Part B – Old consumer pricing plans that are no longer available for new connections

2 Telstra Mobile Plans

Not available for new connections on and from 1 July 2020

Eligibility

- 2.1 To be eligible for a Telstra Mobile Plan, you must be a new customer or an existing customer with a 13-digit account number.
- 2.2 If you are a business customer, you must provide us with proof of your ABN, ACN or ARBN.

Availability

- 2.3 All Mobile Plans are month-to-month plans that are available until withdrawn by us. At the end of each month your Mobile Plan will automatically roll over to the next month unless you or we change or cancel the plan.
- 2.4 To connect your existing Telstra mobile service to a new Mobile Plan, you must request to be moved and connected to a new Mobile Plan. This will lead to the cancellation of your existing Telstra mobile plan. We will not charge any applicable early termination charges for your service, however you'll have to pay us any fees and remaining device repayments arising from that cancellation, in full, if an associated device cannot be upgraded or transferred across to the new Mobile Plan.
- 2.5 International Call Packs offered before 1 July 2020 are not compatible with Mobile Plans and cannot be added or brought across to your Mobile Plan.

Device Options

- 2.6 Mobile Plans are for personal use with compatible smartphones only. Other devices including tablets or mobile broadband devices are not eligible for use with Mobile Plans and may be blocked.
- 2.7 If you take up a Mobile Plan, you may:
 - a) purchase an eligible device on a Device Payment Contract (DPC). The DPC terms and conditions are set out in Part C – Special Promotions of the Telstra Mobile Section of Our Customer Terms; or
 - b) bring your own (BYO) compatible handset or purchase a Telstra Mobile Network compatible handset. For the best possible experience on the Telstra Mobile Network, use a handset that supports 3G-850MHz, both 4G 1800MHz and 4G 700MHz, and 5G 3500 MHz banding. Check your device manual or manufacturer's website for more information.
- 2.8 We may choose to offer Device Payment Discounts (**DPD**) from time to time if you

Part B – Old consumer pricing plans that are no longer available for new connections

purchase an eligible handset on a DPC. If you purchase an eligible handset:

- a) you will receive the DPD amount as a credit towards your handset repayments each month for the term of your DPC;
- b) we will tell you the DPD amount when you take up your eligible DPC; and
- c) the monthly device repayments (if any) on your bill are the monthly amount you owe after the DPD amount has been applied.

2.9 If you cancel your Mobile Plan or your DPC, you will no longer be entitled to any DPD and you must pay the balance of any remaining device repayments in full.

Accessory Repayment Option

2.10 You can choose to buy compatible mobile accessories with your Mobile Plan through an Accessory Repayment Option (ARO). If you cancel your ARO, you'll have to pay the remaining cost of the accessories in full. The ARO terms and conditions are set out in [Part C – Special Promotions of the Telstra Mobile Section of Our Customer Terms](#).

Changing or cancelling your plan

Part B – Old consumer pricing plans that are no longer available for new connections

2.13 You can change to a different available Mobile Plan once a month. If you change your plan, then you’ll immediately be moved to the new plan, and at the end of the month, you’ll be billed a pro-rated amount based on how much time you spent on each plan.

Example: If you joined Telstra on the Small Plan on 1 July 2020, and then increase your plan to the Medium Plan on 10 July 2020, you’ll immediately be moved on to the Medium Plan on 10 July 2020 and enjoy benefits such as an increase from 40 to 180GB of data. At the end of that month (31 July 2020), you’ll be billed at a pro rata rate for 10 days of the Small Mobile Plan and 21 days of the Medium Plan amount, and after that your next monthly bill will be for the Medium Plan amount if you don’t change again

2.14 You can cancel your plan at any time without incurring any early termination charges for the service. However, you’ll need to pay:

Standard international roaming rates apply. See [Part I – Heading Overseas \(International Roaming\) of the Telstra Mobile Section of Our Customer Terms](#).

International Roaming Day Pass

2.18 All Mobile Plans have an International Day Pass activated, which for an additional charge per day lets you make and receive unlimited standard voice calls and SMS and includes 1GB data for use each day (AEST) when travelling in Eligible Roaming Destinations. If you use more than your included data allowance on your International Day Pass, we'll automatically add extra data to your service in blocks of 1GB for \$10 valid for 31 days. For more information refer to [Part I – Heading Overseas \(International Roaming\) of the Telstra Mobile Section of Our Customer Terms](#).

Part B – Old consumer pricing plans that are no longer available for new connections

2.19 Standard international roaming calls, SMS and MMS rates and mobile data at \$3 per MB (charged per KB or part) applies where you:

- a) use your mobile outside of Eligible Roaming Destinations; or

You can also check how much data you've used via the My Telstra app, MyAccount, and the Mobile Data Usage Meter.

2.21 Your Monthly Mobile Data Allowance cannot be shared with the data allowances of services on the same account as your Mobile Plans.

2.22 Your Monthly Mobile Data Allowance can only be used in Australia and cannot be used for sending SMS or MMS to international numbers. If you send SMS or MMS to international numbers or if you use your services overseas, additional charges will apply.

2.23 If you use more than your monthly data allowance in a month, you will not be charged extra for use of data within Australia and will continue to receive additional data with speeds capped at 1.5Mbps for the rest of the month until your next billing period. This is not suitable for HD video or high-speed applications, and means that some webpages, video/social media content and may take longer to load. You can still use your device to tether or create a wireless hotspot for other devices, but your speeds may be slowed further. We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.

2.24 If you have exceeded your monthly data allowance, you can increase your plan (once per month) to increase your monthly data allowance. See clause 6.13 on how to change your plan.

2.25 When calculating mobile data volumes:

- a) if the volume of data transferred is not a whole number of kilobytes, it is rounded up to the next kilobyte at the earlier of the end of each session or 24 hours; and
- b) 1024 bytes = 1 kilobyte (KB) and 1024 kilobytes = 1 megabyte (MB) and 1024 MB = 1 gigabyte (GB).

Part B – Old consumer pricing plans that are no longer available for new connections

International Roaming

- 8.16 International roaming is automatically activated on new JB Hi-Fi Mobile Plans (unless you're recontracting with your existing number or have chosen to opt to bar international roaming for that mobile service). Standard international roaming rates apply. See Part I – Heading Overseas (International Roaming) of the Telstra Mobile Section of Our Customer Terms.

Monthly Mobile Data Allowance

- 8.17 Your Monthly Mobile Data Allowance cannot be shared with the data allowances of services on the same account as your Telstra Mobile Plans.

Extra Data

- 8.18 For the JB Hi-Fi Mobile BYO and JB Hi-Fi Mobile Plans, if you use more than your Monthly Mobile Data Allowance in a month, we will automatically add extra data to your Monthly Mobile Data Allowance in blocks of 1GB, and you'll be charged \$10 per block (even if you only use part of that block) ("**Extra Data**"). You must pay us the excess charges up to an excess cap amount of \$100 per month per service ("**Excess Cap**"). Once you reach the Excess Cap, your service will be shaped to Peace of Mind data for the remainder of your billing period. Amounts we charge you for the monthly service/access fee and for data usage for international roaming do not count towards the Excess Cap and you will have to pay any applicable charges. See clause 4.23 – 4.24 below for more information on Peace of Mind data.

