of the Notes before their Maturity Date under this Condition 18.3, the Issuer may redeem so many of the Notes specified in the Pricing Supplement at their Early Redemption Amount (Call).

However, the Issuer may only do so if:

- (a) the Issuer has given at least 30 days' (and no more than 60 days') (or any other period specified in the relevant Pricing Supplement) notice to the Principal Paying Agent (or, in the case of Notes held through the CMU, the CMU Lodging Agent) or the relevant Registrar, as the case may be, and the Noteholders; and

- (b) the proposed redemption date is an Early Redemption Date (Call).

Any such redemption must be of a nominal amount equal to the Minimum Redemption Amount or Maximum Redemption Amount, both as indicated in the applicable Pricing Supplement. If only some of the Notes in the Series are to be redeemed, the Notes to be redeemed ("**Redeemed Notes**") will be selected no later than 30 days before the date fixed for redemption ("**Selection Date**");

- (i) in the case of Redeemed Notes represented by Definitive Bearer Notes, Registered Euro/CMU Notes or Canadian Domestic Notes in definitive form, individually by lot in such European or Canadian city respectively as the Euro Fiscal Agent or relevant Registrar specifies or identified in such other manner or in such other place as the Euro Fiscal Agent or relevant Registrar may approve and deem to be appropriate and fair;
- (ii) in the case of Redeemed Notes represented by a Global Note, in accordance with the rules of the relevant Clearing System; and
- (iii) in the case of Australian Domestic Notes and New Zealand Domestic Notes, in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices and the need to ensure that the prepaid amount of any redeemed Notes must be an integral multiple of the Specified Denomination,

subject always to compliance with applicable laws and the requirements of any relevant listing authority, stock exchange and/or quotation system.

In the case of Redeemed Notes represented by Definitive Bearer Notes or definitive Registered Notes, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 33.1(a) ("Form") not less than 15 days (or such shorter period as is specified in the applicable Pricing Supplement) before the date fixed for redemption.

No exchange of the relevant Global Note is permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption under this Condition 18.3. The Issuer must notify the Noteholders of this restriction at least five days (or such shorter period as is specified in the relevant Pricing Supplement) before the Selection Date.

18.4 Early redemption at the option of Noteholders (investor put)

If the relevant Pricing Supplement states that the Noteholder may require the Issuer to redeem all or some of the Notes before their Maturity Date at their Early Redemption Amount (Put) under this Condition 18.4, the Issuer must do so if the following conditions are satisfied.

The conditions are:

- (e) the notice referred to in paragraph (d)(ii) specifies:
 - (i) a bank account to which the payment should be made or an address to where a cheque for payment should be sent; and

- (ii) if the Notes to be redeemed are Registered Notes, the Early Redemption Amount (Put) at which those Notes are to be redeemed and, if the Registered Notes are Canadian Domestic Notes and less than the full nominal amount of Registered Notes so surrendered is to be redeemed, an address to which a new Registered Note in respect of the balance of the Registered Notes is to be sent subject to and in accordance with Condition 9 (“No exchange of Notes; Transfers of Registered Euro/CMU Notes”), Condition 10 (“Transfers of Australian and New Zealand Domestic Notes”) or Condition 11 (“Transfer of Canadian Domestic Notes”) respectively.

A Noteholder may not exercise its option under this Condition 18.4 in respect of any Note which is the subject of an exercise by the Issuer of its option to redeem such Note under Condition 18.2 (“Early redemption for taxation reasons”) or Condition 18.3 (“Early redemption at the option of the Issuer (Issuer call)”).

18.5 Calculation of Early Redemption Amounts

Unless otherwise specified in the relevant Pricing Supplement, the Redemption Amount payable on redemption at any time before the Maturity Date of:

- (a) a Note (other than a Zero Coupon Note and a Variable Redemption Note but including any Instalment Note or Partly-Paid Note) is an amount equal to the sum of the outstanding principal amount and interest (if any) accrued on it;
- (b) a Zero Coupon Note is an amount equal to the sum of:
 - (i) the Reference Price; and
 - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Note becomes due and payable; and
- (c) a Variable Redemption Note is an amount determined by the Calculation Agent that would on the due date for redemption have the effect of preserving for the Noteholder the economic equivalent of the obligations of the Issuer to make payment of the Final Redemption Amount on the Maturity Date.

Where the calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year must be made on the basis of such Day Count Fraction as may be specified in the Pricing Supplement for the purposes of this Condition 18.5.

18.6 Instalments

Instalment Notes will be redeemed in the Instalment Amounts and on the Instalment Dates specified in the applicable Pricing Supplement. In the case of early redemption, the Early Redemption Amount will be determined under Condition 18.5 (“Calculation of Early Redemption Amounts”).

18.7 Partly Paid Notes

Partly Paid Notes will be redeemed at maturity in accordance with the provisions of the applicable Pricing Supplement. In the case of Early Redemption, the Early Redemption Amount will be determined under Condition 18.5 (“Calculation of Early Redemption Amounts”).

18.8 Effect of notice of redemption

Any notice of redemption given under this Condition 18 (“Redemption”) is irrevocable and obliges the Issuer to redeem the Notes at the time and in the manner specified in the notice.

18.9 Purchase

The Issuer or any of its Subsidiaries may at any time purchase Notes in the open market or otherwise and at any price, provided that all unmatured Coupons are purchased with those Notes. If purchases are made by tender, tenders must be available to all Noteholders alike.

18.10 Cancellation

All Notes so redeemed or purchased by the Issuer or any of its Subsidiaries under Condition 18.9 ("Purchase") (and any unmatured Coupons attached to or surrendered with them) will be cancelled forthwith and may not be reissued or resold.

Part 6 Payments

19 Payments

19.1 Method of payment

Except to the extent these Conditions provide otherwise:

- (a) payments in a Specified Currency other than euro or Renminbi will be made by credit or transfer to an account in the relevant Specified Currency (which, in the case of a payment in Japanese Yen to a non-resident of Japan, shall be a non-resident account) maintained by the payee with, or, at the option of the payee, by a cheque in such Specified Currency drawn on, a bank in the Principal Financial Centre of the country of such Specified Currency;
- (b) payments in euro will be made by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; and
- (c) payment in Renminbi shall be made to a Renminbi account maintained by or on behalf of the payee with a bank in Hong Kong in accordance with applicable laws, rules, regulations and guidelines issued from time to time (including all applicable laws and regulations with respect to settlement in Renminbi in Hong Kong).

19.2 Payments in U.S. dollars

No amount payable in respect of Bearer Notes shall be made in the United States, and no cheque in payment thereof which is mailed shall be mailed to an address in the United States, nor shall any transfer made in lieu of payment by cheque be made to an account maintained by the payee with a bank in the United States. Notwithstanding any other Condition, if any amount of principal or interest in respect of Bearer Notes or Registered Euro/CMU Notes is payable in U.S. dollars, those U.S. dollar payments of principal or interest in respect of those Notes may be made at the Specified Office of a Paying Agent or relevant Registrar (as applicable) in the United States if:

- (a) the Issuer has appointed Paying Agents or a relevant Registrar (as applicable) with Specified Offices outside the United States with the reasonable expectation that such Paying Agents or Registrar (as applicable) would be able to make payment in U.S. dollars at such Specified Offices outside the United States of the full amount of principal and interest on the Bearer Notes or Registered Euro/CMU Notes in the manner provided above when due;
- (b) payment of the full amount of that principal and interest at all those Specified Offices outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions on the full payment or receipt of principal and interest in U.S. dollars; and
- (c) the payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

19.3 Payments subject to fiscal and other laws

Payments will be subject in all cases to all applicable fiscal or other laws, regulations and directives and the administrative practices and procedures of fiscal and other authorities in relation to tax, anti-money laundering and other requirements which may apply to payments of amounts due (whether principal, redemption amount, interest, premium or otherwise) in respect of Notes in the place of payment, but without prejudice to the provisions of Condition 25 ("Taxation").

In particular, if any withholding or deduction is made for or on account of the U.S. Foreign Account Tax Compliance Act (including any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the U.S. Internal Revenue Code of 1986 (“Code”), or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of Sections 1471 to 1474 of the Code) (“FATCA”), the Issuer will not be required to pay any additional amount under Condition 25 on account of such withholding or deduction.

For the avoidance of doubt, the provisions of Condition 25 in relation to the payment of additional amounts (as specified in Condition 25) only apply in respect of withholdings or deductions of Taxes (as specified in Condition 25) required by law and imposed or levied by or on behalf of the Commonwealth of Australia or Victoria or any political subdivision thereof or any authority therein or thereof having power to tax.

19.4 Payments on business days

If the date for payment of any amount in respect of any Note is not a Payment Business Day, the Noteholder is not entitled to payment until the next following Payment Business Day in the relevant place and is not entitled to further interest or other payment in respect of such delay.

19.5 Payment of U.S Dollar Equivalent

Notwithstanding any other Condition, if by reason of Inconvertibility, Non-transferability or Illiquidity, the Issuer determines in good faith it is not able, or it would be impracticable for it, to satisfy payments in respect of the Notes in Renminbi in Hong Kong, the Issuer shall settle any such payment in U.S dollars on the due date for payment at the U.S Dollar Equivalent of any such Renminbi denominated amount and give notice thereof (including details thereof) as soon as practicable to the Noteholders in accordance with Condition 33.1.

In such event, payment of the U.S Dollar Equivalent of the relevant amounts of principal or interest in respect of the Notes shall be made in accordance with Condition 19.2

- (b) interest in respect of a Definitive Bearer Note will be made only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of a Coupon;

Each Definitive Bearer Note, Receipt, and Coupon which is required to be presented under these Conditions must be presented at the Specified Office of any Paying Agent outside the United States.

20.2 Validity of Receipts

Receipts presented without the Definitive Bearer Note to which they appertain do not constitute valid obligations of the Issuer.

20.3 Unmatured Receipts

When a Definitive Bearer Note becomes due and repayable, all unmaturred Receipts relating to it (whether or not attached) are void and no payment is required to be made in respect of them.

20.4 Fixed Rate Notes and unmaturred Coupons

Fixed Rate Notes in definitive bearer form must be presented for payment together with all unmaturred Coupons appertaining to them (including Coupons falling to be issued on exchange of maturred Talons).

If any unmaturred Coupons are not presented for payment in accordance with this Condition 20.4:

- (a) the amount of any missing unmaturred Coupon (or, in the case of payment not being made in full, the same proportion of the amount of that missing unmaturred Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment; and
- (b) each amount of principal deducted under paragraph (a) will be paid against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date in respect of such principal (whether or not that Coupon would otherwise have become void under Condition 26 ("Time limit for claims")) or, if later, five years from the date on which that Coupon would otherwise have become due.

When any Floating Rate Note or Variable Note in definitive bearer form becomes due and repayable, all unmaturred Coupons and Talons relating to it (whether or not attached) are void and no payment or, as the case may be, exchange for further Coupons may be made in respect of them.

If the due date for redemption of any Definitive Bearer Note is not an Interest Payment Date, any interest accrued in respect of that Note from (and including) the preceding Interest Payment Date or, as the case may be, the Interest Commencement Date is payable only against presentation and surrender of the relevant Definitive Bearer Note.

