- 2.6 Once you registered for the Telstra Cloud Sight platform you will have the ability add users (each an “**Authorised User**”). Each Authorised User can be assigned roles within the Telstra Cloud Sight platform. For further information on the roles you can assign to your Authorised Users, see <https://cloudsight.zendesk.com/hc/en-us/categories/360000229477-FAQs>

You will be deemed to have authorised your registered users to place orders with us. You agree to be bound by any order placed by your registered users.
- 2.8 Your order must contain the ordering information that we request. The information that you provide must be accurate and complete. This information may include configuration information. You agree to promptly advise us of any changes to your information so that it remains true, accurate, up to date and complete. If the information you provide us with is inaccurate or not complete, the Telstra Cloud Sight platform may not work properly (or at all).

3 TELSTRA CLOUD CONNECTOR

- 3.1 The Telstra Cloud Connector service enables you to connect your eligible Telstra carriage service to compatible cloud services purchased through Telstra via “private connections”, such as AWS Direct Connect and Azure Express Route. You can also aggregate bandwidth across multiple compatible clouds. For details of eligible carriage services, compatible cloud providers and locations please refer to the Telstra Cloud Connector Overview at <https://cloudsight.zendesk.com/hc/en-us/articles/360002419717-Cloud-Connector-Overview>.
- 3.2 The private connections will incur additional consumption charges.
- 3.3 Depending on the private connection, you may need to configure your private connection via the cloud provider’s management console to complete the network route from your Telstra private network through to your cloud provider account.
- 3.4 Save as set out below, the Cloud Gateway terms and conditions apply to your use of the Telstra Cloud Connector service, a copy of which can be found here: <https://www.telstra.com.au/content/dam/tcom/our-customer-terms/business-government/pdf/bg-clouddirect.pdf>).
- 3.5 You can purchase the Telstra Cloud Connector service either on a casual month to month basis or with a minimum term of up to a maximum of 36 months.
- 3.6 If you are on a month to month contract, you can upgrade or downgrade your Telstra Cloud Connector bandwidth at any time. If you are on a minimum term contract, you can upgrade your Telstra Cloud Connector bandwidth tier at any time but cannot downgrade your bandwidth tier below your original contracted tier during your minimum term. The Telstra Cloud Connector bandwidth changes will take effect immediately.

Our Customer Terms

Cloud Services – Telstra Cloud Sight

- 3.7 To upgrade or downgrade the bandwidth allocated to a specific private connection may require you to decommission the current connection and provision a new connection. Please refer to the Telstra Cloud Connector Overview for details of the limitations associated with your chosen private connection.

Bandwidth Utilisation

- 3.8 Bandwidth utilisation data is only retained for up to 1 year.
- 3.9 Bandwidth utilisation data is collected via the Telstra edge routers connected to your Eligible Services. There may be a delay of up to 5 minutes from collection of the bandwidth utilisation data to displaying it on the Telstra Cloud Sight platform. If there are any discrepancies in the data beyond this timeframe, we will correct it in accordance with the service levels.

4 BUDGET AND FORECAST CONTROLS FEATURE

- 4.1 The Telstra Cloud Sight platform is designed to allow you to set budgets and see forecasted spend for your Eligible Services accounts ("**Budgets**" and "**Forecasts**"). These Budgets and Forecasts are based on:
- (a) publicly available information; and
 - (b) the fee information for the Eligible Services that you choose to manage through the Telstra Cloud Sight platform and that may be obtained from your relevant Eligible Services bill or from the Eligible Services provider.
- 4.2 Subject to the Australian Consumer Law provisions in the General Terms of Our Customer Terms, you acknowledge that Forecasts:
- (a) may not be accurate or complete;
 - (b) may be in another currency and require you to convert the Forecast to Australian dollars, which will introduce variability due to currency fluctuations;
 - (c) may not take into account all options and discounts;
 - (d) may not take into account the specifics of your agreed pricing with us or third parties for the Eligible Services (although you may be able to apply mark-ups or mark-downs within the Telstra Cloud Sight platform to adjust the standard pricing);
 - (e) may not reflect the actual price at which you may be able to purchase the Eligible Service(s) (whether from us or another supplier); and
 - (f) may change from time to time.
- 4.3 Subject to the Australian Consumer Law provisions in the General Terms of Our Customer Terms, you acknowledge that we make no warranties or representations as to the accuracy or completeness of the Budgets and Forecasts.

- (a) the Cloud Account Hardening blueprint and Cloud Assessment Report:

 - (b) we do not guarantee end-to-end compliance with the industry standard or regulation and we do not and cannot assume your compliance obligations under all or any of the industry standards or regulations; and
 - (c) you remain responsible for your overall compliance with the applicable industry standards and regulations.
- 5.5 Once you have applied a compliance blueprint to an Eligible Service account, you cannot subsequently change to another blueprint or remove the blueprint. You will still be able to make configuration changes to the architecture of your Eligible Service within the console for that Eligible Service, but this may cause alerts within your Telstra Cloud Sight account.