Part B – Old consumer pricing plans that are no longer available for new connections

Peace of Mind data

- 8.23 For Peace of Mind data, if you use more than your Monthly Mobile Data Allowance in a month, you will continue to receive additional data with speeds capped at 1.5Mbps (which is not suitable for HD video or high speed applications, and means that some webpages, video/social media content and may take longer to load). We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.
- 8.24 Peace of Mind Data can only be used in Australia. If you use your service overseas, additional charges will apply.

FairPlay Policy

- 8.25 Our FairPlay Policy (set out in the General Terms for Consumer Customers) applies to your Telstra Mobile Plan.
- 8.26 You must comply with our FairPlay Policy and not use your service in an unacceptable, unreasonable or fraudulent manner, or in a way that detrimentally interferes with the integrity of, or causes significant congestion to, the network. We may take action if you breach the FairPlay Policy, including suspending or cancelling your service.

Changing your plan or your minimum monthly spend

- 8.27 If we allow you to change your original minimum monthly spend or move to another in-market plan during your minimum term the terms in the table below will apply. If your change requires you to restart your minimum term, you may do so only if Telstra Mobile Plans are still available for recontracting.

Change	Consequence
If you move to the same type of Telstra Mobile Plan (i.e. BYO Plan to BYO Plan) with a lower minimum monthly charge	You must restart your minimum term, pay the balance of any DPC, and pay an early termination charge.
If you move to the same type of Telstra Mobile Plan (i.e. BYO Plan to BYO Plan) with a higher minimum monthly charge	You will not need to restart your minimum term and no early termination charge will apply.
If you move from a Mobile Plan with a DPC to a Mobile Plan with a DPC with a higher minimum monthly charge	<p>If you transfer your existing DPC onto a Mobile Plan of a higher value, you will not need to restart your minimum term and no early termination charge will apply. There will be no change to your original DPC or Device Plan Credit (if applicable).</p> <p>If you take up a new eligible handset on a DPC with your new Mobile Plan, you will need to restart your minimum term, pay the balance of any existing DPC, and you will also need to pay an early termination charge.</p>

Part B – Old consumer pricing plans that are no longer available for new connections

Change	Consequence
If you move from a Mobile BYO Plan to a Mobile Plan with a DPC	You must restart your minimum term and pay an early termination charge.
If you move from a Mobile Plan with a DPC to a Mobile BYO Plan	You must restart your minimum term. You must pay the balance of your DPC and your Device Plan Credit (if any) will cease, and you must pay an early termination charge.
If you move from a Telstra Mobile Plan to another Telstra plan or Telstra offer	You must pay an early termination charge and the balance of your DPC, and your Device Plan Credit (if any) will cease.

Early termination charges

8.28 If, at any time before the end of the 12-month or 24-month term (as applicable) of your Telstra Mobile Plan (“**Minimum Term**”):

- (a) you cancel your Telstra Mobile Plan (other than as a result of our material breach);
- (b) we cancel your Telstra Mobile Plan in accordance with the General Terms for Consumer Customers; or
- (c) you change your minimum monthly spend and the table above specifies you will have to pay an early termination charge,

then you must pay an early termination charge (“**ETC**”) and any costs incurred up to the point of cancellation.

8.29 The amount of any ETC payable is calculated in accordance with the formula in clause 3 of this Part B of the Telstra Mobile Section of Our Customer Terms.

8.30 The ETC decreases over the Minimum Term. The maximum ETC for each Telstra Mobile Plan is set out in the tables below. Please contact us for the amount of ETC payable.

JB Hi-Fi Mobile Plans	
\$45 Plan (12 months)	\$270
\$65 Plan (\$24 months)	\$780

8.31 If you cancel your 24 month JB Hi-Fi Mobile Plan \$65 before the end of the 24 month term and you received a Phone Credit, you will need to pay a pro-rated amount of the applicable Phone Credit based on the number of months remaining on your 24 month

Part B – Old consumer pricing plans that are no longer available for new connections

term. For example, if you were provided with \$500 Phone Credit to put towards a JB Hi-Fi handset and you cancelled your 24 month term at month 18, you would have to pay JB Hi-Fi 6/24 x \$500 = \$125. This pro-rated amount is in addition to any ETC's for your Telstra Mobile Plan that you may also have to pay.

At the end of your minimum term

- 8.32 At the end of your minimum term your service will remain on your chosen Telstra Mobile Plan, however if you are on a Mobile Plan, you will no longer be entitled to the Device Plan Credit. You cannot move to another Telstra Mobile Plan unless the plans are still available for recontracting and you recontract for another minimum term.
- 8.33 At any time, after the end of your minimum term we may roll your service over to any other current plan which is reasonably comparable or require you to move to any other current plan. We will tell you before this happens.

Electronic Billing and Payment

- 8.34 Your Telstra Mobile Plan requires paperless billing and electronic payment. A \$2.20 fee will apply each month in arrears if you receive a paper bill. A \$1.00 fee will apply each month in arrears if you make a bill payment in person or via mail.
- 8.35 Exemptions from these fees are available for:
- (a) Telstra Pensioner Discount customers;
 - (b) Telstra Disability Equipment Program customers, including those receiving a Braille or Large Print Bill;

- 13.6 You must not activate a pre-paid service with a Telstra 3G SIM. If you do this, we may notify you and require you to return your Telstra 3G SIM within 14 days. If you do not return your Telstra 3G SIM within 14 days, this will be a material breach by you of Our Customer Terms.

- 13.8 The coverage area of our 3G and Next G networks is not equal to the coverage area of our GSM network. For the latest coverage information, see [Telstra Mobile - Networks and Coverage - Our Coverage - Coverage Maps](#)
- 13.9 Although we use reasonable care and skill in providing the 3G and Next G Video Service, due to the nature of mobile networks, there may be places within our 3G or Next G coverage areas where access to our 3G and Next G Video Services is limited or unavailable, for example in high-rise buildings.

Part B – Old consumer pricing plans that are no longer available for new connections

Video calling - general

- 13.15 Video calling allows you to receive video calls from other 3G or Next G handsets and to make video calls to other 3G or Next G handsets. If you have a 3G or Next G handset that supports video calling to a personal computer, you will be able to make video calls to registered users of eligible personal computers.
- 13.16 You can use your 3G or Next G handset to make international video calls to 3GSM customers of mobile carriers in selected countries where we have arrangements in place. For a list of these countries see http://www.telstra.com.au/mobile/products/overseas/roamingoutbound.cfm#3g_roaming.
- 13.17 Unless an international video calling rate has been specified in this Part G – Data Services, a video call to an international mobile number is charged at the international call rate, as set out in Part D – Other Call Types in the Telstra Mobile section of Our Customer Terms.