21.3 Holders of Global Notes entitled to payments

25.2 Withholding tax

If a law requires the Issuer to withhold or deduct an amount in respect of Taxes from a payment in respect of the Notes such that the Noteholder would not actually receive on the due date the full amount provided for under the Notes, then:

- (a) the Issuer agrees to withhold or deduct the amount for the Taxes (and any further withholding or deduction applicable to any further payment due under paragraph (b) below) and to pay an amount equal to the amount deducted to the relevant authority in accordance with applicable law; and
- (b) subject to Condition 25.3 ("Withholding tax exemptions"), if the amount deducted or withheld is in respect of Taxes imposed or levied by or on behalf of the Commonwealth of Australia or any political subdivision of it, an additional amount is payable so that, after making the deduction and further withholding or deductions applicable to additional amounts payable under this paragraph (b), the Noteholder is entitled to receive (at the time the payment is due) the amount it would have received if no withholding or deductions had been required.

For the avoidance of doubt, as specified in Condition 19.3 ("Payments subject to fiscal and other laws") the provisions of paragraph (b) above only apply in respect of withholdings or deductions of Taxes required by law and imposed or levied by or on behalf of the Commonwealth of Australia or Victoria or any political subdivision thereof or any authority therein or thereof having power to tax. - (b) more than 30 days after the Relevant Date except to the extent that a Noteholder would have been entitled to additional amounts under Condition 25.2(b) ("Withholding tax") on presenting the same, or making demand, for payment on the last day of the period of 30 days; or
- (c) on account of Taxes which are payable by reason of the Noteholder being an associate of the Issuer for the purposes of section 128F of the Tax Act; or
- (d) on account of Taxes which are payable by, or by a third party on behalf of, a Noteholder who could lawfully avoid (but has not so avoided) such deduction or withholding by complying or procuring that any third party complies with any statutory requirements or by making or procuring that any third party makes a declaration of non-residence or other similar claim for exemption to the Issuer or its agent or any tax authority where (in the case of Bearer Notes) the relevant Note is presented for payment or (in the case of Registered Notes) where the demand for payment is made.

25.4 New Zealand withholding tax exemptions

Each holder of a New Zealand Domestic Note who qualifies for an exemption from New Zealand resident withholding tax for the purpose of the Income Tax Act 2007 (N.Z.) must provide to the Issuer or

the New Zealand Registrar such evidence of that exemption as the Issuer may require, unless the holder is a registered bank under the Reserve Bank of New Zealand Act 1989.

- (a) the holder fails to comply with the above; or
- (b) the Issuer is otherwise not satisfied that the holder qualifies for such an exemption.

The Issuer may require the holder of a New Zealand Domestic Note who claims any exemption from New Zealand non-resident withholding tax to provide such evidence as the Issuer may require to satisfy itself that the holder has a right to any such exemption.

Australian Taxation Summary

In addition to the matters set out in this section in relation to Australian tax matters, prospective investors are advised to seek their own professional advice in relation to the matters set out in this Offering Circular under the headings “General Information – Foreign Account Tax Compliance Act”, “General Information – “FATCA withholding and the ICSDs”, “General Information - Common Reporting Standard” and “General Information - The proposed EU financial transactions tax (“FTT”)” on pages 127 to 129 inclusive of this Offering Circular.

1 INTRODUCTION

The following is a summary of the Australian withholding tax treatment under the Income Tax Assessment Acts of 1936 and 1997 of Australia (together, “**Australian Tax Act**”), the Taxation Administration Act 1953 of Australia and any relevant regulations, rulings or judicial or administrative pronouncements, at the date of this Offering Circular, of payments of interest (as defined in the Australian Tax Act) on the Notes to be issued by the Issuer under the Program and certain other Australian tax matters.

This summary applies to Noteholders that are:

- residents of Australia for tax purposes that do not hold their Notes in the course of carrying on a business at or through a permanent establishment outside of Australia, and non-residents of Australia for tax purposes that hold their Notes in the course of carrying on a business at or through a permanent establishment in Australia (“**Australian Holders**”); and
- non-residents of Australia for tax purposes that do not acquire their Notes in the course of carrying on a business at or through a permanent establishment in Australia, and Australian tax residents that acquire their Notes in the course of carrying on a business at or through a permanent establishment outside of Australia (“**Non-Australian Holders**”).

The summary is not exhaustive and, in particular, does not deal with the position of certain classes of Noteholders (including, without limitation, dealers in securities, custodians or other third parties who hold Notes on behalf of any person). In addition, unless expressly stated, the summary does not consider the Australian tax consequences for persons who hold interests in the Notes through Austraclear, Euroclear, Clearstream, Luxembourg, the CMU or another clearing system.

Noteholders should also be aware that particular terms of issue of any Series of Notes may affect the tax treatment of that Series of Notes. Information regarding taxes in respect of Notes may also be set out in the relevant Pricing Supplement (or another relevant supplement to this Offering Circular).

This summary is not intended to be, nor should it be construed as legal or tax advice to any particular holder of Notes. Each Noteholder should seek professional tax advice in relation to their particular circumstances.

2. AUSTRALIAN INTEREST WITHHOLDING TAX

The Australian Tax Act characterises securities as either “debt interests” (for all entities) or “equity interests” (for companies) including for the purposes of interest withholding tax (“**IWT**”) and dividend withholding tax. For Australian IWT purposes, “interest” is defined to include amounts in the nature of, or in substitution for, interest and certain other amounts.

Australian Holders

Payments of interest in respect of the Notes to Australian Holders will not be subject to Australian IWT.

Non-Australian Holders

IWT is payable at a rate of 10 per cent of the gross amount of interest paid by the Issuer to a Non-Australian Holder unless an exemption is available.

(a) *Section 128F exemption from IWT*

An exemption from IWT is available in respect of interest paid on the Notes if the requirements of section 128F of the Australian Tax Act are satisfied.

Unless otherwise specified in the relevant Pricing Supplement (or another relevant supplement to this Offering Circular), the Issuer intends to issue the Notes in a manner which will satisfy the requirements of section 128F of the Australian Tax Act.

In broad terms, the requirements are as follows:

- (i) the Issuer is a resident of Australia and a company (as defined in section 128F(9) of the Australian Tax Act) when it issues the Notes and when interest is paid; and
- (ii) the Notes are issued in a manner which satisfies the “public offer” test in section 128F of the Australian Tax Act.

In relation to the Notes, there are five principal methods of satisfying the public offer test, the purpose of which is to ensure that lenders in capital markets are aware that the Issuer is offering the Notes for issue. In summary, the five methods are:

- offers to 10 or more unrelated persons carrying on a business of providing finance, or investing or dealing in securities, in the course of operating in financial markets;
- offers to 100 or more investors of a certain type;
- offers of listed Notes;
- offers via publicly available information sources; or
- offers to a dealer, manager or underwriter who offers to sell the Notes within 30 days by one of the preceding methods.

The issue of Notes as “global bonds”, as defined in the Australian Tax Act, should also satisfy the public offer test;

- (iii) the Issuer does not know, or have reasonable grounds to suspect, at the time of issue, that the Notes (or interests in those Notes) were being, or would later be, acquired, directly or indirectly, by an “associate” of the Issuer, except as permitted by section 128F(5) of the Australian Tax Act (see below); and
- (iv) at the time of the payment of interest, the Issuer does not know, or have reasonable grounds to suspect, that the payee is an “associate” of the Issuer, except as permitted by section 128F(6) of the Australian Tax Act (see below).

An “associate” of the Issuer for the purposes of section 128F of the Australian Tax Act includes, where the Issuer is not a trustee:

- a person or entity which holds more than 50 per cent of the voting shares of, or otherwise controls, the Issuer;
- an entity in which more than 50 per cent of the voting shares are held by, or which is otherwise controlled by, the Issuer;
- a trustee of a trust where the Issuer is capable of benefiting (whether directly or indirectly) under that trust; and
- a person or entity who is an “associate” of another person or company which is an “associate” of the Issuer under the first bullet point above.

However, for the purposes of sections 128F(5) and (6) of the Australian Tax Act (see paragraphs (iii) and (iv) above) an “associate” of the Issuer does not include:

- (i) an Australian Holder; or
- (ii) a Non-Australian Holder that is acting in the capacity of:
 - (A) in the case of section 128F(5) only, a dealer, manager or underwriter in relation to the placement of the relevant Notes, or a clearing house, custodian, funds manager or responsible entity of a registered managed investment scheme (for the purposes of the Corporations Act); or
 - (B) in the case of section 128F(6), a clearing house, paying agent, custodian, funds manager or responsible entity of a registered managed investment scheme (for the purposes of the Corporations Act).

(b) *Exemptions under certain double tax conventions*

The Australian government has signed new or amended double tax conventions (“**New Treaties**”) with a number of countries (each a “**Specified Country**”). The New Treaties apply to interest derived by a resident of a Specified Country.

Broadly, the New Treaties effectively prevent IWT applying to interest derived by:

- the governments of the Specified Countries and certain governmental authorities and agencies in a Specified Country; and
- a “financial institution” resident in a Specified Country which is unrelated to and dealing wholly independently with the Issuer. The term “financial institution” refers to either a bank or any other enterprise which substantially derives its profits by carrying on a business of raising and providing finance. However, interest paid under a back-to-back loan or an economically equivalent arrangement will not qualify for this exemption.

The Australian Federal Treasury maintains a listing of Australia’s double tax conventions which provides details of country, status, withholding tax rate limits and Australian domestic implementation. This listing is available to the public at the Federal Treasury’s Department website at: <http://treasury.gov.au/tax-treaties/>.

(c) *Notes in bearer form - section 126 of the Australian Tax Act*

Section 126 of the Australian Tax Act imposes a type of withholding tax on the payment of interest on Bearer Notes if the Issuer fails to disclose the names and addresses of the holders of Bearer Notes to the Australian Taxation Office (“**ATO**”). The rate of withholding tax is currently 45 per cent.

Section 126 does not apply to the payment of interest on Bearer Notes held by non-Australian residents who do not carry on business at or through a permanent establishment in Australia where the issue of those Bearer Notes has satisfied the requirements of section 128F or IWT is payable.

In addition, the ATO has confirmed that for the purpose of section 126, the holder of debentures in bearer form is the person in possession of the debentures. Section 126 is, therefore, limited in its application to persons in possession of Bearer Notes who are residents of Australia or non-Australian residents who are engaged in carrying on business at or through a permanent establishment in Australia. Where interests in Bearer Notes are held through Euroclear, Clearstream, Luxembourg, the CMU or another clearing system, the Issuer intends to treat the relevant operator of the clearing system (or its nominee) as the bearer of the Notes for the purposes of section 126.

(d) *Payment of additional amounts*

As set out in more detail in Condition 25 (“Taxation”) and unless expressly provided to the contrary in the relevant Pricing Supplement (or another relevant supplement to this Offering Circular), if the Issuer is at any time required by law to withhold or deduct an amount in respect of any Australian withholding taxes imposed or levied by the Commonwealth of Australia or any political subdivision thereof or any authority therein or thereof having power to tax in respect of the Notes, the Issuer must, subject to certain exceptions, pay such additional amounts as may be necessary in order to ensure that the net amounts received by the holders of those Notes after such withholding or deduction are equal to the respective amounts which would have been received had no such withholding or deduction been required. If the Issuer is required in relation to any Notes to pay an additional amount in respect of a Note under Condition 25.2 (“Withholding Tax”), the Issuer may have the option to redeem those Notes in accordance with Condition 18.2 (“Early redemption for taxation reasons”).