Video calling to another 3G or Next G mobile

- 13.18 To make a video call to a 3G or Next G handset, both you and the person you are calling must be in a 3G or Next G coverage area (as applicable). If the person you are video calling is not in a relevant coverage area or does not have a compatible video phone, the video call will be unsuccessful and you will have the option to make a voice call instead. If the person you are video calling is not answering, is on another call or their phone is switched off, the video call will divert to their Video MessageBank.
- 13.19 If you or the person you have video called move out of a 3G or Next G coverage area (as applicable), your video call will drop out and you will have the option to call the person back with a voice call or move back into a relevant coverage area and make another video call.
- 13.20 When you answer a video call in a 3G or Next G coverage area (as applicable), the caller will be able to see you (or anything that your video camera is pointed at). If you do not want the caller to see you, you can then choose to turn off the video component after you have accepted the video call. However, the caller will still be charged for making a video call. The audio component of the call will default to the mobile phone's loud speaker, but you can use a headset if you want privacy. See your handset manufacturer's user guide for further information.
- 13.21 If you have a 3G handset, you will be able to roam seamlessly between our 3G and our GSM networks whilst making voice calls.

Video calling to a registered user of a personal computer

- 13.22 If you have a 3G or Next G handset that supports video calling from a mobile to a personal computer, you can also make video calls to eligible personal computers of users who have registered with Telstra via www.telstra.com/video/pcregistration and are

Part B – Old consumer pricing plans that are no longer available for new connections

connected to the internet via broadband. We do not recommend making video calls to a personal computer connected via a dial-up service, as the video call quality is extremely poor.

Video calling charges - general

- 13.23 For all video calls, we will charge you the applicable video call rates set out below for your mobile plan, unless the applicable voice call rates set out below apply to your mobile plan. Our FairPlay Policy applies. Our FairPlay Policy is set out in Part A - General of the Telstra Mobile section of Our Customer Terms. To see these terms – home and family customers [click here](#); business and government customers [click here](#).
- 13.24 Video calls will be included in the included calls component of your mobile plan (if any) and will be eligible for any voice call bonus options under your plan, unless otherwise specified in your mobile plan.
- 13.25 For all mobile plans other than the Get Connected Plans, Freedom Connect Plans, Freedom Connect BYO Plans, Every Day Connect Plans and Every Day Connect BYO Plans, we will charge you for national video calls in 30 second blocks (or part) plus call connection fee. 14 Telstra Mobile Broadband General Terms

Not available for new sales on and from 25 June 2019

What is Telstra Mobile Broadband?

- 14.1 The Telstra Mobile Broadband service allows you to use a Telstra mobile broadband device approved by us in connection with the Telstra Mobile Broadband service (“**Capable Device**”) to access data over Telstra’s Next G® network. A Capable Device includes a Telstra certified USB, a 3G or 4G enabled tablet or laptop, Telstra Mobile Wi-Fi or gateway device.
- 14.2 This clause applies to you if you access the Telstra Mobile Broadband service under these terms.
- 14.3 You must have an ABN, ACN or ARBN to be eligible to acquire a Telstra Mobile Broadband service.
- 14.4 You are not eligible to acquire a Telstra Mobile Broadband service under this section if you have a 13 digit account number.
- 14.5 If you do not meet our credit requirements, we may not supply you with a Telstra Mobile Broadband service. We will tell you if this happens.
- 14.6 If the other clauses in the Telstra Mobile Section of Our Customer Terms are inconsistent with something in this Telstra Mobile Broadband section of Our Customer Terms, then this Telstra Mobile Broadband section applies instead of the other clauses of the Telstra Mobile Section, to the extent of the inconsistency.

Coverage and handover between networks

- 14.7 For the latest coverage information call Customer Service on 125 111 (call charges apply) or visit www.telstra.com/mobilebbcoverage.
- 14.8 Although we will use reasonable care and skill in providing the Telstra Mobile Broadband service, because the Next G network (which includes 3G, 4G and GPRS network technology) is a radio network you may experience drop-outs from time to time. If your Capable Device is a Telstra certified USB, you may be able to use your Telstra certified USB’s Connection Manager function to ascertain which network technology your device is connected to. For other Capable Devices, the display screen on the Capable Device will indicate which network technology your device is connected to.
- 14.9 A Capable Device will automatically switch between 4G (if it is 4G compatible) and 3G or GPRS network technologies and maintain your connection during data transfers where a minimum of 3G coverage is available and suitable radio conditions exist.

Part B – Old consumer pricing plans that are no longer available for new connections

Usage of Next G network and devices

- 14.10 A Capable Device will access data over the Telstra Next G network (in the case of a Telstra Mobile Broadband 4G device, your device will be able to access Telstra 4G network technology, when in 4G coverage areas). A Capable Device is required to access the Next G network with a minimum specification of 3G 850 MHz or 4G 700MHz, 1800 MHz or 2600MHz band.
- 14.11 For optimum performance on our Next G network, you must use a Capable Device (and use it in accordance with any user guides issued by the manufacturer of that device). You may buy a Capable Device directly from us. The Capable Device is designed to work in a laptop PC (such as a USB modem), to connect another Wi-Fi device (such as Telstra Mobile Wi-Fi) or without a laptop PC (such as a 3G enabled tablet). We are unable to provide support for Capable Devices used in other customer equipment. You may not remove the SIM from a Capable Device and insert it into a mobile handset for the purposes of accessing data over Telstra's Next G network (or any other Telstra mobile network) with that mobile handset. If you insert your SIM in a mobile handset, we will block your access to data from that mobile handset. If this occurs, you will need to return the SIM to your Capable Device to resume data access.
- 14.12 You must use your Capable Device, your Telstra services and Telstra's networks in accordance with any minimum hardware and software requirements (details of which are available at www.telstra.com). We may terminate your access to our networks if you use any of them to adversely impact the operation and/or other customers' enjoyment of our networks or if you breach a material term of these terms, in accordance with the General Terms of Our Customer Terms. We will tell you before this happens.
- 14.13 If you buy a Capable Device from us, your Capable Device is programmed to operate only on the Telstra Next G network. If you wish to use your Capable Device with a non Telstra SIM card we may charge a network unlocking fee of \$27.50 to unlock your Capable Device.
- 14.14 You must not use your Telstra Mobile Broadband service to connect to the Internet via another internet service provider and unless we advise you otherwise, you must not use your Telstra Mobile Broadband service in connection with any machine-to-machine applications or to establish any point to point data connections with another modem.
- Note: A machine-to-machine application refers to any automated telemetry, telematics or telemetrics application or service which links two or more systems or devices with a mobile data connection.
- 14.15 Telstra Mobile Broadband 4G devices (excluding the Telstra Mobile Wi-Fi 4G device) are not compatible with sending or receiving SMS messages, unless we advise you otherwise. The Telstra Mobile Wi-Fi 4G device can receive SMS only.
- 14.16 You will not be able to use our 2G networks or 2G networks overseas with a Telstra Mobile Broadband 4G device, unless we advise you otherwise.
- 14.17 When you connect a Telstra Mobile Broadband 4G device, a network data session will

Part B – Old consumer pricing plans that are no longer available for new connections

immediately commence. When you disconnect a Telstra Mobile Broadband 4G device, the network data session may continue to download a small amount of data (“**Spurious Traffic**”) and charges may apply. To ensure you are not charged for Spurious Traffic, you must physically remove the Telstra Mobile Broadband 4G device from your equipment after use.

Eligible Data Usage

14.18 Eligible data usage does not include, and the monthly included hours/kilobytes cannot be used for any of the below services:

- (a) traditional voice and messaging services which use circuit switched technology including Voice calls and MessageBank, Video and Video MessageBank, BlackBerry, SMS (including Premium SMS) and MMS; or
- (b) any content subscription or Value Added Services including FOXTEL by Mobile; or
- (c) International Roaming.

Standard charges will apply for use of these services.

For terms relating to our International Roaming services, please see Part I of the Telstra Mobile Section of Our Customer Terms.

- (b) Monthly Share Casual Plans (**Share Casual Plans**).

15.5 You may take up a Share Plan as a BYO Plan (if you acquire only a SIM) or a MRO Plan (if you acquire a Capable Device subject to a Mobile Repayment Option (MRO) as per the terms and conditions as set out in Part C – Special Promotions of the Telstra Mobile Section of Our Customer Terms).

Data Use

15.6 You may use the monthly kilobytes included in your Share Plan to access data in Australia over our Next G® network (which includes access to 4G service if you are using a Telstra Mobile Broadband 4G device, when in 4G coverage areas).

Telstra Data Default Voice Plan

15.7 Share Plans are only available with a default Telstra Data Default Voice Plan and the voice call and SMS rates set out in the charging tables below will apply. The terms and conditions that apply to the Telstra Data Default Voice Plan are set out in clause **Error! Reference source not found.**

Sharing Data

- 15.8 Share Plans allow you to share the monthly included data allowance between the following eligible services on the same account:
- (a) Telstra Business Telstra Business Fleet Connect Plans (excluding \$10 Fleet Plans) and Business Mobile Advantage Plans on the same account as a Telstra Mobile Broadband Business Share Plan;
 - (b) Telstra Mobile Broadband Business Share Plans connected on or after 2 August 2011;
 - (c) Easy Share Business Plans;
 - (d) Easy Share Business SIM plans;
 - (e) Easy Share Data Share SIMs; and
 - (f) Business Performance Plans with a Data Share SIM attached.

(Eligible Services).

15.9 The monthly data allowance of all Eligible Services will contribute to a monthly shared data allowance available on your account (**Shared Data Allowance**). The Shared Data Allowance can only be used by Eligible Services on the same account. Any unused Shared Data Allowance will expire each month.

Part B – Old consumer pricing plans that are no longer available for new connections

- 15.10 If we believe on reasonable grounds that any included data allowance available under a Share Plan may be resold, assigned or resupplied to a third party other than your employee or employees of a wholly or majority owned subsidiary, we may refuse to supply you with a Share Plan. We will tell you if this happens.
- 15.11 This table sets out what will happen to your Shared Data Allowance if you make a change to an Eligible Service in between billing cycles.

If an Eligible Service is	
Cancelled	Any unused data as at the date of cancellation will remain on your account for the remainder of that billing month.
Added	A full month’s data allowance for the Eligible Service will be added to your Shared Data Allowance for the month (it will not be pro-rated).
Moved to another account	<p>The total data contributed to the Shared Data Allowance by the Eligible Service will be removed from the original Share Plan account.</p> <p>If the data used by the Eligible Service is greater than the data contributed, the maximum data removed from the Shared Data Allowance of the original Share Plan account will be data used by the Eligible Service.</p> <p>If the data used by the Eligible Service is less than the data contributed, then only the data used will be deducted from the Shared Data Allowance of the original Share Plan account for the applicable month.</p> <p>If the Eligible Service is moved to an account with another Share Plan on that account and there is an increase in the included monthly data allowance, the data allowance from that Eligible Service will be added in full to the Shared Data Allowance on the new Share Plan account and can be used by all Eligible Services connected to that account (it will not be pro-rated).</p>

Share Plan charges

- 15.12 You must pay us:
- (a) the Monthly Service Fee for your selected Share Plan;

You must pay us the excess charges up to an excess cap amount of \$100 per month (across the devices sharing data) (**Excess Cap**). Once you reach the Excess Cap, the service will be shaped to Peace of Mind data for the remainder of your billing period. Amounts we charge you for the monthly service/access fee and for data usage for international roaming do not count towards the Excess Cap and you will have to pay any applicable charges. See clause 11.15 – 11.16 below for more information on Peace of Mind data; and
- (d) any applicable early termination charge (**ETC**) as set out in clause 25.17; and
- (e) any applicable MRO charges or repayments.

15.13 Each Share Plan and all services related to the Share Plan will be billed on a Single Bill.

Pro-rata on connection

Peace of Mind data

15.15 For Peace of Mind data, if you use more than your Monthly Mobile Data Allowance in a month, you will continue to receive additional data with speeds capped at 1.5Mbps (which is not suitable for HD video or high speed applications, and means that some webpages, video/social media content and may take longer to load). We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.

15.16 Peace of Mind Data can only be used in Australia. If you use your service overseas, additional charges will apply.

cancelling your Share Plan

- 15.18 You may cancel your Share Plan at any time and your Monthly Service Fee will be pro-rated based on the number of days remaining in that month..
- 15.19 However, if during your contract term, you terminate your Share Plan other than as a result of our material breach or we deactivate your Share Plan for a material breach by you we may charge you an ETC, calculated as follows:

15.28 The Additional Data will be added to the monthly included kilobytes of your Shared Data Allowance. The terms that apply to your Shared Data Allowance apply to the Additional Data.

At the end of your contract term

15.36 At the end of your contract term, your service will remain on your selected Share Plan on a month to month basis. If that Share Plan is no longer available, we may roll your service onto any other monthly plan which is reasonably comparable. We will tell you before this happens. If you are not happy with your new Share Plan, you may terminate that Share Plan by giving us notice and without being charged an ETC.

- (a) we will pro-rate the monthly charge for the Eligible Service and credit the amount on your next bill;
- (b) we will not pro-rate the Shared Data Allowance attached to the Eligible Service. The unused portion of the Shared Data Allowance will be available for use by the remaining Eligible Services on the same account; and
- (c) if the Eligible Service remains suspended at the next billing cycle, we will adjust the Shared Data Allowance so that the usage allowance attached to the suspended Eligible Service is no longer included.

Mobile Data Usage Meter Notices – Share Plans

Part B – Old consumer pricing plans that are no longer available for new connections

To receive a MDUM usage SMS alert your Capable Device must be compatible with receiving SMS. You can change your default MDUM notifications to Email once you register for Telstra Online Services (visit Telstra.com/business/mdum for more info). You can also setup Email alerts to notify the nominated account holder if the MDUM estimates that account level usage for all eligible Shared services on the account has reached 50%, 85% or 100%.

Your Monthly Mobile Data Allowance and Extra Data

17.17 Your Monthly Mobile Data Allowance excludes content charges (including third party charges) and use while overseas. You may use your Monthly Mobile Data Allowance to access data in Australia over the Telstra Mobile Network.