3. AUSTRALIAN INCOME TAX – INTEREST PAYMENTS

Australian Holders will be required to include any interest in respect of their Notes in their Australian assessable income.

Whether the interest should be recognised as assessable income on a cash receipts or accruals basis (see also the “*taxation of financial arrangements*” summary in section 4 below) will depend on the individual circumstances of the Australian Holder.

On the basis that the Issuer satisfies the requirements of section 128F of the Australian Tax Act in respect of interest paid on the Notes, then non-resident holders who do not acquire the Notes in carrying on a business at or through a permanent establishment in Australia should not be subject to Australian income tax in respect of interest payments received on their Notes.

4. OTHER TAX MATTERS

Under Australian laws as presently in effect:

- *taxation of financial arrangements* - the Australian Tax Act contains tax timing rules for certain taxpayers to bring to account gains and losses from “financial arrangements”. The rules do not alter the rules relating to the imposition of IWT nor override the IWT exemption available under section 128F of the Australian Tax Act.”

In addition, the rules do not apply to certain taxpayers or in respect of certain short term “financial arrangements”. They should not, for example, generally apply to holders of Notes which are individuals and certain other entities (e.g. certain superannuation entities and managed investment schemes) which do not meet various turnover or asset thresholds, unless they make an election that the rules apply to their “financial arrangements”. Potential Noteholders should seek their own tax advice regarding their own personal circumstances as to whether such an election should be made;

- *death duties* - no Notes will be subject to death, estate or succession duties imposed by Australia, or by any political subdivision or authority therein having power to tax, if held at the time of death;
- *stamp duty and other taxes* - no *ad valorem* stamp, issue, registration or similar taxes are payable in Australia on the issue, transfer or redemption of any Notes;
- *TFN/ABN withholding* - withholding tax is imposed on the payment of interest on certain securities unless the relevant payee has quoted an Australian tax file number (“TFN”), (in certain circumstances) an Australian Business Number (“ABN”) or proof of some other exception (as appropriate). The rate of withholding tax is currently 47 per cent.

Assuming the requirements of section 128F of the Australian Tax Act are satisfied with respect to the Notes, then the TFN/ABN withholding will not apply to payments to a non-resident holder who does not acquire the Notes in carrying on a business at or through a permanent establishment in Australia. Payments to other holders in respect of Registered Notes may be subject to a withholding where the holder does not quote a TFN, (if applicable) ABN or provide proof of an appropriate exemption (as appropriate);

- *additional withholdings from certain payments to non-residents* - the Governor-General may make regulations requiring withholding from certain payments to non-residents of Australia (other than payments of interest and other amounts which are already subject to the current IWT rules or specifically exempt from those rules). Regulations may only be made if the responsible Minister is satisfied the specified payments are of a kind that could reasonably relate to assessable income of foreign residents. The possible application of any future regulations to the proceeds of any sale of the Notes will need to be monitored;
- *garnishee directions by the Commissioner of Taxation* - the Commissioner of Taxation may give a direction requiring the Issuer to pay out of any payment to a Noteholder any amount in respect of Australian tax payable by the Noteholder to the Commissioner of Taxation. If the Issuer is served with such a direction, then the Issuer will comply with that direction and will make any payment required by that direction;
- *supply withholding tax* - payments in respect of the Notes can be made free and clear of any “supply withholding tax”; and
- *goods and services tax (GST)* - neither the issue nor receipt of the Notes will give rise to a liability for GST in Australia on the basis that the supply of Notes will comprise either an input taxed financial supply or (in the case of an offshore subscriber which is not an Australian resident) a GST-free supply. Furthermore, neither the payment of principal or interest by the Issuer, nor the disposal of the Notes, would give rise to any GST liability in Australia.

New Zealand Taxation Summary

The following is a summary of the New Zealand taxation treatment at the date of the Offering Circular of payments of interest on New Zealand Domestic Notes and certain other matters. It relates to the position of holders of New Zealand Domestic Notes who are not associated with the Issuer (including those persons deemed to be associated with the Issuer by being a member of a “non-resident owning body” with qualifying ownership interests in the Issuer) or otherwise party to an “indirect associated funding arrangement” with the Issuer for New Zealand tax purposes (in each case as defined in the New Zealand Tax Act referred to below). The following is not exhaustive and, in particular, does not deal with the position of certain classes of holders of New Zealand Domestic Notes. Prospective holders of New Zealand Domestic Notes who are in any doubt as to their tax position should consult their professional advisers.

Under the New Zealand Income Tax Act 2007 (“**New Zealand Tax Act**”), resident withholding tax (“**RWT**”) is potentially applicable to interest paid to New Zealand residents or to non-residents engaged in business in New Zealand *through* a fixed establishment, such as a branch, in New Zealand where such non-residents either:

- hold the New Zealand Domestic Notes for the purposes of the business of that fixed establishment; or
- are registered banks (as defined in the Reserve Bank of New Zealand Act 1989) and are not associated with the Issuer for New Zealand tax purposes,

(each such holder an “**Onshore Holder**” for the purposes of this summary).

Any payment of interest on New Zealand Domestic Notes to a New Zealand resident or other Onshore Holder will be resident passive income which is subject to the RWT rules.

Under the New Zealand Tax Act, certain categories of persons are eligible for an exemption from RWT. Interest paid to holders which qualify for this exemption is not subject to RWT. For the Issuer to be satisfied that this exemption applies to the payment of interest on New Zealand Domestic Notes:

- the Issuer must be satisfied that the holder of the New Zealand Domestic Notes is a registered bank under the Reserve Bank of New Zealand Act 1989; or
- the Issuer must have seen a copy of a certificate of exemption issued to the holder or other evidence of exemption of the holder.

If the Issuer is not satisfied that the holder has a valid certificate of exemption or otherwise qualifies for an exemption from RWT, the Issuer will deduct RWT from the payment of interest on the New Zealand Domestic Notes. The rate of RWT deducted from the interest will normally be 28 per cent if the holder is a company or unit trust. Holders must furnish their IRD numbers to the Issuer. Whether or not RWT is deducted, New Zealand residents or other Onshore Holders, will be subject to income tax. The financial arrangements rules in subpart EW of the New Zealand Tax Act will apply to New Zealand residents or (if their investment in New Zealand Domestic Notes is attributable to a fixed establishment in New Zealand) other Onshore Holders in respect of that investment. Australian withholding tax deducted from interest paid to a holder (if any) can reduce the amount of tax payable on income recognised under the financial arrangements rules.

If the holder is not:

- tax resident in New Zealand or otherwise an Onshore Holder; nor
- a resident of one of the following countries (which have relevantly worded double taxation agreements (“**DTAs**”) in effect with New Zealand at the date of the Offering Circular): Australia; Austria; Belgium; Canada; Chile; China; the Czech Republic; Denmark; Finland; France; Germany; Hong Kong; India; Indonesia; Ireland; Japan; Mexico; Norway; Papua New Guinea; Poland; Republic of Korea; Russia; Samoa; Singapore; South Africa; Spain; Switzerland; Taiwan; Thailand; The Netherlands; The Philippines; Turkey; United Arab Emirates; the United Kingdom; the United States of America and Vietnam (“**Relevant DTA Countries**”),

the Issuer must deduct non-resident withholding tax (“**NRWT**”) from the interest paid on the New Zealand Domestic Notes. If the interest is non-resident passive income, it is excluded from resident passive income and RWT does not have to be deducted. Any such NRWT will be a final tax applied by New Zealand in respect of interest derived by such a holder. Such a holder may be, but is unlikely to be, subject to New Zealand income tax on any other gains derived from holding the Note, such as gains on sale. A holder of a New Zealand Domestic Note who is neither tax resident in New Zealand nor otherwise an Onshore Holder and who is resident in a Relevant DTA Country must provide the Issuer with such evidence of the holder’s residence in a Relevant DTA Country and entitlement to benefit under that DTA as the Issuer may require. If the Issuer is not satisfied

accordingly, the Issuer will deduct NRWT from the payment of interest on the New Zealand Domestic Notes. As set out in more detail in Condition 25 ("Taxation") of the Notes, if the Issuer at any time is compelled by law to deduct or withhold an amount in respect of any withholding taxes, the Issuer will deduct the required withholding tax and there will be no grossing-up of the payment.

The Issuer has been advised that, under New Zealand laws as presently in effect:

- as New Zealand does not impose any stamp duty (or similar issue or registration tax) and does not impose death duties, no New Zealand stamp duty or death duty will apply to any New Zealand Domestic Note or any holder of a New Zealand Domestic Note; and
- New Zealand goods and services tax will not apply in respect of any payments made on a New Zealand Domestic Note.

The NZClear System will only pay interest on securities lodged in the NZClear System in gross.

PRC Currency Controls

The following is a general description of certain currency controls in the PRC and is based on the law and relevant interpretations thereof in effect as at the date of this Offering Circular, all of which are subject to change, and does not constitute legal advice. It does not purport to be a complete analysis of all applicable currency controls in the PRC relating to the Notes. Prospective Noteholders who are in any doubt as to PRC currency controls are advised to consult their own professional advisers.

Remittance of proceeds in Renminbi into or out of the PRC

Renminbi is not a freely convertible currency. The remittance of Renminbi into and outside the PRC is subject to controls imposed under PRC law.

Current Account Items

Under PRC foreign exchange control regulations, current account items refer to any transaction for international receipts and payments involving goods, services, earnings and other frequent transfers.

Prior to July 2009, all current account items were required to be settled in foreign currencies with limited exceptions. Following progressive reforms, Renminbi settlement of imports and exports of goods and services and other current account items became permissible nationwide in 2012.

Since July 2013, the procedures for cross-border Renminbi trade settlement under current account items have been simplified and trades through e-commerce can also be settled in Renminbi under the current regulatory regime. A cash pooling arrangement for qualified multinational enterprise group companies was introduced in late 2014, under which a multinational enterprise group can process cross-border Renminbi payments and receipts for current account items on a collective basis for eligible member companies in the group. In addition, the eligibility requirements for multinational enterprise groups have been lowered and the cap for net cash inflow was increased in September 2015.

The regulations referred to above are subject to interpretation and application by the relevant PRC authorities. Local authorities may adopt different practices in applying these regulations and impose conditions for settlement of current account items.

Capital Account Items

Under PRC foreign exchange control regulations, capital account items include cross-border transfers of capital, direct investments, securities investments, derivative products and loans. Capital account payments are generally subject to the approval of, and/or registration or filing with, the relevant PRC authorities.

Until recently, settlement of capital account items, for example, the capital contribution of foreign investors to foreign invested enterprises in the PRC, were generally required to be made in foreign currencies. Under progressive reforms foreign enterprises are now permitted to use Renminbi to settle all capital account items that can be settled in foreign currencies. Cross-border Renminbi payment infrastructure and trading facilities are being improved. Approval, registration and filing requirements specifically for capital account payments in Renminbi are being removed gradually.