17.18 If you use more than your Monthly Mobile Data Allowance, we will automatically add extra data to your service in blocks of 1GB, and you’ll be charged \$10 per block (even if you only use part of that block) (“**Extra Data**”). You must pay us the excess charges up to an excess cap amount of \$100 per month per service (“**Excess Cap**”). Once you reach the Excess Cap, your service will be shaped to Peace of Mind data for the remainder of your billing period. Amounts we charge you for the monthly service/access fee and for data usage for international roaming do not count towards the Excess Cap and you will have to pay any applicable charges. See clause 13.21 – 13.22 below for more information on Peace of Mind data.

Part B – Old consumer pricing plans that are no longer available for new connections

17.19 Any unused Monthly Mobile Data Allowance and Extra Data expires each month.

17.20 When calculating mobile data volumes:

- (a) if the volume of data transferred is not a whole number of kilobytes, it is rounded up to the next kilobyte at the earlier of the end of each session or 24 hours; and
- (b) 1024 bytes = 1 kilobyte (KB) and 1024 kilobytes = 1 megabyte (MB) and 1024 MB = 1 gigabyte (GB).

Peace of Mind data

17.21 For Peace of Mind data, if you use more than your Monthly Mobile Data Allowance in a month, you will continue to receive additional data with speeds capped at 1.5Mbps (which is not suitable for HD video or high speed applications, and means that some webpages, video/social media content and may take longer to load). We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.

17.22 Peace of Mind Data can only be used in Australia. If you use your service overseas, additional charges will apply.

Data Packs

17.23 If you need more data each month, you can purchase a Data Pack to add to your HWB Plan which includes a monthly data allowance for use on the Telstra Mobile Network in Australia. Data cannot be shared across with other HWB Plans or other services with shareable data.

17.24 The Data Pack terms and conditions are set out in Part B – Our current consumer pricing plans of the Telstra Mobile Section of Our Customer Terms.

Voice calls and SMS

17.25 As of 22 April 2020, your plan cannot be used to make or receive calls.

17.26 To access SMS capability, your SIM card must be placed in an SMS capable device. Not all tablet devices have this functionality.

Part B – Old consumer pricing plans that are no longer available for new connections

Changing your HWB Plan

17.28 If you have a 12 or 24 month plan, we may allow you to change your minimum monthly charge or move to another HWB Plan during your minimum term. If we do, the terms in the table below will apply.

Change	Consequence
If you move to another HWB Plan with the same minimum term and a higher monthly charge	You will not need to restart your minimum term and will not have to pay an early termination charge. You can also move back to your original plan value without paying an early termination charge.
If you move to another HWB Plan with the same minimum term and a lower monthly charge	You will need to restart your minimum term, and you will also need to pay an early termination charge.
If you move from a 24-month HWB Plan to another HWB Plan with a 12-month minimum term or vice versa	You will need to restart your minimum term, and you will also need to pay an early termination charge and the balance of any existing DPC (if applicable).

Early Termination Charges

17.29 If you have a casual HWB Plan, you can cancel your plan at any time without having to pay an early termination charge (“ETC”) but you must pay any charges up to the point of cancellation.

17.30 If you have a 12 or 24 month HWB Plan, and at any time before the end of the 12 or 24-month term (as applicable) (“**Minimum Term**”):

- (a) you cancel your HWB Plan (other than as a result of our material breach);
- (b) we cancel your HWB Plan in accordance the General Terms for Consumer Customers ; or
- (c) you change your HWB Plan and the table above specifies you will have to pay an early termination charge,

then you must pay an ETC and any costs incurred up to the point of cancellation.

17.31 If you need to pay an ETC under the terms of your plan, it will be calculated according to the following formula:

$$\text{Base ETC} \times \text{number of months (or part thereof) remaining in your minimum term}$$

Part B – Old consumer pricing plans that are no longer available for new connections

Total number of months in the minimum term

17.32 The ETC decreases over the Minimum Term. The maximum ETC for each Home Wireless Broadband Plan is set out in the table below. Please contact us for the amount of ETC payable.

Home Wireless Broadband Plans	Maximum ETC (incl. GST)	
	12 month plans	24 month plans
\$105 Plan	\$1,260	\$2,520
\$150 Plan	\$1,800	\$3,600

17.33 If you have taken up a DPC, any Device Credit you were receiving will end when your HWB Plan is cancelled and you must pay back the balance of any remaining DPC repayments.

At the end of your Minimum Term

17.34 If you have taken up a 12 or 24 month HWB Plan, at the end of your Minimum Term (as applicable), your service will remain on your selected HWB Plan on a month to month basis. If that HWB Plan is no longer available, we may roll your service onto any other monthly plan which is reasonably comparable. We will tell you before this happens. If you are not happy with your new plan, you may terminate that plan by giving us notice and without being charged an ETC.

Electronic Billing and Payment

17.35 Your Home Wireless Broadband Plan requires paperless billing and electronic payment. A \$2.20 fee will apply each month in arrears if you receive a paper bill. A \$1.00 fee will apply each month in arrears if you make a bill payment in person or via mail.

FairPlay Policy

- 18.45 Our FairPlay Policy (set out in the [General Terms for Consumer Customers](#)) applies to your Go Plan.

Changing your plan or your minimum monthly spend

- 18.46 If we allow you to change your original minimum monthly spend or move to another in-market plan during your minimum term the terms in the table below will apply. If your change requires you to restart your minimum term, you may do so only if Go Plans are still available for recontracting.

Change	Consequence
If you move to the same type of Go Plan (i.e. BYO Plan to BYO Plan) with a lower minimum monthly charge	You will need to restart your minimum term, pay the balance of any DPC, and you will also need to pay an early termination charge.
If you move to the same type of Go Plan (i.e. BYO Plan to BYO Plan) with a higher minimum monthly charge	You will not need to restart your minimum term and no early termination charge will apply.

Part B – Old consumer pricing plans that are no longer available for new connections

Change	Consequence
If you move from a Go Mobile Plan with a DPC to a Go Mobile Plan with a DPC with a higher minimum monthly charge	You will not need to restart your minimum term unless you take up a new eligible handset on a DPC with your Go Mobile Plan and no early termination charge will apply. There will be no change to your original DPC or Device Plan Credit (if applicable). If you take up a new eligible handset on a DPC with your new Go Mobile Plan, you will need to restart your minimum term, pay the balance of any existing DPC, and you will also need to pay an early termination charge.
If you move from a BYO Plan to a Go Mobile Plan with a DPC	You will need to restart your minimum term and you will need to pay an early termination charge.
If you move from a Go Mobile Plan with a DPC to a Go Mobile BYO Plan	You will need to restart your minimum term. You will need to pay the balance of your DPC and your Device Plan Credit (if any) will cease, and you will also need to pay an early termination charge.
If you move from a Go Mobile Casual Plan to any other Go Plan	You will need to start a new minimum term with your new Go Mobile Plan or Go Mobile BYO Plan and no early termination charge will apply.
If you move from a Go Plan to another Telstra plan or Telstra offer	You will need to pay us an early termination charge and the balance of your DPC, and your Device Plan Credit (if any) will cease.