PRC entities are also permitted to borrow Renminbi-denominated loans from foreign lenders (which are referred to as "**foreign debt**") and lend Renminbi-denominated loans to foreign borrowers (which are referred to as "**outbound loans**"), as long as such PRC entities have the necessary quota, approval or registration. PRC entities may also denominate security or guarantee arrangements in Renminbi and make Renminbi payments thereunder to parties in the PRC as well as other jurisdictions (which is referred to as "**cross-border security**"). Under current rules promulgated by the State Administration of Foreign Exchange of the PRC ("**SAFE**") and PBoC, foreign debts borrowed, outbound loans extended and the cross-border security provided by a PRC onshore entity (including a financial institution) in Renminbi shall, in principle, be regulated under the current PRC foreign debt, outbound loan and cross-border security regimes applicable to foreign currencies. However, there remain potential inconsistencies between the provisions of the SAFE rules and those promulgated by the PBoC. It is not clear how the PRC regulators will deal with such inconsistencies in practice. After piloting in the free trade zones, PBoC and SAFE launched a nation-wide system of macro-prudential management on cross-border financing in 2016, which provides for a unified regime for financings denominated in both foreign currencies and Renminbi.

The securities markets, specifically the Renminbi Qualified Foreign Institutional Investor ("**RQFII**") regime and the China Interbank Bond Market ("**CIBM**"), have been further liberalised for foreign investors. PBoC has relaxed the quota control for RQFII, and has also expanded the list of eligible foreign investors in CIBM, removed quota restrictions, and granted more flexibility for settlement agents to provide the relevant institutions with more trading facilities (for example, in relation to derivatives for hedging foreign exchange risk).

The interbank foreign exchange market is also opening-up. In January 2016, the China Foreign Exchange Trading System set forth qualifications, application materials and procedures for foreign participating banks (which need to have a relatively large scale of Renminbi purchase and sale business and international influence) to access the inter-bank foreign exchange market.

Recent reforms introduced were aimed at controlling the remittance of Renminbi for payment of transactions categorised as capital account items. There is no assurance that the PRC Government will continue to gradually liberalise the control over Renminbi payments of capital account item transactions in the future. The relevant regulations are relatively new and will be subject to interpretation and application by the relevant PRC authorities.

Further, if any new PRC regulations are promulgated in the future which have the effect of permitting or restricting (as the case may be) the remittance of Renminbi for payment of transactions categorised as capital account items, then such remittances will need to be made subject to the specific requirements or restrictions set out in such rules.

Clearing and settlement

Euroclear

The Euroclear System was created in 1968 to hold securities for participants in the Euroclear System (“**Euroclear Participants**”) and to effect transactions between Euroclear Participants through immobilisation of certificates and simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfer of securities and cash. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries. Indirect access to the Euroclear System is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly. The Euroclear System is operated by Euroclear.

Securities clearance accounts and cash accounts with Euroclear are governed by the terms and conditions governing use of Euroclear, the related operating procedures of the Euroclear System and applicable Belgian law (collectively, the “**Euroclear Terms and Conditions**”). The Euroclear Terms and Conditions govern transactions of securities and cash within Euroclear, withdrawal of securities and cash from the system and receipts of payments with respect to securities in the system. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. Euroclear acts under the Euroclear Terms and Conditions only with Euroclear Participants themselves, and has no record of or relationship with persons holding through Euroclear Participants.

Distributions with respect to interests in Global Notes held through Euroclear will be credited to the Euroclear cash accounts of Euroclear Participants to the extent received by Euroclear’s depository, in accordance with the Euroclear Terms and Conditions. Euroclear will take any other action permitted to be taken by a holder of any Global Notes on behalf of a Euroclear Participant only in accordance with the Euroclear Terms and Conditions.

Clearstream, Luxembourg

Clearstream, Luxembourg is incorporated under the laws of Luxembourg as a professional depository and provides, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities. As a professional depository, Clearstream, Luxembourg is subject to regulation by the Luxembourg Monetary Institute. Clearstream, Luxembourg holds securities and provides clearing services for its participating organisations (“**Clearstream, Luxembourg Participants**”). Securities transfers are effected through book-entry changes in accounts of Clearstream, Luxembourg Participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg Participants are recognised financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organisations. Indirect access to Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream, Luxembourg, Participant, either directly or indirectly.

Austraclear System (Australia)

Austraclear began operation of the Austraclear System in Australia in 1984. Austraclear is an unlisted public company owned by financial institutions and other market participants. It operates the national central securities depository to the Australian money market and registry for government, semi-government and private sector debt securities lodged with the Austraclear System. Through its proprietary Financial Transactions Recording and Clearance Systems (“**FINTRACS**”) software, the Austraclear System electronically clears and settles most debt securities traded in the Australian money market and capital market.

The rights and obligations of Austraclear and participants under the Austraclear System are created by contract, as evidenced through the Austraclear System Regulations and Operating Manual, User Guides and instructions and directions contained within the Austraclear System (“**Austraclear Rules**”).

Under the Austraclear System, a wide range of eligible debt instruments may be “lodged” with Austraclear and either immobilised in its vaults which are located in Austraclear’s branch offices in Sydney and Melbourne (if they are in physical form), or recorded on an electronic register. Through the Austraclear System, ownership of these “physical” or “discount” debt instruments (Paper Securities) and “non-physical” or “fixed interest” debt instruments (Non-Paper Securities) is transferred electronically via book-entry changes without the need for physical delivery. Real-time settlement of cash transactions is facilitated by a real-time gross settlement (“**RTGS**”) system, operated by the Reserve Bank of Australia (“**RBA**”) and linked to the Austraclear System.

The Austraclear System relies upon both parties to a transaction entering trade details into computer terminals that the System then matches before effecting settlement. As well as facilitating securities settlements the Austraclear System also provides members with the ability to make high-value funds transfers independent of the need for a corresponding securities transfer.

As transactions currently processed through the Austraclear System are made on a RTGS basis, the cash settlement of transactions in debt securities, will be settled individually on a real time gross basis through institutions' exchange settlement accounts (held at the RBA). A payment will be settled only if the paying institution has an adequate balance in the exchange settlement account. Once that payment is made, it is irrevocable in the sense it is protected from recall by the remitter or dishonour by the paying institution. This allows for true delivery versus payment to take place; that is, securities and cash transfers occur simultaneously, counterparties to the transaction will own either securities or cash and finality is immediate.

NZClear System (New Zealand)

Since 1990, the RBNZ has operated the NZClear System (previously called the Austraclear New Zealand system) in New Zealand out of its Financial Services Group. The NZClear System electronically clears and settles most debt and equity securities issued by the New Zealand Government, local authorities and other public and private sector issuers traded in the New Zealand money market and capital market.

The rights and obligations of the RBNZ as operator of the NZClear System and participants under the NZClear System are created by contract, as evidenced through the NZClear System Rules and the NZClear Operating Guidelines ("**NZClear Rules**").

Under the NZClear System, a wide range of eligible New Zealand dollar-denominated securities (debt instruments and equities) may be "lodged" with New Zealand Central Securities Depository Limited ("**NZCSD**"), a custodian that is wholly owned by the RBNZ, and recorded on an electronic register. Through the NZClear System, ownership of these debt instruments is transferred electronically via book-entry changes without the need for physical delivery. Real-time settlement of cash transactions is facilitated by a RTGS system, operated by the RBNZ.

The NZClear System relies upon both parties to a transaction entering trade details into computer terminals that the NZClear System then matches before effecting settlement. As well as facilitating securities settlements, the NZClear System also provides members with the ability to make high-value funds transfers independent of the need for a corresponding securities transfer.

As transactions currently processed through the NZClear System are made on a RTGS basis, all high-value and time critical inter-bank payments, including the cash settlement of transactions in debt securities, will be settled individually on a RTGS basis through the institutions' NZClear System cash account that clears through their respective banks' exchange settlement accounts. A payment will be settled only if the paying institution has an adequate balance in the exchange settlement account it maintains with the RBNZ. Once that payment is made, it is irrevocable in the sense it is protected from recall by the remitter or dishonour by the paying institution. This allows for true delivery versus payment to take place; that is, securities and cash transfers occur simultaneously, counterparties to the transaction will own either securities or cash and finality is immediate. The finality of settlements is assured by virtue of NZClear's status as a 'designated settlement system' under Part 5C of the Reserve Bank of New Zealand Act 1989.

The NZClear System will only pay interest on securities lodged in the NZClear System in gross. As described in more detail above, under "New Zealand Taxation", interest paid to a holder of New Zealand Domestic Notes which holds a valid certificate of exemption or otherwise qualifies for an exemption from RWT is not subject to the New Zealand RWT rules. In order for an exemption from RWT to apply to the payment of interest on a New Zealand Domestic Note, the New Zealand Registrar must have seen a copy of the holder's certificate of exemption (or, in the case of another exemption from RWT, such evidence as the Issuer may require) or, if the New Zealand Domestic Note is held through a nominee member of the NZClear System, the nominee's certificate of exemption (or, in the case of another exemption from RWT, such evidence as the Issuer may require). However, the RBNZ will allow a member of the NZClear System that is non-resident in New Zealand and does not hold a certificate of exemption or other exemption from RWT to hold only New Zealand government securities.

Accordingly, in practice:

- a holder of a New Zealand Domestic Note lodged in the NZClear System must provide evidence to the RBNZ that it is the holder of a certificate of exemption from RWT or otherwise qualifies for an exemption from RWT; or
- the holder must hold the New Zealand Domestic Note through a nominee member of the NZClear System that has itself provided that evidence to the RBNZ; or
- (where a New Zealand Domestic Note is traded from the NZClear System to either Euroclear or Clearstream, Luxembourg, in which case the New Zealand Domestic Note remains within the NZClear System (see below)), The Hongkong and Shanghai Banking Corporation Limited (acting through HSBC Nominees (New Zealand) Limited ("**HSBC Nominees**")), which acts as agent for Euroclear, and JPMorgan Chase Bank, N.A. ("**JPM**"), which acts as agent for Clearstream, Luxembourg, manage any

related interest withholding tax that is legally required in relation to the relevant payment; in this case, each of Euroclear and Clearstream, Luxembourg is responsible for advising HSBC Nominees or JPM, as the case may be, of the tax status of its holder as the beneficial owner of the New Zealand Domestic Note.

Central Moneymarkets Unit Service

The CMU is a central depository service provided by the Central Moneymarkets Unit of the HKMA for the safe custody and electronic trading between the CMU Members of capital markets instruments (“**CMU Instruments**”) which are specified in the CMU Manual (published by the Central Moneymarkets Unit of the HKMA) as capable of being held within the CMU.

The CMU is only available to CMU Instruments issued by a CMU Member or by a person for whom a CMU Member acts as agent for the purposes of lodging instruments issued by such persons. Membership of the services is open to all members of the Hong Kong Capital Markets Association, “authorized institutions” under the Banking Ordinance (Cap. 155) of Hong Kong and other financial institutions subject to the discretion of the HKMA.

Compared to clearing services provided by Euroclear and Clearstream, Luxembourg, the standard custody and clearing service provided by the CMU is limited. In particular (and unlike the European clearing systems), the HKMA does not as part of this service provide any facilities for the dissemination to the relevant CMU Members of payments (of interest or principal) under, or notices pursuant to the notice provisions of, the CMU Instruments. Instead, the HKMA advises the lodging CMU Member (or a designated paying agent) of the identities of the CMU Members to whose accounts payments in respect of the relevant CMU Instruments are credited, whereupon the lodging CMU Member (or the designated paying agent) will make the necessary payments of interest or principal or send notices directly to the relevant CMU Members.

Similarly, the HKMA will not obtain certificates of non-U.S. beneficial ownership from CMU Members or provide any such certificates on behalf of CMU Members. The CMU Lodging Agent will collect such certificates from the relevant CMU Members identified from a CMU Instrument Position Report obtained by request from the HKMA for this purpose.

An investor holding an interest in the CMU Instruments through an account with either Euroclear or Clearstream, Luxembourg will hold that interest through the respective accounts which Euroclear and Clearstream, Luxembourg each have with the CMU.

Cross-market trading - Austraclear System

The Austraclear System in Australia is a participant in the Euroclear System and the Clearstream, Luxembourg (each a “**Clearance and Settlement System**”). The Austraclear Australian Rules provide for members of the Austraclear System to lodge, take out (“**uplift**”) and record transactions in respect of entitlements to certain bonds, notes, certificates of deposit and commercial paper issued in the Euromarkets (“**Eurosecurities**”). Members of the Austraclear System will acquire an equitable interest (a “**Euroentitlement**”) in the rights which the Austraclear System acquires to the relevant Eurosecurities. A Euroentitlement will be lodged in the Austraclear System by the member arranging for the transfer of the Eurosecurities to the account of Austraclear System with the relevant Clearance and Settlement System. It will not be possible for members to subscribe for a Eurosecurity through the Austraclear System. Once a Euroentitlement is lodged with the Austraclear System the member can deal with the Euroentitlement in much the same way as other securities lodged with the Austraclear System.

The Austraclear System will establish a separate account in Australia through which it will receive and disburse payments to members who hold Euroentitlements. Payments received by the Austraclear System in respect of Eurosecurities relating to Euroentitlements will be paid by the Austraclear System to the relevant member for value on the same day that payment is made by the Issuer of the related Eurosecurities.

Euroentitlements will be able to be uplifted from the Austraclear System by the Austraclear System transferring the related Eurosecurity to the account of another participant in the relevant Clearance and Settlement System.

At present the provisions do not provide for a two-way link. The provisions will only apply to securities issued in the Euromarkets. Accordingly, the new arrangements will not apply to instruments issued in the Australian domestic markets.

Cross-market trading - NZClear System

HSBC Nominees acts in New Zealand as the agent for Euroclear, and JPM as the agent for Clearstream, Luxembourg for New Zealand dollar-denominated fixed interest and registered discount securities issued in the New Zealand domestic markets and initially lodged with the NZClear System.

Unlike the Austraclear System in Australia, the RBNZ is not a participant in Euroclear or Clearstream, Luxembourg. If a security is traded from the NZClear System into Euroclear or Clearstream, Luxembourg, the security is transferred from the account of the relevant member of the NZClear System into the pool account of Euroclear or Clearstream, Luxembourg, as the case may be, within the NZClear System. Legal ownership of the security remains with NZCSD and only the beneficial entitlements to the security changes. That is, the security always remains lodged within the NZClear System and is not “uplifted” into Euroclear or Clearstream, Luxembourg. The relevant participant in Euroclear or Clearstream, Luxembourg acquires an equitable interest in the rights which Euroclear or Clearstream, Luxembourg acquires to the relevant security.

On advice from Euroclear or Clearstream, Luxembourg, HSBC Nominees or JPM, as the case may be, enters and settles transactions in the NZClear System with its New Zealand member, then advises Euroclear or Clearstream, Luxembourg electronically via SWIFT. Any payments of funds are cleared by Euroclear's or Clearstream, Luxembourg's New Zealand bank.

At present, the NZClear System does not provide for a two-way link with Euroclear and Clearstream, Luxembourg. The NZClear System enables New Zealand Domestic Notes initially lodged within the NZClear System to be traded to Euroclear and Clearstream, Luxembourg accounts through their respective New Zealand agents. It is not possible at present for New Zealand dollar-denominated Eurosecurities initially lodged within Euroclear and/or Clearstream, Luxembourg to be traded into the NZClear System or to be subscribed through the NZClear System.

CDS Clearing and Depository Services Inc. (“CDS”) (Canada)

CDS was formed in November 2006 pursuant to the restructuring of The Canadian Depository for Securities Limited (“**CDS Ltd.**”). CDS is wholly owned by CDS Ltd. CDS Ltd. was incorporated in 1970 and remains the holding company for CDS and two other operating subsidiaries and is Canada's national securities clearing and depository services organisation. CDS Ltd. is owned by TMX Group Limited.

Functioning as a service utility for the Canadian financial community, CDS provides a variety of computer automated services for financial institutions and investment dealers active in domestic and international capital markets. CDS participants (“**CDS Participants**”) include banks (including the Canadian Subcustodians (defined below)), investment dealers and trust companies and may include the Dealers or affiliates of the Dealers. Indirect access to CDS is available to other organisations that clear through or maintain a custodial relationship with a CDS Participant. Transfers of ownership and other interests, including cash distributions, in Notes in CDS may only be processed through CDS Participants and will be completed in accordance with existing CDS rules and procedures. CDS operates in Montreal, Toronto, Calgary and Vancouver to centralise securities clearing functions through a central securities depository.

CDS is the exclusive clearing house for equity trading on the Toronto Stock Exchange and also clears a substantial volume of over the counter trading in equities and bonds. The address for CDS is 85 Richmond Street West, Toronto, ON, Canada, M5H 2C9.

Global Clearance and Settlement Procedures

Initial settlement for Notes settling in CDS will be made in immediately available Canadian dollar funds. Such Notes will be registered in the name of CDS & CO., as nominee of CDS.

Beneficial interests in the relevant Global Note will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in CDS. If the Pricing Supplement indicates the Notes may clear in Euroclear and Clearstream, Luxembourg, investors may elect to hold interests in the Global Note directly through any of CDS (in Canada) or Clearstream, Luxembourg or Euroclear (in Europe) if they are participants of such systems, or indirectly through organisations which are participants in such systems. Links have been established among CDS, Euroclear and Clearstream, Luxembourg to facilitate issuance of Notes and cross-market transfers of Notes associated with secondary market trading. Clearstream, Luxembourg and Euroclear will hold interests on behalf of their participants through customers' securities accounts in their respective names on the books of their respective Canadian subcustodians, each of which is a Canadian schedule I chartered bank (“**Canadian Subcustodians**”), which in turn will hold such interests in customers' securities accounts in the names of the Canadian Subcustodians on the books of CDS. CDS will be directly linked to Euroclear and Clearstream, Luxembourg through the CDS accounts of their respective Canadian Subcustodians.

Secondary market trading between CDS Participants will be in accordance with market conventions applicable to transactions in book-based Canadian domestic bonds. Secondary market trading between Euroclear participants and/or Clearstream, Luxembourg participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Euroclear and Clearstream, Luxembourg and will be settled using the procedures applicable to conventional Eurobonds in immediately available funds.

Transfers between CDS and Euroclear or Clearstream, Luxembourg

Cross-market transfers between persons holding directly or indirectly through CDS Participants, on the one hand, and directly or indirectly through Euroclear participants or Clearstream, Luxembourg participants, on the other, will be effected in CDS in accordance with CDS rules; however, such cross-market transactions will require delivery of instructions to the relevant clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines. The relevant clearing system will, if the transaction meets its settlement requirements, deliver instructions to CDS directly or through its Canadian Subcustodian to take action to effect final settlement on its behalf by delivering or receiving Notes in CDS, and making or receiving payment in accordance with normal procedures for settlement in CDS. Euroclear participants and Clearstream, Luxembourg participants may not deliver instructions directly to CDS or the Canadian Subcustodians.

Because of time-zone differences, credits of Notes received in Euroclear or Clearstream, Luxembourg as a result of a transaction with a CDS Participant will be made during subsequent securities settlement processing and dated the business day following the CDS settlement date. Such credits or any transactions in such Notes settled during such processing will be reported to the relevant Euroclear participants or Clearstream, Luxembourg participants on such business day. Cash received in Euroclear or Clearstream, Luxembourg as a result of sales of Notes by or through a Euroclear participant or a Clearstream, Luxembourg participant to a CDS Participant will be received with value on the CDS settlement date but will be available in the relevant Euroclear or Clearstream, Luxembourg cash account only as of the business day following settlement in CDS.

Summary of provisions relating to Euro Notes and Canadian Domestic Notes while in Global Form

This summary relates to the issue by the Issuer of Notes in bearer form (“Euro Notes”) or Registered Euro/CMU Notes pursuant to the Euro Fiscal Agency Agreement dated 31 October 2001 as amended and restated on 15 October 2002, supplemented on 14 November 2003 and as amended on 23 September 2005, 12 October 2006, 24 October 2011 and 12 March 2015 as further supplemented, amended and/or restated from time to time between the Issuer and the Fiscal Agent and Canadian Domestic Notes in registered form pursuant to a Canadian Registry Services Agreement, all having the benefit of the Deed of Covenant dated 12 October 2006 or 12 March 2015 (as applicable), each executed by the Issuer. All capitalised terms that are not defined in this summary have the meaning given to them in the “Terms and Conditions of the Notes”.

1 Initial Issue of Notes

Upon the initial deposit of a Temporary Global Note or a Permanent Global Note with a common depository or registration of Registered Euro/CMU Notes in the nominee name of the Common Depository for Euroclear and Clearstream, Luxembourg (“**Common Depository**”) or with the HKMA and delivery of the relevant Registered Global Note to the Common Depository or sub-custodian, or the initial deposit of a Registered Global Note with CDS Clearing and Depository Services Inc. and the initial registration of such Registered Global Note in the name of CDS & CO. as nominee of CDS (or any other nominee appointed by CDS) or in the name of a nominee for any other agreed clearing system, or a common nominee, and delivery of the relevant Global Note(s) to the appropriate depository, or a Common Depository, Euroclear, Clearstream, Luxembourg, CDS, the CMU or such other agreed clearing system will credit each subscriber with a principal amount of Notes equal to the principal amount for which it has subscribed and paid.

Notes that are initially deposited with the Common Depository may also be credited to the accounts of subscribers with (if indicated in the relevant Pricing Supplement) other clearing systems through direct or indirect accounts with Euroclear and Clearstream, Luxembourg held by such other clearing systems. Conversely, Notes that are initially deposited with any other clearing system (including CDS) may similarly be credited through direct or indirect participants’ accounts with Euroclear, Clearstream, Luxembourg or other clearing systems. Notes issued in bearer form will initially be issued in the form of a Temporary Global Note or a Permanent Global Note as indicated in the applicable Pricing Supplement, which in either case, will be deposited on or prior to the original issue date to a Common Depository. Registered Euro/CMU Notes, Canadian Domestic Notes and other Notes issued in registered form which are held (i): in Euroclear, Clearstream, Luxembourg, CDS or any other agreed clearing system, will be registered in the name of a nominee for such system and the relevant Registered Global Note will be delivered to the appropriate depository or a Common Depository, as the case may be or (ii) through the CMU, will be registered in the name of the HKMA, in its capacity as operator of the CMU.