Early termination charges

18.47 If, at any time before the end of the 12-month or 24-month term (as applicable) of your Go Plan (“**Minimum Term**”):

- (a) you cancel your Go Plan (other than as a result of our material breach);
- (b) we cancel your Go Plan in accordance the General Terms for Consumer Customers; or
- (c) you change your minimum monthly spend and the table above specifies you will have to pay an early termination charge,

then you must pay an early termination charge (“**ETC**”) and any costs incurred up to the point of cancellation.

18.48 The amount of any ETC payable is calculated in accordance with the formula in clause 3 of this Part B of the Telstra Mobile Section of Our Customer Terms.

18.49 The ETC decreases over the Minimum Term. The maximum ETC for each Go Plan is set out in the tables below. Please contact us for the amount of ETC payable.

If you change or cancel a Go Mobile Casual Plan during a month-to-month billing cycle you will receive a pro-rata refund of your monthly charge and your included call allowance will be pro-rated for the billing cycle.

18.51 If you have taken up a DPC, any Device Plan Credit you were receiving will end when your Go Mobile Plan is cancelled and you must pay back the balance of any remaining DPC repayments.

At the end of your minimum term

18.52 At the end of your minimum term your service will remain on your chosen Go Plan, however if you are on a Go Mobile Plan, you will no longer be entitled to the Device Plan Credit. You cannot move to another Go Plan unless the plans are still available for recontracting and you recontract for another minimum term.

18.53 If Go Plans are no longer available at the end of your minimum term we may roll your service over to any other current plan which is reasonably comparable or require you to move to any other current plan. We will tell you before this happens.

- (a) the minimum monthly charge for your Go MBB Plan;

Part B – Old consumer pricing plans that are no longer available for new connections

- (b) for data you use in excess of your Monthly Mobile Data Allowance;
- (c) any Extra Data;
- (d) all usage not eligible to draw from your included allowances;

- 19.16 If you use more than your Monthly Mobile Data Allowance, we will automatically add extra data to your Monthly Mobile Data Allowance in blocks of 1GB, and you'll be charged \$10 per block (even if you only use part of that block) ("**Extra Data**"). You must pay us the excess charges up to an excess cap amount of \$100 per month per service ("**Excess Cap**"). Once you reach the Excess Cap, your service will be shaped to Peace of Mind data for the remainder of your billing period. Amounts we charge you for the monthly service/access fee and for data usage for international roaming do not count towards the Excess Cap and you will have to pay any applicable charges. See clause 15.19 – 15.20 below for more information on Peace of Mind data.

Peace of Mind data

- 19.19 For Peace of Mind data, if you use more than your Monthly Mobile Data Allowance in a month, you will continue to receive additional data with speeds capped at 1.5Mbps (which is not suitable for HD video or high speed applications, and means that some webpages, video/social media content and may take longer to load). We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.

Part B – Old consumer pricing plans that are no longer available for new connections

19.20 Peace of Mind Data can only be used in Australia. If you use your service overseas, additional charges will apply.

Mobile Data Packs

19.21 If you need more data each month, you can purchase a non-share Mobile Data Pack to add to your Go MBB Plan which includes a monthly data allowance for use on the Telstra Mobile Network in Australia. Note: the 1GB Mobile Data Pack is incompatible with Go MBB Plans.

You may not remove your SIM from your compatible device and insert it into a mobile handset for the purposes of accessing data over Telstra’s Next G network (or any other Telstra mobile network) with that mobile handset. If you insert your SIM in a mobile handset, we will block your access to data from that mobile handset. If this occurs, you will need to return the SIM to your compatible device to resume data access.

When calculating data volumes:

- (a) where the volume of data transferred is not a whole number of kilobytes, it is rounded up to the next kilobyte at the earlier of the end of each session or 24 hours;
- (b) 1024 bytes = 1 kilobyte (KB) and 1024 kilobytes = 1 megabyte (MB) and 1024 megabytes = 1 Gigabyte (GB)

Or if you have opted into Extra Data after 12 May 2015, you'll be charged an additional \$10 for each extra 1GB of data (or part thereof) that you use in Australia (**Extra Data**). Regardless of whether you have opted into Extra Data, you must pay us the excess charges up to an excess cap amount of \$100 per month per service ("**Excess Cap**"). Once you reach the Excess Cap, your service will be shaped to Peace of Mind data for the remainder of your billing period. Amounts we charge you for the monthly service/access fee and for data usage for international roaming do not count towards the Excess Cap and you will have to pay any applicable charges. Peace of Mind data

- 32.19 For Peace of Mind data, if you use more than your Monthly Mobile Data Allowance in a month, you will continue to receive additional data with speeds capped at 1.5Mbps (which is not suitable for HD video or high speed applications, and means that some webpages, video/social media content and may take longer to load). We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.
- 32.20 Peace of Mind Data can only be used in Australia. If you use your service overseas, additional charges will apply.

If this occurs, you will need to return the SIM to your data-only device to resume data access.

- 35.6 You must have at least one Data Share SIM Plan connected to your Data Share BYO Package at all times.
- 35.7 Subject to clause **35.6**, you can cancel your Data Share SIM Plan at any time.

At the end of your contract term

55.6 Your service will remain on your chosen Telstra Mobile Plan at the end of the contract term on a month-to-month basis. You may terminate a month-to-month plan at any time by notifying us. If you do not enter into a new Telstra Mobile Member Plan you will not receive a monthly credit (if applicable) and may no longer receive any Telstra Mobile Plan bonus options. After the end of your contract term, you will be able to change your bonus option, but will not be able to choose a new monthly spend. On and from 8 September 2004, if you wish to recontract, you will need to move to another available plan.

55.8 You will need to restart your contract term if your new monthly spend is lower than your original monthly spend or you wish to receive the monthly credit associated with your new monthly spend (if any). Your new monthly spend will be treated as your original monthly spend for your new contract term. On and from 8 September 2004, if your change involves restarting your contract term, you will need to move to another available plan.

Changing plans

55.9 You may move to an offer with a fixed contract term and a monthly spend/access fee, which is the same as or higher than your original monthly spend at any time within your contract term. We may charge you a \$50 Early Recontracting Fee, if you choose to move to a fixed-term offer with a monthly spend/access fee which is lower than your original monthly spend.

Part B – Old consumer pricing plans that are no longer available for new connections

56.3 You may choose one Network Bonus Option for each mobile service under your more4you casual plan.

56.4 You may change your chosen monthly spend or terminate your more4you casual plan at any time by telling us. On and from 5 March 2004, if you wish to change your chosen monthly spend, you will need to move to another available plan.

56.5 You are not eligible to receive Mobile Bonus Options or a monthly bonus.

(b) more4you member Plans (12 month term)

56.6 You must pay us your chosen monthly spend each month for your contract term. You must also pay us for any call charges beyond your included calls and for other services you use.