2 Relationship of Accountholders with Clearing Systems

Save as provided in the following paragraphs, each of the persons shown in the records of Euroclear, Clearstream, Luxembourg, CDS or any other clearing system as the holder of a Note represented by a Global Note must look solely to Euroclear, Clearstream, Luxembourg, CDS or such clearing system (as the case may be) for his share of each payment made by the Issuer to the bearer of such Global Note or the holder of the underlying Registered Notes, as the case may be, and in relation to all other rights arising under the Global Notes subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Luxembourg, CDS or such clearing system (as the case may be). Such persons shall have no claim directly against the Issuer in respect of payments due on the Notes for so long as the Notes are represented by such Global Note and such obligations of the Issuer will be discharged by payment to the bearer or the registered holder (as the case may be) of such Global Note in respect of each amount so paid.

If a Global Note is lodged with a sub-custodian for the CMU, the person(s) for whose account(s) interests in such Global Note are credited as being held in the CMU in accordance with the CMU Rules as notified by the CMU to the CMU Lodging Agent in a relevant CMU Instrument Position Report or any other relevant notification by the CMU (which notification, in either case, shall be conclusive evidence of the records of the CMU save in the case of manifest error) shall be the only person(s) entitled (in the case of Registered Notes, directed or deemed by the CMU as entitled) to receive payments in respect of Notes represented by such Global Note and such obligations of the Issuer will be discharged by payment to, or to the order of, such person(s) for whose account(s) interests in such Global Note are credited as being held in the CMU in respect of each amount so paid. Each of the persons shown in the records of the CMU, as the beneficial holder of a particular nominal amount of Notes represented by such Global Note must look solely to the CMU Lodging Agent for his share of each payment so made by us in respect of such Global Note.

None of the Issuer, the Registrars or the Agents have any responsibility or liability for any aspect of the records of CDS or any other relevant clearing system relating to, or payments made on account of, beneficial ownership interests in the Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests. Holders of beneficial interests in Global Notes held through CDS will not have a direct right to vote in respect of the Notes. Instead, such holders will be permitted to act only to the extent they are enabled by CDS to appoint proxies under and in accordance with the rules and procedures of CDS.

3 Payments

Where, as discussed under "Selling Restrictions – United States of America", the TEFRA "D" rules apply, no payments will be made on the Notes unless the TEFRA "D" certification requirements have been complied with. Whilst any Note is represented by a Temporary Global Note, payments of principal, interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date will be made against presentation of the Temporary Global Note only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of interest in such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, have given a like certification (based on the certifications it has received) to the Fiscal Agent. Payments of principal, interest (if any) or any other amounts on a Permanent Global Note (other than Notes held through the CMU), will be made through Euroclear and/or Clearstream, Luxembourg against presentation or surrender (as the case may be) of the Permanent Global Note without any requirement for certification. Payments of principal, interest (if any) or any other amounts on Canadian Domestic Notes in global form will be made through CDS in accordance with its rules and procedures. Payments of principal, interest (if any) or any other amounts on Notes held through the CMU shall be made to the person(s) for whose account(s) interests in the relevant Global Note are credited (as set out in a CMU Instrument Position Report or any other relevant notification supplied to the CMU Lodging Agent by the CMU).

So long as the Notes are represented by a Global Note, the "Record Date" shall be the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment where "Clearing System Business Day" means a day on which the relevant clearing system is open for business except 25 December and 1 January.

4 Exchange

4.1 Temporary Global Notes

Each Temporary Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date in whole or in part upon certification as to non-U.S. beneficial ownership in the form set out in the Euro Fiscal Agency Agreement for interests in a Permanent Global Note or, if so provided in the relevant Pricing Supplement, for Definitive Bearer Notes.

If:

- (a) a Permanent Global Note has not been delivered or its principal amount increased by 5.00 p.m. (London time) on the seventh day after the bearer of a Temporary Global Note has requested exchange of an interest in the Temporary Global Note for an interest in a Permanent Global Note; or
- (b) Definitive Bearer Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Temporary Global Note has requested exchange of the Temporary Global Note for Definitive Notes; or
- (c) a Temporary Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of a Temporary Global Note has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest has not been made to the bearer of the Temporary Global Note in accordance with the terms of the Temporary Global Note on the due date for payment,

then the Temporary Global Note (including the obligations to deliver a Permanent Global Note or increase the principal amount thereof or deliver Definitive Notes, as the case may be) will become void at 5.00 p.m. (London time) on such seventh day (in the case of (a) above) or at 5.00 p.m. (London time) on such thirtieth day (in the case of (b) above) or at 5.00 p.m. (London time) on such due date (in the case of (c) above) and the bearer of the Temporary Global Note will have no further rights thereunder (but without prejudice to the rights which the bearer of the Temporary Global Note or others may have under a deed of covenant dated 12 October 2006 and on or about 12 March 2015 ("**Deed of Covenant**") executed by the Issuer). Under the Deed of Covenant, persons shown in the records of

Euroclear and/or Clearstream, Luxembourg, the CMU and/or any other relevant clearing system as being entitled to an interest in a Temporary Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Temporary Global Note became void, they had been the holders of Definitive Bearer Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg, the CMU and/or any other relevant clearing system.

The CMU may require that any such exchange for a Permanent Global Note is made in whole and not in part and in such event, no such exchange will be effected until all relevant account holders (as set out in a CMU Instrument Position Report (as defined in the rules of the CMU) or any other relevant notification supplied to the CMU Lodging Agent by the CMU) have so certified.

4.2 Permanent Global Notes

Each Permanent Global Note will be exchangeable, free of charge to the holder, on or after its Exchange Date in whole but not, except as provided under "Partial Exchange of Permanent Global Notes", in part for Definitive Bearer Notes (i) if the Permanent Global Note is held on behalf of Euroclear or Clearstream, Luxembourg, the CMU or any other clearing system (an "**Alternative Clearing System**") and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or in fact does so or (ii) if principal in respect of any Notes is not paid when due, by the holder (or, in the case of Notes cleared through the CMU, by the relevant account holders therein) giving notice to the Fiscal Agent (or, in the case of Notes cleared through the CMU, to the CMU Lodging Agent) of its election for such exchange.

If:

- (a) Definitive Bearer Notes have not been delivered by 5.00 p.m. (London time) on the thirtieth day after the bearer of a Permanent Global Note has duly requested exchange of the Permanent Global Note for Definitive Bearer Notes; or
- (b) a Permanent Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest has not been made to the bearer of the Permanent Global Note in accordance with the terms of the Permanent Global Note on the due date for payment,

then the Permanent Global Note (including the obligation to deliver Definitive Notes) will become void at 5.00 p.m. (London time) on such thirtieth day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the bearer of the Permanent Global Note will have no further rights under it (but without prejudice to the rights which the bearer of the Permanent Global Note or others may have under the Deed of Covenant). Under the Deed of Covenant, persons shown in the records of Euroclear and/or Clearstream, Luxembourg, the CMU and/or any other relevant clearing system as being entitled to an interest in a Permanent Global Note will acquire directly against the Issuer all those rights to which they would have been entitled if, immediately before the Permanent Global Note became void, they had been the holders of Definitive Notes or Registered Euro/CMU Notes (as applicable) in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg, the CMU and/or any other relevant clearing system.

4.3 Partial exchange of Permanent Global Notes

For so long as a Permanent Global Note is held on behalf of a clearing system and the rules of that clearing system permit, such Permanent Global Note will be exchangeable in part on one or more occasions for Definitive Bearer Notes (a) if principal in respect of any Notes is not paid when due or (b) if so provided in, and in accordance with, the Conditions (which will be set out in the relevant Pricing Supplement) relating to Partly Paid Notes.

4.4 Exchange of Registered Global Notes

Each Registered Global Note (other than a Canadian Domestic Note) will only be exchangeable for Certificates in definitive form:

- (a) if the Notes represented by the Registered Global Note are held (directly or indirectly) on behalf of Euroclear, Clearstream, Luxembourg or the CMU or an Alternative Clearing System and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; or

- (b) if any of the circumstances described in Condition 27.1 (“Event of Default”) occurs.

Registered Global Notes will be exchangeable in whole (or in part if the Registered Global Note is held by or on behalf of CDS or any other agreed clearing system and the rules of such clearing system then permit) for definitive Registered Notes only in the limited circumstances set out in the Registered Global Note, at the cost and expense of the Issuer.

A beneficial interest in a Canadian Domestic Note will, subject to compliance with all applicable legal and regulatory restrictions, be exchangeable for Registered Notes in definitive form or for a beneficial interest in another Canadian Domestic Note only in the Specified Denominations set out in the applicable Pricing Supplement and only in accordance with the rules and operating procedures for the time being of the CDS and in accordance with the terms and conditions specified in the Canadian Registry Services Agreement.

4.5 Delivery of Notes

On or after any due date for exchange the holder of a Global Note in bearer form or a Registered Global Note may surrender such Global Note or, in the case of a partial exchange, present it for endorsement to or to the order of the Fiscal Agent or Registrar (or in the case of Notes lodged with the CMU, the CMU Lodging Agent). In exchange for any such Temporary Global Note, or the part of it to be exchanged, the Issuer will deliver, or procure the delivery of, a Permanent Global Note in an aggregate principal amount equal to that of the whole or that part of a Temporary Global Note that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a Permanent Global Note to reflect such exchange. In the case of a Permanent Global Note or Registered Global Note exchangeable for Notes or Certificates in definitive form (unless such exchange is at the request of the relevant Issuer) at the cost of the relevant Noteholder, the Issuer will cause an equal aggregate principal amount of Notes or Certificates in definitive form to be executed and delivered to the Fiscal Agent or the Registrar, as the case may be, for completion, authentication and dispatch to the relevant Noteholders. In this Offering Circular, “**Definitive Notes**” means, in relation to any Global Note, the definitive Bearer Notes or the definitive Registered Notes or Certificates for which such Global Note may be exchanged (if appropriate, having attached to them all Coupons and Receipts in respect of interest or Instalment Amounts that have not already been paid on the Global Note and a Talon). Definitive Notes will be security printed and printed in accordance with any applicable legal and stock exchange requirements in or substantially in the form set out in the schedules to the Euro Fiscal Agency Agreement, or the Canadian Registry Services Agreement, as the case may be. On exchange in full of each Permanent Global Note, the Issuer will, if the holder so requests, procure that it is cancelled and returned to the holder together with the relevant Definitive Notes.

4.6 Exchange Date

“Exchange Date” means, in relation to a Temporary Global Note, the day falling after the expiry of 40 days after its issue date and, in relation to a Permanent Global Note, a day falling not less than 60 days, or in the case of failure to pay principal in respect of any Notes when due 30 days, after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Fiscal Agent (or, in the case of Notes cleared through the CMU, the CMU Lodging Agent) is located and in the city in which the relevant clearing system is located.