56.7 You may choose one Network Bonus Option and one Mobile Bonus Option for each mobile service under your more4you Member Plan. The bonus options are described in more detail in Part C – Special Promotions of the Telstra Mobile section of Our Customer Terms.

Changing your monthly spend

56.8 We may allow you to change your monthly spend at any time.

56.9 If you do so, your call rates, included calls and monthly spend will be adjusted on a pro-rata basis to reflect your new monthly spend. You will need to restart your contract term, if your new monthly spend is lower than your original monthly spend or you wish to receive any monthly bonus associated with your new monthly spend. Your new monthly

Part B – Old consumer pricing plans that are no longer available for new connections

spend will be treated as your original monthly spend for your new contract term. On and from 5 March 2004, if you wish to restart your contract term, you will need to move to another available plan.

- 56.10 You may reduce your monthly spend by one level once in any 12-month period without charge. For any other reduction, we may charge you a fee of \$50 (incl. GST).
- 56.11 We may charge you a fee of \$150 (incl. GST) if during your contract term you cancel your more4you member plan or move to a pre-paid plan, more4you Casual Plan or an offer that is not approved. The approved offers are the more4business member offer and any other offers which we may determine from time to time. This means that you can move to the approved plans without being charged the fee.

When your contract ends

- 56.12 If you do not enter into a new more4you member plan before your contract ends, your service will roll onto a more4you casual plan. On and from 5 March 2004, if you do not enter into a new available plan before your contract ends, your service will be rolled onto a more4you casual plan.

(c) Adding mobile services

- 56.13 Until 4 March 2004, you may add eligible mobile services onto your more4you plan for no additional charge. Adding and removing mobile services will not affect your 12-month contract term. The maximum number of services you can add to your plan is set out in the table of charges below. On and from 5 March 2004, if you wish to add eligible mobile services onto your more4you plan you will need to move to another available plan.
- 56.14 Added mobile services will share in the included call value available under your more4you plan and will contribute to your monthly spend. You are responsible for all charges incurred by mobile services you add to your more4you plan.
- 56.15 If your more4you plan is terminated, all mobile services added to your plan may also be terminated. You must tell all users of the services if your plan is terminated.

(d) Sliding scale – member and casual customers

- 56.16 more4you plans have voice call rates which automatically reduce in a month after your monthly voice call spend reaches the next highest more4you monthly spend in a month. This applies only to voice calls that start after the higher monthly spend is reached. Calls that start before a particular monthly spend has been reached will not be re-rated after the spend level is reached.
- 56.17 At the end of each month, your voice call rates will go back to those applicable under your chosen more4you monthly spend.

 - (b) for data you use in excess of your Monthly Mobile Data Allowance;
 - (c) any Extra Data;
 - (d) all usage not eligible to draw from your included allowances (for example calls and SMS);
 - (e) if you have a DPC, for any device repayments (taking into account any Device Credit, if eligible); and
 - (f) any accessory repayments under any ARO.

Part B – Our current consumer pricing plans

Your Monthly Mobile Data Allowance and Extra Data

96.16 Your Monthly Mobile Data Allowance will be automatically pooled and shared with the data allowances of eligible services on the same account, including:

- (a) other Go Mobile Data Plus Plans;
- (b) Go Plans (Go Mobile Plans, Go Mobile Data Plans, Go Mobile BYO Plans and Go Mobile Casual Plans);
- (c) Mobile Accelerate Data Share Plans;
- (d) Companion Plans;
- (e) Data Share SIM plans; and
- (f) Everyday Connect Data Share Plans,

(“**Eligible Services**”).

96.17 The combined mobile data allowance of all Eligible Services on your account is your ‘Shared Monthly Data Allowance’.

96.18 You acknowledge and agree that any user of an Eligible Service (“**Eligible Service User**”) is able to make certain changes to your account that may affect your Data Plan and how much you pay each month. It is your responsibility to control how the Eligible Services Users use and manage their Eligible Services.

96.19 Your Monthly Mobile Data Allowance excludes content charges (including third party charges) and use while overseas. You may use your Monthly Mobile Data Allowance to access data in Australia over the Telstra Mobile Network.

96.20 If you use more than your Shared Monthly Mobile Data Allowance, we will automatically add extra data to your service in blocks of 1GB, and you’ll be charged \$10 per block (even if you only use part of that block) (“**Extra Data**”). You must pay us the excess charges up to an excess cap amount of \$100 per month (across the devices sharing data) (“**Excess Cap**”). Once you reach the Excess Cap, the service will be shaped to Peace of Mind data for the remainder of your billing period. Amounts we charge you for the monthly service/access fee and for data usage for international roaming do not count towards the Excess Cap and you will have to pay any applicable charges. See clause 92.23 – 92.24 below for more information on Peace of Mind data.

96.21 Any unused Monthly Mobile Data and Extra Data expires each month.

Part B – Our current consumer pricing plans

96.22 When calculating mobile data volumes:

- (a) if the volume of data transferred is not a whole number of kilobytes, it is rounded up to the next kilobyte at the earlier of the end of each session or 24 hours; and
- (b) 1024 bytes = 1 kilobyte (KB) and 1024 kilobytes = 1 megabyte (MB) and 1024 MB = 1 gigabyte (GB).

Peace of Mind data

96.23 For Peace of Mind data, if you use more than your Monthly Mobile Data Allowance in a month, you will continue to receive additional data with speeds capped at 1.5Mbps (which is not suitable for HD video or high speed applications, and means that some webpages, video/social media content and may take longer to load). We will also slow speeds further during busy periods to manage network congestion and ensure overall network experience.

96.24 Peace of Mind Data can only be used in Australia. If you use your service overseas, additional charges will apply.

Data Packs

96.25 If you need more data each month, you can purchase a Data Pack to add to your Data Plan which includes a monthly data allowance for use on the Telstra Mobile Network in Australia. Data can be shared across Eligible Services on the same account.

96.26 The Data Pack terms and conditions are set out in [Part B – Our current consumer pricing plans of the Telstra Mobile Section of Our Customer Terms](#).

SMS

96.27 As of 22 April 2020, your plan cannot be used to make or receive calls.

96.28 You cannot remove your SIM from your compatible tablet or mobile broadband device and insert it into a mobile handset for the purposes of accessing data over the Telstra Mobile Network with that mobile handset. If you insert your SIM in a mobile handset, we will block your access to data from that mobile handset. If this occurs, you will need to return the SIM to your compatible tablet or mobile broadband device to resume data access.

96.29 To access SMS capability, your SIM card must be placed in an SMS capable device. Not all tablet/mobile broadband devices have this functionality.

Part B – Our current consumer pricing plans

FairPlay Policy

96.30 Our FairPlay Policy (set out in General Terms of the Telstra Mobile Section of Our Customer Terms) applies to your Go Mobile Data Plus Plan.

Changing your Data Plan

96.31 If you have a 12 or 24 month plan, we may allow you to change your minimum monthly charge or move to another Data Plan during your minimum term. If we do, the terms in the table below will apply.

Change	Consequence
If you move to another Data Plan with the same minimum term and a higher monthly charge	You will not need to restart your minimum term and will not have to pay an early termination charge. You can also move back to your original plan value without paying an early termination charge.
If you move to another Data Plan with the same minimum term and a lower monthly charge	You will need to restart your minimum term, and you will also need to pay an early termination charge.
If you move from a 24-month Data Plan to another Data Plan with a 12-month minimum term or vice versa	You will need to restart your minimum term, and you will also need to pay an early termination charge and the balance of any existing DPC (if applicable).

Early Termination Charges

96.32 If you have a casual Data Plan, you can cancel your plan at any time without having to pay an early termination charge (“ETC”) but you must pay any charges up to the point of cancellation.

Part B – Our current consumer pricing plans

96.33 If you have a 12 or 24 month Data Plan, and at any time before the end of your 12 or 24-month term (as applicable) (“**Minimum Term**”):

- (a) you cancel your Data Plan (other than as a result of our material breach);
- (b) we cancel your Data Plan in accordance the General Terms for Consumer Customers ; or
- (c) you change your Data Plan and the table above specifies you will have to pay an ETC,

then you must pay an ETC and any costs incurred up to the point of cancellation.

96.34 If you need to pay an ETC under the terms of your plan, it will be calculated according to the following formula:

$$\frac{\text{Base ETC x number of months (or part thereof) remaining in your minimum term}}{\text{Total number of months in the minimum term}}$$

96.35 The ETC decreases over the Minimum Term. The maximum ETC for each Data Plan is set out in the table below. Please contact us for the amount of ETC payable.

Go Mobile Data Plus Plans	Maximum ETC (incl. GST)	
	12 month plan	24 month plan
\$15 Plan	\$90	\$180
\$30 Plan	\$180	\$360
\$45 Plan	\$270	\$540
\$70 Plan	\$420	\$840

96.36 If you have taken up a DPC, any Device Credit you were receiving will end when your Data Plan is cancelled and you must pay back the balance of any remaining DPC repayments.

At the end of your Minimum Term

96.37 If you have taken up a 12 or 24 month Data Plan, at the end of your Minimum Term (as applicable), your service will remain on your selected Data Plan on a month to month basis. If that Data Plan is no longer available, we may roll your service onto any other

Part B – Our current consumer pricing plans

monthly plan which is reasonably comparable. We will tell you before this happens. If you are not happy with your new plan, you may terminate that plan by giving us notice and without being charged an ETC.

Electronic Billing and Payment

96.38 Your Data Plan requires paperless billing and electronic payment. A \$2.20 fee will apply each month in arrears if you receive a paper bill. A \$1.00 fee will apply each month in arrears if you make a bill payment in person or via mail.

- (a) Telstra Pensioner Discount customers;
- (b) Telstra Disability Equipment Program customers, including those receiving a Braille or Large Print Bill;

96.41 **Electronic Payment:** You may pay your bill via Direct Debit, BPAY®, telstra.com, over the phone or via a CentreLink Payment or Telstra Bill Assistance Certificate. We may take action if you breach the FairPlay Policy, including suspending or cancelling your service.

Changing your plan or your minimum monthly spend

97.46 If we allow you to change your original minimum monthly spend or move to another in-market plan during your minimum term the terms in the table below will apply. If your change requires you to restart your minimum term, you may do so only if Telstra Mobile Plans are still available for recontracting.

Change	Consequence
If you move to the same type of Telstra Mobile Plan (i.e. BYO Plan to BYO Plan) with a lower minimum monthly charge	You must restart your minimum term, pay the balance of any DPC, an early termination charge.
If you move to the same type of Telstra Mobile Plan (i.e. BYO Plan to BYO Plan) with a higher minimum monthly charge	You will not need to restart your minimum term and no early termination charge will apply.

Part B – Old Consumer Pricing Plans that are no longer available for new connections

There will be no change to your original DPC or Device Plan Credit (if applicable). If you take up a new eligible handset on a DPC with your new Mobile Plan you will need to restart your minimum term, pay the balance of any DPC, and you will also need to pay an early termination charge.
If you move from a Mobile BYO Plan to a Mobile Plan with a DPC	You must restart your minimum term and pay an early termination charge.
If you move from a Mobile Plan with a DPC to a Mobile BYO Plan	You must restart your minimum term. You must pay the balance of any DPC and your Device Plan Credit (if any) will cease, and you must pay an early termination charge.
If you move from a Telstra Mobile Plan to another Telstra plan or Telstra offer	You must pay an early termination charge and the balance of your DPC. Your Device Plan Credit (if any) will cease.

- (a) you cancel your Telstra Mobile Plan (other than as a result of our material breach);
- (b) we cancel your Telstra Mobile Plan in accordance with the General Terms for Consumer Customers; or
- (c) you change your minimum monthly spend and the table above specifies you will have to pay an early termination charge,

then you must pay an early termination charge (“**ETC**”) and any costs incurred up to the point of cancellation.

97.48 The amount of any ETC payable is calculated in accordance with the formula in clause 3 of this Part B of the Telstra Mobile Section of Our Customer Terms.

97.49 The ETC decreases over the Minimum Term. The maximum ETC for each Telstra Mobile Plan is set out in the tables below. Please contact us for the amount of ETC payable.

At the end of your minimum term

97.51 At the end of your minimum term your service will remain on your chosen Telstra Mobile Plan, however if you are on a Mobile Plan, you will no longer be entitled to the Device Plan Credit. You cannot move to another Telstra Mobile Plan unless the plans are still available for recontracting and you recontract for another minimum term.

- 104.1 This part applies if you have an Ericsson Connectivity Management Platform Service Schedule with Telstra.
- 104.2 IoT Subscription Plans for roaming are only available for use with the Ericsson Connectivity Management service on the terms set out in this section of Part I and Telstra's Ericsson Connectivity Management Platform Service Schedule.
- 104.3 The Telstra IoT Wireless service allows your devices to roam within selected countries when used with the Ericsson Connectivity Management service.
- 104.4 International roaming involves the temporary access to the networks of overseas telecommunications carriers to provide you with services in overseas jurisdictions. This involves the reliance on overseas carriers whose networks may operate on different frequencies and at different specifications to Telstra's networks. It also requires the provision of information and data about you, your devices and your traffic to one or more overseas telecommunications carriers, and the transmission and storage of data necessary to initiate, maintain and administer the provision of your roaming service.
- 104.5 Therefore, you agree that:
- (a) International roaming involves the use of carriers whose infrastructure is based overseas and who are subject to overseas laws in the performance of their services (which, among other things, may require or permit those carriers to handle, store and disclose data in particular ways or to particular parties (including Governments)), and we or any local Telstra entity located in that country (if applicable) are not responsible for how those laws may apply to your use of the roaming services; and
 - (b) we do not control the nature, quality or coverage of any particular overseas network (including without limitation the frequencies used by those networks), and do not promise that you will receive any particular level of coverage or service while roaming, or that your device will necessarily be compatible with all networks in all countries; and

Part B – Old Consumer Pricing Plans that are no longer available for new connections

(c) we reserve the right to terminate your IoT Subscription Plan if requested to do so by any overseas telecommunications carrier.