5 Transfers

Notes which are represented by a Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, CDS, the CMU or any other agreed clearing system as the case may be. Interests in Global Notes will be transferable in multiples of €100,000 (or its equivalent in other currencies) unless otherwise specified in the Pricing Supplement. Transfers of beneficial interests in Canadian Domestic Notes will be effected by CDS in accordance with its rules and procedures and, in turn, by book entries made in the accounts of participants and, if appropriate, indirect participants in CDS acting on behalf of beneficial transferors and transferees of such interests.

6 Conditions applicable to Global Notes

Each Global Note contains provisions which modify the Terms and Conditions of the Notes as they apply to the Global Note. The following is a summary of certain of those provisions:

- (a) *Meetings*: The holder of a Permanent Global Note or Registered Global Note shall (unless such Permanent Global Note or Registered Global Note represents only one Note) be treated as being two persons for the purposes of any quorum requirements of a meeting of holders and, at any such meeting, the holder of a Permanent Global Note or Registered Global Note

shall be treated as having one vote in respect of each minimum Specified Denomination of Notes for which such Global Note may be exchanged.

- (b) *Cancellation*: Cancellation of any Note represented by a Permanent Global Note or Registered Global Note that is required by the Conditions to be cancelled (other than upon its redemption) will be effected by reduction in the principal amount of the relevant Permanent Global Note or Registered Global Note.
- (c) *Purchase*: Notes represented by a Permanent Global Note or Registered Global Note may be purchased by the Issuer or any of its Subsidiaries at any time in the open market or otherwise and at any price.
- (d) *Issuer's call options*: Any option of the Issuer provided for in the Conditions of the Notes while such Notes are represented by a Global Note shall be exercised by the Issuer giving notice to the holders within the time limits set out in and containing the information required by the Conditions, except that the notice is not required to contain the serial numbers of Notes drawn in the case of a partial exercise of an option and accordingly no drawing of Notes is required. If any option of the Issuer is exercised in respect of some but not all of the Notes of any Series, the rights of accountholders with a clearing system in respect of the Notes are governed by the standard procedures of Euroclear, Clearstream, Luxembourg, CDS, the CMU or any other clearing system (as the case may be).
- (e) *Investors' put option*: Any option of the holders provided for in the Conditions of any Notes while such Notes are represented by a Global Note may be exercised by the holder of such Global Note, giving notice to the Principal Paying Agent (or, in the case of Notes held through the CMU, the CMU Lodging Agent) or relevant Registrar, as the case may be, within the time limits relating to the deposit of Notes with the Principal Paying Agent (or, in the case of Notes held through the CMU, the CMU Lodging Agent) or relevant Registrar, as the case may be, substantially in the form of the notice available from the Principal Paying Agent (or, in the case of Notes held through the CMU, the CMU Lodging Agent) or any Paying Agent or relevant Registrar, as the case may be, except that the notice is not required to contain the serial numbers of the Notes in respect of which the option has been exercised, and stating the principal amount of Notes in respect of which the option is exercised and at the same time presenting for notation the Global Note to the Fiscal Agent or Registrar, as the case may be.

7 Partly Paid Notes

While any instalments of the subscription moneys due from the holder of Partly Paid Notes are overdue, no interest in a Temporary Global Note representing such Notes may be exchanged for any interest in a Permanent Global Note or for Definitive Notes (as the case may be). If any Noteholder fails to pay any instalment due on any Partly Paid Notes within the time specified, the Issuer may forfeit such Notes and shall have no further obligation to their holder in respect of them.

8 Notices

So long as any Notes are represented by a Global Note (including a Global Certificate) and such Global Note is held on behalf of (a) Euroclear and/or Clearstream, Luxembourg or any other clearing system (except as provided in (b) below), notices to the holders of Notes of that Series may be given by delivery of the relevant notice to that clearing system for communication by it to entitled accountholders in substitution for publication as required by the Conditions or by delivery of the relevant notice to the holder of the Global Note or (b) the CMU, notices to the holders of Notes of that Series may be given by delivery of the relevant notice to the persons shown in a CMU Instrument Position Report issued by the CMU Service on the second business day preceding the date of dispatch of such notice as holding interests in the relevant Global Note.

Sale and subscription

Summary of Dealer Agreement

Subject to the terms and on the conditions contained in a Dealer Agreement dated 31 October 2001 as amended on or about 12 March 2019 and as further supplemented, amended and/or restated from time to time ("**Dealer Agreement**") between the Issuer, the Arranger and the financial institutions party thereto as Dealers, the Notes will be offered by the Issuer to the Dealers. The Notes may be resold at prevailing market prices, or at related prices, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold by the Issuer through the Dealers, acting as agents of the Issuer. The Dealer Agreement also provides for Notes to be issued in syndicated Tranches that may be jointly and severally underwritten by two or more Dealers.

The Issuer has agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes and to pay the Dealers certain fees and commissions in relation to any issue of the Notes under the Program. The Dealers and their affiliates are full service financial institutions engaged in various activities which may include securities trading, commercial and investment banking, financial advice, investment management, principal investment, hedging, financing and brokerage activities. Each of the Dealers may have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with the Issuer or its subsidiaries, jointly controlled entities or associated companies from time to time. In the ordinary course of their various business activities, the Dealers and their affiliates may make or hold (on their own account, on behalf of clients or in their capacity of investment advisers) a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments and enter into other transactions, including credit derivatives (such as asset swaps, repackaging and credit default swaps) in relation thereto. Such transactions, investments and securities activities may involve securities and instruments of the Issuer or its subsidiaries, jointly controlled entities or associated companies, including Notes issued under the Program, may be entered into at the same time or proximate to offers and sales of Notes or at other times in the secondary market and be carried out with counterparties that are also purchasers, holders or sellers of Notes. Notes issued under the Program may be purchased by or be allocated to any Dealer or an affiliate for asset management and/or proprietary purposes but not with a view to distribution. The Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe for Notes in certain circumstances prior to payment for such Notes being made to the Issuer.

If a jurisdiction requires that the offering be made by a licensed broker or dealer and a Dealer or any affiliate of that Dealer is a licensed broker or dealer in that jurisdiction, the offering shall be deemed to be made by that Dealer or such affiliate on behalf of the Issuer (as defined in this Offering Circular) in such jurisdiction.

No action has been taken in any jurisdiction that would permit a public offering of any of the Notes, or possession or distribution of the Offering Circular or any other offering material or any Pricing Supplement, in any country or jurisdiction where action for that purpose is required. Neither the Issuer nor any Dealer represents that any Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

Persons into whose hands this Offering Circular comes are required by the Issuer and the Dealers to comply with all applicable laws and regulations in each country or jurisdiction in which they purchase, offer, sell or deliver Notes or have in their possession or distribute the Offering Circular or such other offering material and to obtain any authorisation, consent, approval or permission required by them for the purchase, offer, sale or delivery by them of any Notes under any law, regulation or directive in force in any jurisdiction to which they are subject or in which they make such purchases, offers, sales or deliveries, in all cases at their own expense, and neither the Issuer nor any Dealer shall have responsibility therefor. In accordance with the above, any Notes purchased by any person which it wishes to offer for sale or resale may not be offered in any jurisdiction in circumstances which would result in the Issuer being obliged to register any further prospectus or corresponding document relating to the Notes in such jurisdiction.

Each Dealer appointed under the Program will be required to agree with the Issuer that it will observe all applicable laws and regulations in any jurisdiction in which it may offer, sell or deliver Notes and that it will not, directly or indirectly, offer, sell or deliver Notes or distribute or publish this document, any prospectus, circular, advertisement or other offering material (including, without limitation, any supplement to this document) in relation to the Notes in or from any country of jurisdiction except under circumstances that will to the best of its knowledge and belief result in compliance with any applicable laws and regulations, and all offers, sales and deliveries of Notes by it will be made on the foregoing terms.

In addition and unless the Pricing Supplement otherwise provides, each Dealer appointed under the Program will be required to agree with the Issuer that, in connection with the primary distribution of the Notes which are specified in the relevant Pricing Supplement as being Public Offer Test Compliant, it will not (directly or indirectly) sell Notes to any person in circumstances where employees of the Dealer directly involved in the sale, know or have reasonable grounds to suspect, the Notes (or an interest in or right in respect of the Notes) were being or

would later be, acquired either directly or indirectly by an Offshore Associate (as defined in the Dealer Agreement) of the Issuer other than one acting in the capacity of a dealer, manager or underwriter in relation to the placement of those Notes or a clearing house, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in the Netherlands means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Relevant EEA State by any measure implementing the Prospectus Directive in that Relevant EEA State and the expression “Prospectus Directive” means Directive 2003/71/EC (as amended or superseded) and includes any relevant implementing measure in the Netherlands.

In the event that the Savings Certificates Act applies, certain identification requirements in relation to the issue and transfer of, and payments on, Zero Coupon Notes have to be complied with.

For purposes of the paragraph above, “**Zero Coupon Notes**” are Notes that are in bearer form and that constitute a claim for a fixed sum against the Issuer and on which interest does not become due during their tenor or on which no interest is due whatsoever.

Only the relevant offering circular for the offering of Notes in, into or from Switzerland and any information required to ensure compliance with the CO and all other applicable laws and regulations of Switzerland (in particular, additional and updated corporate and financial information that shall be provided by the relevant Issuer) may be used in the context of a public offer in, into or from Switzerland. Each Dealer has therefore represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, that the relevant offering circular and such information shall be furnished to any potential purchaser in Switzerland upon request in such manner and at such times as required by the CO and all other applicable laws and regulations of Switzerland.

If and to the extent that the Notes qualify as a structured product within the meaning of the CISA, each Dealer has represented and agreed, and each further Dealer appointed under the Program will be required to represent and agree, that it will not offer or distribute the Notes by means of a public offering in, into or from Switzerland, as such term is interpreted from time to time under the CISA or under the CO (to the extent applicable), unless the Notes are offered and distributed in, into or from Switzerland in compliance with the CISA and its implementing ordinances, including that all relevant licences have been obtained and that a simplified prospectus within the meaning of Article 5 CISA has been prepared to be furnished to any potential purchaser in Switzerland upon request in such manner and at such times as required by the CISA and all other applicable laws and regulations of Switzerland.

Taiwan

The Notes have not been, and will not be, registered with the Financial Supervisory Commission of Taiwan, the Republic of China ("**Taiwan**") pursuant to applicable securities laws and regulations. No person or entity in Taiwan is authorised to distribute or otherwise intermediate the offering of the Notes or the provision of information relating to the Program, including, but not limited to, this Offering Circular. The Notes may be made available for purchase from outside Taiwan by investors residing in Taiwan (either directly or through properly

licensed Taiwan intermediaries acting on behalf of such investors), but may not be issued, offered or sold in Taiwan. Any subscriptions of the Notes shall only become effective upon acceptance by the Issuer or relevant Dealer outside Taiwan and, unless otherwise specified in the documents relating to the Note signed by the Dealers, shall be deemed a contract entered into in the jurisdiction of incorporation of the Issuer or relevant Dealer, as the case may be.

The Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except pursuant to an effective registration statement or in certain transactions exempt from, or not subject to, the registration requirements of the Securities Act, including, without limitation, in accordance with Regulation S under the Securities Act. Regulation S provides a non-exclusive safe harbour from the application of the registration requirements of the Securities Act. Terms used in this paragraph have the meaning given to them by Regulation S under the Securities Act.

Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to U.S. persons, except in certain transactions permitted by U.S. tax regulations. In addition, until 40 days after the completion of the distribution of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

Each issue of Index Linked Interest Notes and Dual Currency Notes is subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer or Dealers agree as a term of the issue and purchase of such Notes, which additional selling restrictions will be set out in the applicable Pricing Supplement. The Dealers have agreed and each subsequent Dealer appointed under the Program will agree that they will offer, sell or deliver such Notes only in compliance with such additional U.S. selling restrictions.

In addition (in relation to Notes in bearer form with a maturity of more than one year except where TEFRA "C" is specified in the applicable Pricing Supplement):

- (a) except to the extent permitted under U.S. Treasury Regulation §1.163-5(c)(2)(i)(D) ("**D Rules**"), each Dealer has:
 - (i) represented and covenanted, and each further Dealer appointed under the Program will be required to represent and covenant, that it has not offered or sold, and agreed that during the restricted period it will not offer or sell, Notes to a person who is within the United States or its possessions or to a United States person, and

- (c) if it is a United States person, each Dealer has represented and covenanted, and each further Dealer appointed under the Program will be required to represent and covenant, that it is acquiring the Notes for purposes of resale in connection with their original issue and if it retains Notes for its own account, it will only do so in accordance with the requirements of U.S. Treasury Regulation §1.163-5(c)(2)(i)(D)(6); and
- (d) with respect to each affiliate that acquires from it Notes for the purpose of offering or selling such Notes during the restricted period, each Dealer has either:
 - (i) repeated and confirmed, and each further Dealer appointed under the Program will be required to repeat and confirm, the representations, covenants and agreements contained in clauses (a), (b) and (c) on its behalf; or
 - (ii) agreed and covenanted, and each further Dealer appointed under the Program will be required to agree and covenant, that it will obtain from such affiliate for the benefit of Telstra the representations, covenants and agreements contained in clauses (a), (b) and (c).

No obligations will be delivered in definitive form unless the TEFRA "D" certification requirements have been complied with. Terms used in clauses (a), (b), (c) and (d) have the meaning given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.

In respect of Notes in bearer form where TEFRA "C" is specified in the applicable Pricing Supplement, such Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. Each Dealer represents, covenants and agrees (1) that it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly (including through an agent), such Notes within the United States or its possessions in connection with their original issuance; and (2) that it has not communicated, and will not communicate, directly or indirectly (including through an agent), with a prospective purchaser if either the Dealer, its agent or such purchaser is within the United States or its possessions and will not otherwise involve its United States office or a United States possession office in the offer, sale, delivery, advertisement or promotion of such Notes. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and U.S. Treasury Regulation section 1.163-5(c)(2)(i)(C).

General

The restrictions on offerings may be modified by the agreement of the Issuer and the Dealers following a change in or clarification of a relevant law, regulation, directive, request or guideline having the force of law in the country concerned or any change in or introduction of any of them or in their interpretation or administration. Any such

modification will be set out in the applicable Pricing Supplement applicable to each Series of Notes or in a supplement to this document.

Form of Pricing Supplement

Pricing Supplement dated []

Telstra Corporation Limited

(ABN 33 051 775 556)

(incorporated with limited liability in the Commonwealth of Australia)

Issue of [Aggregate Nominal Amount of Tranche] [Title of Notes]

under the

€15,000,000,000 Debt Issuance Program

Terms used in this document are deemed to be defined as such for the purposes of the Conditions (the **Conditions**) set forth in the Offering Circular dated 12 March 2019 [and the supplement dated [**date**]] ([together,] the "**Offering Circular**"). This document constitutes the Pricing Supplement for the Notes and must be read in conjunction with the Offering Circular. [Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of this Pricing Supplement and the Offering Circular.] The Offering Circular is available for viewing on the Issuer's website, www.telstra.com.au.

The following alternative language applies if the first tranche of an issue which is being increased was issued under a Prospectus or Offering Circular with an earlier date.

Terms used in this document are deemed to be defined as such for the purposes of the Conditions (the **Conditions**) set forth in the Prospectus/Offering Circular for the Program dated [**original date**] and incorporated by reference into the Offering Circular and which are attached hereto.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC (as amended or superseded, "**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended or superseded, the "**Prospectus Directive**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been or will be prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

[MIFID II PRODUCT GOVERNANCE/TARGET MARKET – Solely for the purposes of [the/each] manufacturer's product approval process (the Issuer is not a manufacturer – see below), the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels. [The Issuer is a third country manufacturer and is not directly subject to MiFID II and any implementation thereof by an EU Member State. It is therefore not a "manufacturer" for the purposes of the MiFID Product Governance Rules under EU Delegated Directive 2017/593 and has no responsibility or liability for identifying a target market, or any other product governance obligation set out in MiFID II, for financial instruments it issues (including the foregoing target market assessment for the Notes described in this legend).]

General information

Authorisations

The issuance of this Offering Circular was approved on 12 March 2019, and the issue of Notes from the date of this Offering Circular was approved on 12 March 2019 in each case by the Corporate Treasurer of the Issuer acting pursuant to powers delegated to them by the board of directors of the Issuer.

Listing

Application has been made for Notes to be admitted to the Official List and for such Notes to be admitted to trading on the SGX-ST.

So long as any Notes are listed on the SGX-ST and the rules of the SGX-ST so require, the Issuer shall appoint and maintain a paying agent in Singapore where the Notes may be presented or surrendered for payment or redemption in the event that a Note in global form representing the Notes is exchanged for Notes in definitive form. In addition, in the event that a Note in global form representing the Notes is exchanged for Notes in definitive form, announcement of such exchange shall be made through the SGX-ST and such announcement will include all material information with respect to the delivery of the Notes in definitive form, including details of the paying agent in Singapore.

It is expected that each Series of Notes which is to be admitted to the Official List of the SGX-ST and to trading on the SGX-ST will be admitted separately as and when issued, subject only to the issue of a Global Note or Notes initially representing the Notes of such Series.

Application may also be made for Notes issued under the Program to be listed on the Australian securities exchange operated by ASX and any other stock exchange (including the debt market operated by NZX Limited) on which Notes may be listed from time to time as specified in the relevant Pricing Supplement. Unlisted Notes may also be issued under the Program. The relevant Pricing Supplement in respect of the issue of any Notes will specify whether or not those Notes will be listed on a stock exchange and on which stock exchange, if any, the Notes are to be listed. It is expected that, if listed, a particular Tranche of Notes will only be listed on one stock exchange as specified in the relevant Pricing Supplement.

Clearing of the Notes

The Notes (other than Australian Domestic Notes, New Zealand Domestic Notes and Canadian Domestic Notes) have been accepted for clearance through Euroclear and Clearstream, Luxembourg. The Issuer may apply to have Canadian Domestic Notes accepted for clearance through CDS. Such Canadian Domestic Notes may also clear through Euroclear and Clearstream, Luxembourg if so specified in the relevant Pricing Supplement. The appropriate common code and the International Securities Identification Number in relation to the Notes of each Series will be specified in the Pricing Supplement relating thereto. The Issuer may also apply to have the Notes accepted for clearance through the CMU. The relevant CMU instrument number will be specified in the relevant Pricing Supplement.

The relevant Pricing Supplement shall specify any other clearing system as shall have accepted the relevant Notes for clearance together with any further appropriate information. The address of Euroclear is 1 Boulevard du Roi Albert II, B-1210 Brussels, Belgium, the address of Clearstream, Luxembourg is 42 Avenue JF Kennedy, L-1855 Luxembourg and the address of CMU is 55th Floor, Two International Finance Centre, 8 Finance Street, Central, Hong Kong. The address of CDS is 85 Richmond Street West, Toronto, ON, Canada M5H 2C9. The address of any alternative clearing system will be specified in the applicable Pricing Supplement.

US selling restrictions

Notes (other than Temporary Global Notes, Australian Domestic Notes, New Zealand Domestic Notes and Canadian Domestic Notes) and any Coupon appertaining thereto will bear a legend substantially to the following effect: "Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code." The sections referred to in such legend provide that a United States person who holds a bearer Note or Coupon will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such bearer Note or Coupon and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income. For more information see "Sale and subscription - Selling Restrictions - United States of America" on pages 113 to 114 inclusive of this Offering Circular.

Settlement arrangements

Settlement arrangements will be agreed between the Issuer, the relevant Dealer(s) and the Fiscal Agent (if relevant) in relation to each Tranche of Notes.

Foreign Account Tax Compliance Act

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a “foreign financial institution” may be required to withhold on certain payments it makes (“foreign passthru payments”) to persons that fail to meet certain certification, reporting, or related requirements.

A number of jurisdictions (including Australia) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (“IGAs”), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. A foreign financial institution resident in an IGA jurisdiction must comply with specific due diligence procedures to identify its account holders and provide the U.S. Internal Revenue Service (directly or indirectly) with information on financial accounts held by U.S. persons and recalcitrant account holders. Consequently, Noteholders may be requested to provide certain information and certifications to any financial institutions through which payments on the Notes are made.

Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding is not expected to apply until the date that is two years after the date on which final regulations defining “foreign passthru payments” are published in the U.S. federal register. In addition, Notes treated as debt for U.S. federal income tax purposes and issued on or prior to the date that is six months after the date on which final regulations defining “foreign passthru payments” are filed with the U.S. Federal Register generally would be “grandfathered” for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the Issuer). However, if additional Notes (as described under Condition 32 (“Further issues”)) that are treated as debt for U.S. federal income tax purposes and are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period, then withholding agents may – if such additional notes are subject to withholding under FATCA – treat both the additional Notes and such previously issued Notes offered prior to the expiration of the grandfathering period as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, pursuant to the Conditions of the Notes the Issuer will not be required to pay additional amounts as a result of the withholding.

FATCA withholding and the ICSDs

Whilst the Notes are in global form and held within the Euroclear Bank SA/NV or Clearstream Banking S.A. (together, the “ICSDs”), it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent and the Common Depositary, given that each of the entities in the payment chain between the Issuer and the participants in the ICSDs is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the securities. The documentation expressly contemplates the possibility that the securities may go into definitive form and therefore that they may be taken out of the ICSDs. If this were to happen, then a non-FATCA compliant holder could be subject to withholding. However, definitive Notes will only be printed in remote circumstances.

Common Reporting Standard

The OECD Common Reporting Standard for Automatic Exchange of Financial Account Information (“CRS”) requires certain financial institutions to report information regarding certain accounts (which may include the Notes) to their local tax authority and follow related due diligence procedures. Noteholders may be requested to provide certain information and certifications to ensure compliance with the CRS. A jurisdiction that has signed a CRS Competent Authority Agreement (“Agreement”) may provide this information to other jurisdictions that have signed the Agreement. Australia has concluded such Agreements with a number of jurisdictions.

The proposed EU financial transactions tax (“FTT”)

On 14 February 2013, the European Commission published a proposal for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (“Participating Member States”). However, Estonia has since stated that it will not participate.

The proposed FTT has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under current proposals, the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a Participating Member State. A financial institution may be, or be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State.

However, the FTT proposal remains subject to negotiation between Participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.
